[Docket No. A-62 O-62]

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF ONION SETS GROWN IN THE LOWER LAKE MICHIGAN AREA

Whereas under Public Act No. 10, 73rd Congress, as amended and as reenacted by the Agricultural Marketing Agreement Act of 1937, notice of hearing is required in connection with a proposed marketing agreement or a proposed order, and the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration, United States Department of Agriculture, provide for such notice; and

Whereas the Secretary of Agriculture has reason to believe that the execution of a marketing agreement and the issuance of an order will tend to effectuate the declared policy of said act with respect to the handling in interstate and foreign commerce, and such handling as directly burdens, obstructs, or affects interstate or foreign commerce, of onion sets grown in the counties of Kenosha and Racine in the State of Wisconsin, the counties of Cook, Will, DuPage, Lake and Kankakee in the State of Illinois, and the counties of Lake and Porter in the State of Indiana, herein referred to as the Lower Lake Michigan Area;

Now, therefore, pursuant to the said act and said general regulations, notice is hereby given of a hearing to be held on a proposed marketing agreement and a proposed order regulating such handling of onion sets grown in the Lower Lake Michigan Area in the public school building, South Holland, Illinois, on December 28, 1937, at 10:00 a. m., c. s. t.

This public hearing is for the purpose of receiving evidence as to the general economic conditions which may necessitate regulation in order to effectuate the declared policy of the act and as to the specific provisions which a marketing agreement and order should contain.

The proposed marketing agreement and the proposed order each embodies, in similar terms, a plan for the regulation of such handling in interstate and foreign commerce, and such handling as directly burdens, obstructs, or affects interstate or foreign commerce, of onion sets grown in the Lower Lake Michigan Area. Among other things, the proposed marketing agreement and order provide for: (a) the establishment of a Control Committee, (b) grade and size regulation of shipments, (c) expenses of administration, and other matters relating to the handling of onion sets grown in the Lower Lake Michigan Area.

It is hereby declared that an emergency exists in the handling of onion sets in the aforesaid area which requires a shorter period of notice than fifteen (15) days; and it is hereby determined that the period of notice given is reasonable under the circumstances.

Copies of the proposed marketing agreement and proposed order may be inspected in or procured from the office of the Hearing Clerk, Room 0318, South Building, United States Department of Agriculture, Washington, D. C.

### National Bituminous Coal Commission.

At a Regular Session of the National Bituminous Coal Commission Held at its offices in Washington, D. C., on the 16th day of December, 1937.

[Docket No. 19–FD.]

INVESTIGATION OF THE NATURE AND EXTENT OF TRANSACTIONS IN INTRASTATE COMMERCE IN BITUMINOUS COAL IN THE STATE OF IOWA AND THE EFFECT OF SUCH TRANSACTIONS ON INTERSTATE COMMERCE IN SUCH COAL

It appearing that by Orders No. 2 and 26, the Commission, upon its own motion entered into and conducted an investigation under the provisions of Section 4–A of the Bituminous Coal Act of 1937, for the purpose of determining the nature and extent of transactions in intrastate commerce in bituminous coal in the State of Iowa and the effect of such transactions upon interstate commerce in such coal; and

It further appearing that reasonable public notice of a hearing was provided and that at said hearing interested parties were afforded an opportunity to be heard; that the presiding Examiner duly designated by the Commission having filed his report and recommendations and the Commission having given due consideration to said report and recommendations and to the record of the evidence in this proceeding; and, the Commission having on the 16th day of December, 1937, adopted the Examiner's report and recommendations as its own which said report is hereby referred to and made a part hereof;

Now, therefore, it is by order declared:

That substantially all transactions in bituminous coal in intrastate commerce in the State of Iowa directly affect interstate commerce in such coal; and

That there will be an undue or unreasonable advantage, preference or prejudice as between localities in Iowa in such intrastate commerce on the one hand and interstate commerce in bituminous coal on the other hand, and an undue, unreasoable, or unjust discrimination against interstate commerce in such coal if such transactions in intrastate commerce or any substantial part thereof are not regulated and subjected to the provisions of Section 4 of the Bituminous Coal Act of 1937.

Therefore, *It is further ordered:*

1. That on and after the 3rd day of January, 1938, all bituminous coal sold, delivered or offered for sale in transactions in intrastate commerce in such coal in all localities within the State of Iowa, shall be subject to the provisions of Section 4 of the Bituminous Coal Act of 1937, to the Bituminous Coal Code, as promulgated by the Commission and made effective on the 21st day of June, 1937, and to all relevant orders of the Commission in effect on the date of this order, as well as all further orders which may thereafter be issued by the Commission under Section 4 of said Act, so as to apply to such intrastate commerce in coal within the State of Iowa.

2. That any producer of bituminous coal in intrastate commerce within the State of Iowa, who may believe that his or its particular transactions in intrastate commerce in bituminous coal should be exempted from this order and/or from the provisions of Sections 4 and 4–A of said Bituminous Coal Act of 1937, may file application at any time hereafter for exemption pursuant to the second paragraph of Section 4–A of said Act, and be entitled to a hearing and appropriate orders thereon.

3. That the Secretary of the Commission shall give notice to each known producer of bituminous coal within the State of Iowa, who is not upon the date of this Order a member of the Bituminous Coal Code, by mailing, within five (5) days from this date, a copy of this Order, together with three (3) copies of the Form of Code Acceptance and rules prescribed by the Commission for filing acceptances, and a copy of the Bituminous Coal Code as promulgated under date of June 21, 1937.

The Secretary shall cause a copy of this Order to be published in the FEDERAL REGISTER, and shall also publish a copy thereof in a newspaper of general circulation in each county within the State of Iowa known to produce bituminous coal, publication thereof to be made three (3) times within fourteen (14) days from the date of this Order.

By order of the Commission.

Dated this 16th day of December, 1937.

[F. R. Doc. 37–3706; Filed, December 18, 1937; 12:26 p. m.]

[Order No. 139]

AN ORDER PRESCRIBING AND ESTABLISHING MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COALS OF CODE MEMBERS WITHIN DISTRICTS NUMBERS 15, 16, 17, 18, 19, 20, 22 AND 23, PURSUANT TO SECTION 4, PART II, OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having by its Orders Nos. 9 and 25 directed all District Boards to propose reasonable rules and regulations incidental to the sale and distribution of coal of code members produced within their respective districts, and to coordinate such marketing rules and regulations in the manner therein provided, and submit same to the Commission; and the said District Boards having proposed such rules and regulations, as directed, and the District Boards having coordinated the rules and regulations as proposed by them, with certain exceptions, which exceptions were submitted to the Commission, together with coordination agreements, and statements of the reasons therefor having been submitted to the Commission at a hearing; the Commission having given due consideration to the marketing rules and regulations as proposed and coordinated by the District Boards, as well as to the exceptions made thereto, and all other evidence and pertinent data submitted to it, and having conformed said marketing rules and regulations to the standards as set forth in Section 4, Part II of the Bituminous Coal Act of 1937,

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the Marketing Rules and Regulations, incidental to the sale and distribution of coals of Code Members within Districts Numbers 15, 16, 17, 18, 19, 20, 22 and 23, as set forth in the document so captioned, and filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are established and prescribed as the Marketing Rules and Regulations incidental to the sale and distribution of coals of Code Members in said Districts Numbers 15, 16, 17, 18, 19, 20, 22 and 23, and said Marketing Rules and Regulations shall be and become effective at 12:01 A. M. on the 3d day of January, 1938.

2. That any Code Member or District Board or Member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the Marketing Rules and Regulations may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and the Marketing Rules and Regulations incidental to the sale and distribution of coals of Code Members of Districts Numbers 15, 16, 17, 18, 19, 20, 22 and 23, to the Consumers' Counsel, the Secretaries of Bituminous Coal Producers' Boards for Districts Numbers 15, 16, 17, 18, 19, 20, 22 and 23, and to all Code Members within said Districts, shall cause copies of this order and said Marketing Rules and Regulations and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause a copy of this order to be published in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

Dated December 16, 1937

SECTION 1—DEFINITIONS

1. The term "person" as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, co-operatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A "Sales Agent" is a person who as agent, in law or in fact, sells coal for or on behalf of a code member.

3. A "commission" is the total of all compensations and allowances for services received by a sales agent from a code member for the sale of coal.

4. A "Wholesaler" is a person who purchases coal for resale and who resells such coal in lots of not less than a cargo or railroad carload, without physically handling such coal.

5. A "Farmers' Cooperative Organization" is a bona fide and legitimate cooperative organization duly organized under the laws of any State, Territory, the District of Columbia, or the United States, and composed of local farmers' cooperative organizations, and which purchases coal for resale and resells it in lots of not less than a cargo or railroad carload to its member farmers' organizations, without physically handling such coal.

6. A "wholesale discount" is the total of all allowances or reductions from minimum or other prices allowed to a wholesaler or farmers' organization by a code member or his sales agent.

7. "Retailing" is the selling of coal in lots of less than a cargo or railroad carload.

8. A "spot order" is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

9. A "contract" is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

10. A "commitment" is a contract or spot order after a quotation is accepted or an option is exercised and not reduced to writing.

11. A "quotation" is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

12. An "option" is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

13. "Coal Commission" as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

14. "Act" as used herein, shall mean the Bituminous Coal Act of 1937.

15. "District Board" as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

16. "Statistical Bureau" shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

17. "Minimum Price" shall mean a minimum price established and made effective by the Coal Commission.

18. "Maximum Price" shall mean a maximum price established and made effective by the Coal Commission.

19. "Registration and Register" as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

SECTION II—SALES AGENTS

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. All contracts for the appointment of sales agents by code members or by agents or authorized representatives of code members shall be in writing. Certified copies of all such agency contracts entered into and in effect prior to the effective date of these rules and regulations shall be filed by the code member with the statistical bureau or bureaus for the district in which the code member produces coal, on or before January 31, 1938.

Certified copies of all contracts appointing sales agents made subsequent to the effective date of these rules and regulations, shall be similarly filed by the code member within ten (10) days after the date upon which such contracts have been entered into.

4. As to all coal sold by a code member otherwise than through a sales agent or through sales representatives regularly employed as salesmen by the code member, such code member shall, not later than the tenth day of each calendar month, file with the statistical bureau, a list of all his sales representatives and all wholesalers through whom, directly or indirectly, any such coal was sold, with a statement (as to sales representatives) of the duration and character of their employment, the tonnage sold by each such sales representative and wholesaler, and the amount of compensation or discounts paid to and allowed by them.

Each code member shall file monthly similar information obtained from his sales agents with the statistical bureau, concerning sales of coal made by the sales agents' representatives other than salesmen regularly employed.

5. A list showing the names and addresses of sales agents and the code members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by code members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the code member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. On and after February 1, 1938, no code member shall pay any commission or make any allowance to any sales agent unless the contract of agency shall have been filed with the Coal Commission as hereinbefore required and unless the sales agent shall have agreed in writing with the code member to conform to and observe the minimum prices and Marketing Rules and Regulations established by the Coal Commission and shall have conformed to the Fair Trade Practice provisions of the Code, as well as to these Marketing Rules and Regulations and all other proper orders of the Coal Commission.

SECTION III—REGISTRATION OF WHOLESALERS

I. From and after the date hereinafter provided no code member or sales agent of a code member shall pay or allow any discount from minimum or other prices to any wholesaler as herein defined unless such wholesaler shall be registered with the Coal Commission at the time of the sale.

II. Wholesalers of coal desiring to qualify themselves so as to be entitled to receive from code members or their sales agents discounts from minimum prices established by the Coal Commission shall make application to be designated as Registered Wholesalers.

III. The form of application to be filed for approval as a Registered Wholesaler shall among other things set forth:

(*a*) The name of the applicant.

(*b*) The address of his principal place of business together with the address of each branch office maintained.

(*c*) The form of organization of applicant's business, whether corporate, partnership, individual or any other form.

(*d*) The names and addresses of all officers, directors, managers and other parties in interest, including in the case of a corporation, the names of all stockholders, bondholders and other persons having a substantial interest.

(*e*) The total tonnage of bituminous coal handled by the applicant in the years 1934; 1935; 1936 and the first six (6) months of 1937, together with a schedule of tonnage handled in 1936 and in the first six (6) months of 1937 for each code member.

Also a list showing the names and addresses of any person to whom the wholesaler sold more than ten percent of the coal of any code member handled by applicant in the year 1936.

(*f*) A statement of the applicant's affiliation, if any, with any coal producer, whether or not a code member, or any transporter, processor, distributor or consumer of coal.

(*g*) Each application must be accompanied by duplicate copies of the "Terms of Registration" hereinafter set forth, each properly signed and acknowledged.

A. On behalf of corporations, by a principal officer or officers of the corporation duly authorized to act.

B. On behalf of a partnership, by one or more of the partners duly authorized for that purpose.

C. On behalf of an individual, by the applicant or his attorney duly empowered for that purpose.

D. In the case of any other form of business organization, by a person or persons legally authorized to execute an application on behalf of the applicant."

IV. Each such application shall be accompanied by the following agreement, executed in duplicate and properly signed and acknowledged on behalf of applicant.

*Terms of Registration*

The undersigned wholesaler agrees upon being registered as a "Registered Wholesaler" by the Coal Commission and thereby becoming entitled to discounts authorized by the Coal Commission:

(1) Not to sell, deliver, resell or offer for sale any coal at a price less than the minimum price nor greater than the maximum price established by the Coal Commission for such coal and in effect on the date of delivery, and to sell coal produced only by code members.

(2) To comply with the provisions of Section 4, Part II (i) of the Bituminous Coal Act of 1937 relating to unfair methods of competition.

(3) To accept no discount on coal unless such coal is purchased for bona fide resale in conformity with these rules and regulations and the orders of the Coal Commission.

(4) To abide by the Marketing Rules and Regulations from time to time established by the Coal Commission governing the sale and distribution of coal.

(5) To furnish or cause to be furnished to the Coal Commission at any time upon its direction, a copy of every resale contract or order; a copy of each invoice to wholesaler's vendee, together with copies of each credit memorandum and such other information concerning the sale and distribution of coal as the Coal Commission may require.

(6) To include in every spot order and contract made or entered into by the Registered Wholesaler, the following provision:

This contract (or order) is made and accepted subject to the Marketing Rules and Regulations established by the National Bituminous Coal Commission and now in effect, and particularly to the terms of registration of wholesalers as set forth herein.

V. After receipt of any such application, the Coal Commission upon a determination that the applicant is a bona fide wholesaler agreeing to conform to its Marketing Rules and Regulations, shall register such person as a Registered Wholesaler and shall issue to the applicant a certificate of registration accordingly. The Coal Commisison shall promptly notify each District Board of such registration and shall publish from time to time for the information of code members, a list of Registered Wholesalers, which list shall be amended from time to time as the Coal Commission may direct, to show additions, withdrawals or removals.

VI. At any time upon complaint or upon its own motion, the Coal Commission may investigate and determine whether a Registered Wholesaler has violated the rules and regulations prescribed by the Coal Commission governing the resale of coal by such Registered Wholesaler.

The registration of any such wholesaler, may be suspended by the Coal Commission after hearing, held upon twenty (20) days written notice by mail to the wholesaler, and upon proof of failure or refusal to comply with any duty or requirement imposed upon the wholesaler by reason of his registration with the Coal Commission, the registration of the offending wholesaler may be suspended for such period of time as the Coal Commission in its discretion may deem proper. Each District Board and all code members in the districts in which the Registered Wholesaler has been purchasing coal for resale shall be duly notified by the Coal Commission of any suspension, including the effective date and the period thereof.

SECTION IV—FARMERS' COOPERATIVE ORGANIZATIONS

I. Farmers' Cooperative Organizations as hereinbefore defined shall, in order to obtain the privileges granted by the second paragraph of Number 13, subsection (i) of Part II—Marketing—of Section 4 of the Act, be registered with the Coal Commission as herein required and no code member or his sales agent shall pay or allow any discount from minimum prices to any farmers' cooperative organization on or after the first day of February 1938, unless such farmers' cooperative organization shall be so registered at the time of the sale.

II. Each such farmers' cooperative organization desiring to obtain such privileges and discounts shall make application to the Coal Commission for registration as bona fide and legitimate farmers' cooperative organization. Such application shall among other things set forth:

(1) The name and Post Office address of the applicant, date of organization and the names and addresses of the officers and directors, if any.

(2) The names of the local farmers' cooperatives which are members of applicant organization.

(3) The form of organization of applicant's business, with a reference to the law or laws under which such organization was formed.

(4) A statement of the purpose for which such organization is formed, as set forth in its Charter or Articles of Association.

(5) A statement of the qualifications for membership in such organization, as set forth in its Charter or Articles of Association, together with a specific statement as to whether membership is actually limited to bona fide local farmers' cooperatives.

(6) A statement of the terms and conditions under which such organization grants rebates, discounts, patronage dividends or other similar benefits to its members and the amount of rate thereof.

(7) A statement setting forth the territories in which applicant operates or proposes to operate.

(8) A statement showing the tonnages of bituminous coal purchased and resold by applicant in the calendar years 1934; 1935; 1936 and the first six (6) months of 1937.

III. Each such application shall have attached thereto duplicate copies of the following agreement, duly authorized, executed and acknowledged on behalf of applicant:

The undersigned Farmers' Cooperative Organization agrees, upon being registered as a Farmers' Cooperative Organization by the Coal Commission and thereby becoming entitled to discounts authorized by the Commission:

(1) Not to sell, deliver, resell or offer for sale any coal at a price less than the minimum price nor greater than the maximum price established by the Coal Commission for such coal and in effect on the date of delivery.

(2) To comply with the provisions of Section 4, Part II (i) of the Bituminous Coal Act of 1937 relating to Unfair Methods of Competition.

(3) To accept no discount on coal from a code member unless such coal is purchased for bona fide resale in conformity with the rules and regulations and orders of the Coal Commission.

(4) To abide by the Marketing Rules and Regulations from time to time established by the Coal Commission governing the sale and distribution of coal.

(5) To furnish or cause to be furnished to the Coal Commission at any time upon its direction, such information as to sales of coal made by applicant as the Coal Commission may require.

IV. After receipt of any such application the Coal Commission, upon a determination that the applicant is a bona fide and legitimate farmers' cooperative organization as defined in said Act and in these regulations, shall register such applicant as a Registered Farmers' Cooperative Organization and shall issue to the applicant a certificate of Registration accordingly. The Commission shall promptly notify each District Board of such registration and shall publish from time to time for the information of code members, a list of Registered Farmers' Cooperative Organizations, which list shall be amended from time to time as the Coal Commission may direct in order to show additions, withdrawals or removals.

V. At any time upon complaint or upon its own motion, the Coal Commission may investigate and determine whether a Registered Farmers' Cooperative Organization has violated the rules and regulations prescribed by the Coal Commission governing the resale of coal by such Registered Farmers' Cooperative Organization.

The registration of any such Registered Farmers' Cooperative Organization may be revoked by the Coal Commission after hearing, held upon twenty (20) days written notice by mail, upon proof that such Registered Farmers' Cooperative Organization no longer complies with the requirements of the Act and of the Coal Commission, and in case of failure or refusal to comply with any duty or requirement imposed upon the Registered Farmers' Cooperative Organization by reason of its Registration with the Coal Commission having been established, the Coal Commission

may suspend the Registration for such period of time as the Coal Commission in its discretion may deem proper. Each District Board and all code members in which the Registered Farmers' Cooperative Organization has been purchasing coal for resale shall be notified by the Coal Commission of any revocation or suspension, including the effective date and the period of any suspension.

SECTION V—DISCOUNTS AND ALLOWANCES

Section 4, Part II, subsection (i) of the Act provides:

(i) The following practices with respect to coal shall be unfair methods of competition and shall constitute violations of the code:

1. The consignment of unordered coal, or the forwarding of coal which has not actually been sold, consigned to the producer or his agent: Provided, however, That coal which has not actually been sold may be forwarded, consigned to the producer or his agent at rail or track yards, tidewater ports, river ports, or lake ports, or docks beyond such ports, when for application to any of the following classes: Bunker coal, coal applicable against existing contracts, coal for storage (other than in railroad cars) by the producer or his agent in rail or track yards or on docks, wharves, or other yards for resale by the producer or his agent.

2. The adjustment of claims with purchasers of coal in such manner as to grant secret allowances, secret rebates, or secret concessions, or other price discrimination.

3. The prepayment of freight charges with intent to or having the effect of granting a discriminatory credit allowance.

4. The granting in any form of adjustments, allowances, discounts, credits, or refunds to purchasers or sellers of coal, for the purposes or with the effect of altering retroactively a price previously agreed upon, in such manner as to create price discrimination.

5. The predating or postdating of any invoice or contract for the purchase or sale of coal, except to conform to a bona fide agreement for the purchase or sale entered into on the predate.

6. The payment or allowance in any form or by any device of rebates, refunds, credits, or unearned discounts, or the extension to certain purchasers of services or privileges not extended to all purchasers under like terms and conditions, or under similar circumstances.

7. The attempt to purchase business, or to obtain information concerning a competitor's business by concession, gifts, or bribes.

8. The intentional misrepresentation of any analysis or of analyses, or of sizes, or the intentional making, causing, or permitting to be made, or publishing, of any false, untrue, misleading, or deceptive statement by way of advertising, invoicing, or otherwise concerning the size, quality, character, nature, preparation, or origin of any coal bought, sold, or consigned.

9. The unauthorized use, whether in written or oral form, of trade-marks, trade names, slogans, or advertising matter already adopted by a competitor, or any deceptive approximation thereof.

10. Inducing or attempting to induce, by any means or device whatsoever, a breach of contract between a competitor and his customer during the term of such contract.

11. Splitting or dividing commissions, brokers' fees, or brokerage discounts, or otherwise in any manner directly or indirectly using brokerage commissions or jobbers' arrangements or sales agencies for making discounts, allowances, or rebates, or prices other than those determined under this Act, to any industrial consumer or to any retailers, or to others, whether of a like or different class.

12. Selling to, or through, any broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer or an industrial consumer or of any organization of retailers or industrial consumers, whereby they or any of them secure either directly or indirectly, a discount, dividend, allowance, or rebates, or a price other than that determined in the manner prescribed by this Act.

13. Employing any person or appointing any sales agent, at a compensation obviously disproportionate to the ordinary value of the service or services rendered, and whose employment or appointment is made with the primary intention and purpose of securing preferment with a purchaser or purchasers of coal.

1. Effective February 1, 1938, no code member or sales agent of a code member shall allow or pay, directly or indirectly, any compensation for the selling of coal, whether by way of commission or allowance, to any sales agent whose contract of agency shall not have been filed with the Coal Commission.

2. Effective January 15, 1938, no code member or sales agent of a code member shall pay or allow any discount to any wholesaler or farmers' cooperative organization who shall not have filed an application for registration with the Coal Commission in the manner provided in Sections III and IV of these Marketing Rules and Regulations.

3. Effective February 1, 1938, no code member or sales agent of a code member shall pay or allow any discount to any wholesaler or farmers' cooperative organization which shall not be registered with the Coal Commission in the manner provided in Sections III and IV of these Marketing Rules and Regulations.

4. No discount from minimum or other prices shall be paid or allowed on coal sold to any person for retailing by him.

5. Subject to further order of the Coal Commission, the amount of commission to be paid by the code member to his sales agent and the amount of the discount to be allowed to a Registered Wholesaler or Registered Farmers' Cooperative Organization by a code member or his sales agent shall be fixed by agreement of the parties subject, however, to review as to the reasonableness of such commission or discount by the Coal Commission upon complaint or upon its own motion. In every case reviewed by the Coal Commission, the code member, sales agent or Registered Wholesaler or Registered Farmers' Cooperative Organization shall have the burden of establishing that the commission paid or discount allowed was a reasonable charge commensurate with the service actually rendered and did not exceed the fair cost of the service plus a reasonable profit on the transaction involved, and that the commission or discount so allowed was in conformity with the provisions of the Bituminous Coal Code and the Marketing Rules and Regulations of the Coal Commission.

6. No commission shall be paid to a sales agent or discount allowed to a wholesaler by a code member, where the coal is delivered or resold to any person who controls in whole or in part the sales agent or wholesaler.

SECTION VI—QUOTATIONS, OPTIONS AND CONTRACTS

I. No code member or sales agent of a code member and no wholesaler or farmers' cooperative organization, registered or proposing to register, shall at any time prior to the first day of February, 1938, enter into any agreement or order for the sale or delivery of coal for a period in excess of thirty (30) days from the date of such agreement or order, and no coal shall be sold for delivery at prices less than the minimum prices in effect at the time of delivery: Provided, however, that contracts for periods not exceeding one (1) year at prices not less than the minimum prices established by the Coal Commission, in effect at the time of delivery, may be made with agencies of the Federal Government or with such agencies of State or local Governments as are required by law to purchase coal for periods in excess of thirty (30) days. In the case of governmental agencies options may be given for a period not exceeding forty-five (45) days. Prior to February 1, 1938, no option for the sale of coal may be given, except as herein specifically provided.

II. On and after the first day of February, 1938, code members or sales agents of code members and wholesalers or farmers' cooperative organizations registered with the Commission may enter into contracts for the sale or delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas or other fuels or forms of power, or for such other reasons as the Commission may deem sufficient.

B. No contract for the sale of coal shall provide for shipments to commence at a date later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing, shall specify the date of execution, the effective date and expiration date, and shall further specify the number of cars or tonnage to be shipped thereunder. Contracts may also be made either (*a*) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (*b*) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding ten (10) percent of the tonnage specified.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by a written agreement which shall conform to all the requirements set forth in these Rules and Regulations.

E. No contract shall be made for the delivery of coal for retailing at less than minimum prices in effect at the time of shipment.

F. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

1. This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

2. If the price herein named is f. o. b. any point other than the originating mine, such price shall be increased or decreased by the amount and at the time of any change in the published freight rate included in such price and becoming effective during the period of the contract.

3. No shipment consigned to any destination point may be reconsigned en route or otherwise without the consent of the seller. In case of any reconsignment the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered.

4. The coal shipped pursuant to this contract is sold and purchased upon the condition that it shall be used in the plant or plants and at the destination named herein and for the use stated herein and is not to be sold or diverted by the buyer to other destinations or uses without the consent of the seller. In case of diversion the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery at such other destinations and for the use to which actually applied.

5. In event the cost of producing coal is increased or decreased in any district or minimum price area because of any change in wage rates or working conditions by reason of general agreements between the coal producers and mine employees of the district or area, or by State or Federal governmental taxes or regulations directly affecting costs of production, in such event the contract price herein named shall be increased or decreased by the amount determined and established by the Coal Commission as the weighted average increase or reduction in the cost of producing coal in the district or price area and which the Coal Commission shall by appropriate order direct to be added to or deducted from the prices named in all contracts for coals produced by code members within the district or area.

III. In any case where a contract is made by a sales agent of a code member or by a Registered Wholesaler or Registered Farmers' Cooperative Organization, such sales agent or Registered Wholesaler or Registered Farmers' Cooperative Organization shall not exercise the rights of the seller as defined in items F 3 and F 4 of Rule II of this section VI without first securing the consent in writing of the code member producing such coal.

IV. On and after February 1, 1938, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

The provisions of this Rule IV shall not apply to sealed bids on business of the United States Government or States or Political subdivisions thereof where coal is purchased for the performance of governmental functions, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

SECTION VII—SPOT ORDERS

1. Spot orders shall be acknowledged or accepted in writing within five (5) business days from the date of their receipt.

2. Every acceptance of a spot order shall contain the following clauses:

(*a*) "If the price herein named is f. o. b. any point other than the originating mine, such price shall be increased or decreased by the amount and at the time of any change in the published freight rate included in such price and becoming effective during the period of the order.

(*b*) "No shipment consigned to any destination point may be reconsigned en route or otherwise without the consent of the seller. In case of any reconsignment the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered.

(*c*) "The coal shipped pursuant to this order is sold and purchased upon the condition that it shall be used in the plant or plants and at the destination named herein and for the use stated herein and is not to be sold or diverted by the buyer to other destinations or uses without the consent of the seller. In case of diversion the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery at such other destinations and for the use to which actually applied.

(*d*) "If shipments called for by this order are not completed within thirty (30) days from the date of this order, the unfilled portion of the order shall be cancelled and no delivery of such tonnage shall be made."

3. In any case where a sale is made by a sales agent of a code member or by a Registered Wholesaler or Registered Farmers' Cooperative Organization, such sales agent or Registered Wholesaler or Registered Farmers' Cooperative Organization shall not exercise the rights of the seller as defined in items 2 (b) and 2 (c) of this section without first securing the consent in writing of the code member producing such coal.

4. All terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the acceptance. Any modification must be made in writing and filed in the same manner as an order.

SECTION VIII—USE OF COAL ANALYSES

1. No analysis of coal shall be utilized by a code member, sales agent, sales representative or wholesaler, or farmers' cooperative organization making a resale, in selling or offering for sale any coal produced by the code member, unless such code member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the district in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the code member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal Units and ash softening temperature. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the code member.

3. Any analysis of the coal of a code member made by or on behalf of a consumer and accepted by the code member as the basis for an adjustment of price under any contract or order shall be filed by the code member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule No. 2 herein.

4. No agreement or order for the sale of coal produced by a code member, made upon a premium and penalty basis, shall be entered into or accepted by a code member or wholesaler unless the analysis upon which the premium and penalty clause is based has been previously filed as required in Rule No. 1. Such analysis shall be accompanied by a statement setting forth in full the terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premium and penalty agreements entered into prior to the effective date of these regulations, and claimed to be continuing in effect, the code member, sales agent or wholesaler, party to the agreement, shall file a statement containing the information required under Rule No. 4, within fifteen (15) days from such effective date.

SECTION IX—TERMS OF PAYMENT

The price and fair trade practice provisions of the Act shall not be evaded or violated by a code member, his sales agent or any Registered Wholesaler or Registered Farmers' Cooperative Organization through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On rail shipments the date of payment of invoices for coal sold shall be on or before the 20th day of the month following shipment.

2. On railroad locomotive fuel, the date of payment shall be on or before the 25th of the month following the date of shipment.

3. Payment shall be made in full and on a net cash basis. No portion of the invoice price may be withheld by agreement by reason of any unadjusted claim of the buyer nor shall any portion be withheld or deposited in escrow by reason of any alleged agreement relating to the constitutionality of any provision of the Act or the validity of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance or other form of indebtedness, the seller shall charge and the buyer shall pay interest at the current market rate.

5. Freight on rail shipments shall not be paid by a code member, his sales agent or a Registered Wholesaler or Registered Farmers' Cooperative Organization, except to prepay stations as published in current railway tariffs or to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

SECTION X—CRUSHING AND PULVERIZING COAL

1. Each code member who maintains and operates at his mine or at any facility used in preparing coals for market, any crushing or pulverizing device, shall register such device with the Statistical Bureau of the Coal Commission, on or before the Twentieth (20th) day of January, 1938, on forms submitted by the Coal Commission.

2. Such forms shall include the following:

1. Name and address of code member.
2. Name of mine or facility at which device is located.
3. Name and style or type of crushing or pulverizing device.
4. Hourly capacity of device.
5. Sizes of coal which device can crush or pulverize.
6. Sizes of coal resulting from crushing or pulverizing.
7. Number of tons crushed in 1936 and in each month of 1937.
8. Cost per ton of crushing or pulverizing in 1936.

3. Beginning with the month of January 1938, each code member shall on or before the tenth (10th) day of each succeeding month, file with the Statistical Bureau on forms to be provided by the Coal Commission, a statement verified by affidavit, setting forth the following information for the preceding calendar month:

(*a*) Number of tons of each size crushed or pulverized.
(*b*) Number of tons of each size resulting from crushing or pulverizing.

SECTION XI—MISCELLANEOUS

1. No deduction or allowance shall be granted from invoice prices by any code member or sales agent, wholesaler or farmers' cooperative organization to any purchaser for advertising.

2. The price and fair trade practice provisions of the Act shall not be evaded by any payment or allowance by a code member to any purchaser or purchaser's representative covering advertising and the amount of expenditures for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the code member may, and in the case where the coal was sold by a Sales Agent or Registered Wholesaler or Registered Farmers' Cooperative Organization of the code member, such Sales Agent or Registered Wholesaler or Registered Farmers' Cooperative Organization with the approval of the code member may sell the same at the best obtainable price; provided, that in each case the code member, the Sales Agent, the Registered Wholesaler or the Registered Farmers' Cooperative Organization shall before making such resale first notify the statistical bureau and afford a reasonable opportunity to make inspection of such coal before the resale; and provided further, that in each case the code member shall file with the statistical bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale and that in making such resale, the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All code members and all Registered Wholesalers and Registered Farmers' Cooperative Organizations shall promptly furnish to the statistical bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such statistical bureau.

5. No allowance shall be made for any shipment of coal of substandard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit, setting forth the amount claimed by way of allowance and reasons for the claim is filed with the code member or Sales Agent or Registered Wholesaler or Registered Farmers' Cooperative Organization within five (5) days after the receipt of the coal and unless, before the coal on which such allowance is claimed is used or disposed of, reasonable opportunity is afforded the Coal Commission through its duly designated representative to make inspection of such coal.

The code member, Sales Agent, Registered Wholesaler or Registered Farmers' Cooperative Organization with whom such claim for allowance is filed shall immediately notify the statistical bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producers views as to the validity of the claim.

No allowance or adjustment for such inferior coal shall be made or deducted from the sales price by the code member, Sales Agent, Registered Wholesaler or Registered Farmers' Cooperative Organization without first receiving authorization therefor from the duly designated representative of the Coal Commission.

Within five (5) days from the date of granting any such allowance as approved by the representative of the Commission the code member, Sales Agent, Registered Wholesaler or Registered Farmers' Cooperative Organization shall file formal report with the statistical bureau setting forth:

A. The name and address of the consignee and the reason for the allowance.
B. The amount of allowance or adjustment made.
C. A statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or re-screening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at the market value of the coal but in no event at less than the minimum price therefor, established by the Coal Commission.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(*a*) The proposed substitution shall not be an express or implied condition of the order or contract.
(*b*) The coal substituted must be coal which the code member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.
(*c*) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the code member.
(*d*) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the code member over his competitors.
(*e*) Such substitution may be made only with the approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

The producer may make request and receive approval for substitution by telephone or telegraph from the duly designated representative of the statistical bureau of the Coal Commission for the district in which coal originates, provided the representative of the Coal Commission is satisfied that an immediate emergency exists. In such a case, the producer shall immediately confirm the request in writing on the prescribed form, and the designated agent of the Commission shall immediately upon receipt of such written request confirm his approval by issuing the permit prescribed by the Commission.

(*f*) Substitution will be allowed by producers on orders for railroad locomotive fuel without prior approval of the Commission; provided, however, the producer immediately shall file the form prescribed by the Commission with the statistical bureau of the district in which the coal originates. No substitution for lump or double screen coal ordered by the railroads for locomotive fuel shall be made without the prior approval in the manner heretofore provided, from the duly designated representative of the Commission.

(*g*) Copies of substitution permits shall be mailed daily to the office of the District Board and weekly summaries of substitution permits shall be mailed to all District Boards within the Price Area. The Commission may from time to time publish the essential facts as to all substitution permits granted.

(*h*) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

9. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required or the party so filing, to the penalties of the Act and other penalties imposed by law.

10. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

[Order No. 140]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER 15 IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 67 the weighted average of the total costs of the tonnage for Minimum Price Area 5 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the District Board in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district; equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of

the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 112 determined and established the initial classifications of coals of Code Members within said District Number 15; the District Board for District Number 15 having failed to coordinate in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices as found by Commission Order Number 115, and the Commission having acted in lieu of said District Board under the authority of Section 6 (a) of the Act in coordinating the said proposed minimum prices upon a fair competitive basis in common consuming market areas as determined by the Commission and set forth in the attached Schedule of Minimum Prices for Coals of Code Members within District Number 15, hereinafter referred to; and

The Commission, in coordinating and establishing the prices, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and having conformed to the standards that such prices (*a*) be just and equitable as between producers within each district, (*b*) do not permit dumping, (c) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (*d*) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (e) preserve, as nearly as may be, existing fair competitive opportunities, and (*f*) have due regard for the interests of the consuming public; and

The Commission having accepted the proposed minimum prices as submitted by the District Board of District Number 15, and having modified same so as to conform to the standards set forth in the Act, and having used said proposed prices as modified as a basis for coordination with other districts, has coordinated same in conformity with the provisions of the Act and in the manner aforesaid, and having determined that the minimum prices so coordinated do not, as to District Number 15 or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number 15, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number 15, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number 15 and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number 15 to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 5 and to Code Members within District Number 15, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary.*

PRICE SCHEDULE 1—DISTRICT NO. 15

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 15, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective, January 3, 1938.

Issued, December 16, 1937.

F. W. MCCULLOUGH, *Secretary.*

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies F. O. B. transportation facilities at mines, on all coal produced by Code Members in the District shown on the title page hereof.

2. All Prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. If any size is made for which a price is not designated herein, such shall be sold at the price applicable to the next larger size.

4. All size designations herein are for round hole screen. When other types of screens are used the round hole equivalent shall control the size.

5. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

6. All Prices herein are per net ton of 2,000 pounds F. O. B. transportation facilities at the mines unless otherwise designated.

7. When coal is subjected to any chemical, oil, or waxing process, an additional charge of not less than 10¢ per net ton shall be made.

8. The term "delivered cost" as used herein shall be construed to mean the authorized minimum price F. O. B. railroad transportation facilities at the mine plus the effective railroad freight rate.

SUBSTITUTION CLAUSE

The substitution on any order of a grade or size of coal taking a minimum price higher than the grade or size ordered is not authorized or permitted.

PRICE INDEX OF CODE MEMBER MINES

Minimum prices as published in the following schedules apply to all grades of coal sold or otherwise disposed of except as to such permitted reductions as are indicated in this price index.

Any Code Member mine not listed in this index shall observe the schedule of prices applicable on all sizes to the Production Group in which the mine is located.

NOTE.—Reductions permitted are indicated by minus the amount under the size coal on which the reduction from schedule may be made. Where no amount appears schedule price applies.

Prices are for unwashed coals. For prices on washed coals see below.

NOTE.—See following for explanation of Flag notes and other references.

*Production Group No. 1*

All prices shown above are for unwashed coals. F. O. B. mine prices for washed coals shall be determined as follows:

Lump—3″ x 2″ Nut—3″ x 1¼″ Nut—2″ x 1¼″ Nut—1¼″ x ¾″ Chestnut—3″ x 0″ Nut Run—2″ x 0″ Nut Run—, add 7 cents per ton to the F. O. B. mine price as shown when delivering to Consuming Market Areas Nos. 116, and 114. When delivering to all other Consuming Market Areas, add 15 cents to the F. O. B. mine prices as shown.

The F. O. B. mine price for 1¼″ x 0″ Washed Screenings shall be 110% of the F. O. B. mine price for 1¼″ x 0″ Raw Screenings shown above plus 10% of the rail freight rate from mine to destination.

*Explanation of Flag Notes*

Note (a). The f. o. b. mine prices of all sizes shown from 2″ x 0″ to and including lump may be adjusted so the delivered cost in this Consuming Area will be 35 cents per ton over the same size from Production Group No. 3 mines having the lowest freight rate. The f. o. b. mine price of 1¼″ x 0″ screenings may be adjusted to deliver at the same cost as washed 1¼″ x 0″ screenings from Production Group No. 3 with the lowest freight rate. Provided, however, the maximum reduction shall not exceed 25 cents per ton.

Note (a–2). The f. o. b. mine prices may be adjusted so the delivered cost in this Consuming Area over the delivered cost of the same size from Production Group No. 3 mines having the lowest freight rate will be as follows: All sizes of lump 45 cents per ton; all sizes of nut 40 cents per ton and 2″ x 0″, 3″ x 0″ and chestnut 35 cents per ton. The f. o. b. mine price of 1¼″ x 0″ screenings may be adjusted to deliver at the same cost as washed 1¼″ x 0″ screenings from Production Group No. 3 with the lowest freight rate. Provided, however, the maximum reduction shall not exceed 35 cents per ton.

Note (b). The f. o. b. mine prices of all sizes shown from 2″ x 0″ to and including lump may be adjusted so the delivered cost in this consuming area will be 35 cents per ton over the same size from Production Group No. 2 mines having the lowest freight rate. The f. o. b. mine price of 1¼ ″ x 0″ screenings may be adjusted to deliver at the same cost as washed 1¼″ x 0″ screenings from Production Group No. 2 mines with the lowest freight rate. Provided, however, the maximum reduction shall not exceed 25 cents per ton.

Note (c). The f. o. b. mine price for 1¼ x ¼ or 1¼ x ⅛ prepared raw screenings shall be 110% of the f. o. b. mine price for 1¼ x 0 raw screenings shown on page 13 plus 10% of the rail freight rate from mine to destination.

NOTE.—See following for explanation of flag notes and other references.

*Production Group No. 2*

Note (d). The f. o. b. mine prices for all sizes shown from 2″ x 0″ up to and including Lump may be adjusted so the delivered cost will be 35 cents per ton less than the same size from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 25 cents per ton. The f. o. b. mine price of washed 1¼″ x 0″ Screenings and 1¼″ x ¼″ or 1¼″ x ⅛″ prepared Screenings from Pro-

duction Group No. 2 may deliver at an equal delivered cost with 1¼'' x 0'' Screenings from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 15 cents per ton.

Note (e). The f. o. b. mine prices for all sizes shown except 1¼'' x 0'' Screenings may be adjusted so the delivered cost equals the delivered cost of the same size from Production Group No. 3. Provided, however, the maximum reduction shall not exceed 35 cents per ton. The f. o. b. mine price of 1¼'' x 0'' Screenings shall be 20 cents per ton less than the f. o. b. mine price of 1¼'' x 0'' washed Screenings from Production Group No. 2.

Note (e–2). The f. o. b. mine prices may be adjusted so as to deliver in this consuming area as follows: Lump 10 cents over; all sizes of nut 5 cents over; 2'' x 0'', 3'' x 0'' and chestnut to deliver equal with the same size from Production Group No. 3. Provided, however, the maximum reduction shall not exceed 50 cents per ton. The f. o. b. mine price of 1¼'' x 0'' Screenings may be 20 cents per ton less than the price of 1¼'' x 0'' washed screenings from Production Group No. 2.

Note (f). The f. o. b. mine prices may be adjusted so the delivered cost in this consuming area will be as follows: Lump 10 cents over; all sizes of nut 5 cents over: 2'' x 0'', 3'' x 0'' and chestnut to deliver equal with the same size from mines at Bevier, Missouri. Provided, however, the maximum reduction shall not exceed 35 cents per ton. The f. o. b. mine price of 1¼'' x 0'' screenings shall be 20 cents per ton less than 1¼'' x 0'' washed screenings.

Note (g). The f. o. b. mine price for all grades from any mine in Production Group No. 2 may be adjusted so the delivered cost will be equal with the mine in Production Group No. 2 having the lowest freight rate. Provided, however, the maximum reduction shall not exceed 25 cents per ton.

Note (h). The f. o. b. mine prices for all sizes from 2'' x 0'' up to and including lump may be adjusted so the delivered cost will be 35 cents per ton less than the same size from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 25 cents per ton. The f. o. b. mine price of 1¼'' x 0'' washed screenings and 1¼'' x ¼'' or ⅛'' prepared screenings may be adjusted so the delivered cost will be the same as 1¼'' x 0'' screenings from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 25 cents per ton. The f. o. b. mine price on 1¼'' x 0'' screenings may be 20 cents per ton less than the price of 1¼'' x 0'' washed screenings from Production Group No. 2.

PRODUCTION GROUP NO. 1

All prices shown above are for unwashed coals. F. o. b. mine prices for washed coals shall be determined as follows: Nut—3'' x 1¼'', Nut—2'' x 1¼'', Nut—1¼'' x ¾'', Chestnut—3'' x 0'', Nut Run—2'' x 0'', add 7 cents per ton to the f. o. b. mine price as shown when delivering to consuming market areas 116 and 114. When delivering to all other consuming market areas add 15 cents to the f. o. b. mine prices as shown.

The f. o. b. mine price for 1¼'' x 0'' washed screenings shall be 110% of the f. o. b. mine price for 1¼'' x 0'' raw screenings shown above plus 10% of the rail freight rate from mine to destination.

The f. o. b. mine price on ¼'' x 0'' refuse to all consuming market areas shall be 30 cents per ton.

*Explanation of Flag Notes*

Note (q). The f. o. b. mine prices on all sizes shown from 2'' x 0'' to and including 3'' x 1¼'' Nut may be adjusted so the delivered cost in this consuming area will be 35 cents per ton over the same size from Production Group No. 3 mines having the lowest freight rate. The f. o. b. mine price of 1¼'' x 0'' screenings may be adjusted to deliver 5 cents per ton over the delivered cost of washed 1¼'' x 0'' screenings from Production Group No. 3 mines having the lowest freight rate, provided, however, the maximum reduction shall not exceed 25 cents per ton.

Note (q–1). The f. o. b. mine price may be adjusted so the delivered cost in this consuming area over the delivered cost of the same size from Production Group No. 3 mines having the lowest freight rate will be as follows: 3'' x 1¼'' and 2'' x 1¼'' Nut 40 cents per ton and 2'' x 0'', 3'' x 0'' and Chestnut 35 cents per ton. The f. o. b. mine price of 1¼'' x 0'' screenings may be adjusted to deliver at 5 cents per ton over washed 1¼'' x 0'' screenings from Production Group No. 3 mines having the lowest freight rate. Provided, however, the maximum reduction shall not exceed 35 cents per ton.

Note (r). The f. o. b. mine prices on all sizes shown from 2'' x 0'' to and including 3'' x 1¼'' Nut may be adjusted so the delivered cost in this consuming area shall be 35 cents per ton over the same size from Production Group No. 2 having the lowest freight rate. The f. o. b. mine price of 1¼'' x 0'' screenings may be adjusted to deliver at 5 cents per ton over washed 1¼'' x 0'' screenings from Production Group No. 2 mines having the lowest freight rate. Provided, however, the maximum reduction shall not exceed 25 cents per ton. The f. o. b. mine price on 1¼'' x 0'' screenings for delivery on the A. T. S. F. Railroad Rock Creek Junction and East to the Missouri River may be reduced 10 cents per ton.

Note (s). The f. o. b. mine price for 1¼'' x ¼'' or 1¼'' x ⅛'' prepared raw screenings shall be 110% of the f. o. b. mine price for 1¼'' x 0'' raw screenings shown on page No. 34 plus 10% of the rail freight rate from mine to destination.

Note (t). The f. o. b. mine price for 1¼'' x 0'' screenings for delivery at the spur of the Kansas Gas and Electric Company shall be one dollar per ton.

PRODUCTION GROUP NO. 2

The f. o. b. mine price on ¼'' x 0'' refuse to all consuming market areas shall be 40 cents per ton.

*Explanation of Flag Notes*

Note (u). The f. o. b. mine prices on all sizes shown from 2'' x 0'' to and including 3'' x 1¼'' nut may be adjusted so the delivered cost will be 35 cents per ton less than the same size from Production Group No. 1. The f. o. b. mine price of 1¼'' x 0'' screenings may be adjusted to deliver 25 cents per ton less than the delivered cost of 1¼'' minus screenings from Production Group No. 1. Except, however, the maximum reduction shall not exceed 25 cents per ton.

Note (v). The f. o. b. mine prices on all sizes except 1¼'' x 0'' screenings may be adjusted to deliver at the same delivered cost at the same size from mines in Production Group No. 3 having the lowest freight rate. The f. o. b. mine price on 1¼'' x 0'' screenings may be adjusted to deliver 20 cents per ton under the delivered cost of washed 1¼'' x 0'' screenings from Production Group No. 2. Except, however, the maximum reduction shall not exceed 35 cents per ton.

Note (v–2). The f. o. b. mine prices may be adjusted so the delivered cost in this consuming area will be as follows: 3'' x 1¼'' and 2'' x 1¼'' nut 5 cents over the delivered cost of the same size from mines in Production Group No. 3 having the lowest freight rate; 2'' x 0'', 3'' x 0'' and chestnut to deliver at an equal delivered cost with the same size from mines in Production Group No. 3 having the lowest freight rate. The f. o. b. mine price on 1¼'' x 0'' screenings may be adjusted to deliver 20 cents per ton under the delivered cost of washed 1¼'' x 0'' screenings from Production Group No. 2. Except, however, the maximum reduction shall not exceed 35 cents per ton.

Note (w). The f. o. b. mine prices on all sizes may be adjusted to deliver at the same delivered cost as the mines in Production Group No. 2 having the lowest freight rate. Except, however, the maximum reduction shall not exceed 25 cents per ton.

Note (x). The f. o. b. mine prices on all sizes shown from 2'' x 0'' to and including 3'' x 1¼'' nut may be adjusted so as to deliver at a delivered cost 35 cents per ton under the same size from Production Group No. 1. The f. o. b. mine prices on washed 1¼'' x 0'' screenings and raw 1¼'' x ¼'' or ⅛'' screenings may be adjusted so as to deliver 5 cents per ton under the delivered cost of 1¼'' x 0'' screenings from Production Group No. 1. The f. o. b. mine price on 1¼'' x 0'' screenings may be adjusted so as to deliver at a delivered cost of 25 cents per ton under 1¼'' minus screenings from Production Group No. 1. Except, however, the maximum reduction shall not exceed 25 cents per ton.

PRODUCTION GROUP NO. 3

The f. o. b. mine price on ¼'' x 0'' refuse to all consuming market areas shall be 40 cents per ton.

*Explanation of Flag Notes*

Note (y). The f. o. b. mine prices may be adjusted to deliver at an equal delivered cost of the same size from mines having a freight rate on nut and screenings of $1.02 per ton.

Note (z). The f. o. b. mine prices on all sizes shown from 2'' x 0'' to and including 3'' x 1¼'' Nut may be adjusted so the delivered cost will be 35 cents per ton under the delivered cost of the same size from Production Group No. 1. The f. o. b. mine price of washed 1¼'' minus Screenings and raw 1¼'' x ¼'' or ⅛'' may be adjusted so the delivered cost shall be 05 cents per ton under 1¼'' minus screenings from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 35 cents per ton on the sized coal or 25 cents per ton on screenings.

Note (z–2). The f. o. b. mine prices may be adjusted so the delivered cost in this consuming area under the delivered cost of the same size from Production Group No. 1 will be as follows: All sizes of nut 40 cents per ton and 2'' x 0'', 3'' x 0'' and chestnut 35 cents per ton. The f. o. b. mine price of washed 1¼'' x 0'' screenings and raw 1¼'' x ¼'' or ⅛'' may be adjusted so the delivered cost shall be 05 cents per ton under 1¼'' minus screenings from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 35 cents per ton on screenings.

Note (z–3). The f. o. b. mine prices may be adjusted so the delivered cost in this consuming area under the delivered cost of the same size from Production Group No. 1 shall be as follows: All sizes of nut 40 cents per ton and 2'' x 0'', 3'' x 0'' and chestnut 35 cents per ton. The f. o. b. mine price of washed 1¼'' minus screenings and raw 1¼'' x ¼'' or ⅛'' may be adjusted so the delivered cost shall be 05 cents per ton under 1¼'' minus screenings from Production Group No. 1. Provided, however, the maximum reduction shall not exceed 25 cents per ton.

Note (a–1.) The f. o. b. mine prices on all sizes may be adjusted so the delivered cost shall equal the delivered cost of the same size coal from Production Group No. 2. Provided, however, the maximum reduction shall not exceed 35 cents per ton.

[Order No. 141]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER 16 IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average cost so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 68 the weighted average of the total costs of the tonnage for Minimum Price Area 6 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the several District Boards in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 103 determined and established the initial classifications of coals of Code Members within said District Number 16; the District Board for District Number 16 having failed to coordinate in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices as found by Commission Order Number 116, and the Commission having acted in lieu of said District Board under the authority of Section 6 (a) of the Act in coordinating the said proposed minimum prices upon a fair competitive basis in common consuming market areas as determined by the Commission and set forth in the attached Schedule of Minimum Prices for Coals of Code Members within District Number 16, hereinafter referred to; and

The Commission, in coordinating and establishing the prices, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and having conformed to the standards that such prices (a) be just and equitable as between producers within each district, (b) do not permit dumping, (c) be just and equitable and not unduly projudicial or preferential, as between and among districts, (d) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (e) preserve, as nearly as may be, existing fair competitive opportunities, and (f) have due regard for the interests of the consuming public; and

The Commission having accepted the proposed minimum prices as submitted by the District Board of District Number 16, and having modified same so as to conform to the standards set forth in the Act, and having used said proposed prices as modified as a basis for coordination with other districts, has coordinated same in conformity with the provisions of the Act and in the manner aforesaid, and having determined that the minimum prices so coordinated do not, as to District Number 16 or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount

greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate intertsate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commisison hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number 16, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number 16, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number 16 and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number 16 to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 6 and to Code Members within District Number 16, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By Order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary*.

PRICE SCHEDULE NO. 1—DISTRICT NO. 16

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 16, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective: 12:01 A. M. January 3, 1938.

Issued: December 16, 1937.

F. W. MCCULLOUGH, *Secretary*.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size.

4. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

5. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

6. Industries having storage facilities accommodating 30% of their annual coal requirements, and who place those facilities at the sole disposal of the producers permitting said producers to make shipments at their convenience during the year may be granted a price of 15¢ per net ton below the standard list price on 1½" or 1¼" Pea and Slack Coal.

7. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

[Order No. 142]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER SEVENTEEN IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal charges, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 68 the weighted average of the total costs of the tonnage for Minimum Price Area 6 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the several District Boards in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 106 determined and established the initial classifications of coals of Code Members within said District Number Seventeen; the District Board for District Number Seventeen having failed to coordinate in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices as found by Commission Order Number 117, and the Commission having acted in lieu of said District Board under the authority of Section 6 (a) of the Act in coordinating the said proposed minimum prices upon a fair competitive basis in common consuming market areas as determined by the Commission and set forth in the attached Schedule of Minimum Prices for Coals of Code Members within District Number Seventeen, hereinafter referred to; and

The Commission, in coordinating and establishing the prices, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and having conformed to the standards that such prices (*a*) be just and equitable as between producers within each District, (*b*) do not permit dumping, (*c*) be just and equitable and not unduly prejudicial or preferential as between and among districts, (*d*) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (*e*) preserve, as nearly as may be, existing fair competitive opportunities, and (*f*) have due regard for the interests of the consuming public; and

The Commission having accepted the proposed minimum prices as submitted by the District Board of District Number Seventeen, and having modified same so as to conform to the standards set forth in the Act, and having used said proposed prices as modified as a basis for coordination with other districts, has coordinated same in conformity with the provisions of the Act and in the manner aforesaid, and having determined that the minimum prices so coordinated do not, as to District Number Seventeen or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to the Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number Seventeen, set opposite the names of Code Members and their respective mines, as the

same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number Seventeen, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number Seventeen and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number Seventeen to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 6 and to Code Members within District Number Seventeen, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the Federal Register.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary.*

PRICE SCHEDULE NO. 1—DISTRICT NO. 17

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 17, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective, 12:01 A. M. January 3, 1938.

Issued, December 16, 1937.

F. W. MCCULLOUGH, *Secretary.*

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All sizes are predicated on screen descriptions as published in Railroad Tariffs. All sizes are predicated on perforated plates and when bar screens are used, the space between bars must conform to the standard equivalent.

4. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

5. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

6. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

7. Price on Washed Nut, Stoker, or Pea shall be a minimum of ten cents per net ton more than price of raw coal from the same mine.

8. Price of $2.00 applies on Bone coal from Colorado and $1.34 from New Mexico.

9. Industries having storage facilities accommodating 30% of their annual coal requirements, and who place those facilities at the sole disposal of the producers permitting said producers to make shipments at their convenience during the year may be granted a price of 15¢ per net ton below the standard list price on 1½" or 1¼" Pea and Slack Coal.

11. The following exceptions are made to the standard price schedules on Bituminous Coal moving to the following market areas:

*Market Area No. 124*

All mines must add 25 cents per net ton to standard list price on Lump, Grate and Nut sizes.

*Market Areas Nos. 125, 126, 127, 128, 129, 130, 131*

All mines must add 25 cents per net ton to standard list price on Lump, Grate and Nut sizes.

*Market Area No. 135*

All mines may deduct from standard list price:

| | |
|---|---|
| Lump and Grate | 35¢ |
| Nut | 25¢ |
| Slack | 10¢ |
| Pea or Stoker (except Slack) | 10¢ |

*Market Area No. 136*

All mines must add 25 cents per net ton to standard list price on Lump, Grate and Nut sizes.

*Market Areas Nos. 151, 152, 153, 154, 155, 156*

Western Slope mines may equalize, but in no case reduce, the delivered prices of Utah (District No. 20) coals moving into Utah and points West thereof.

PRICE INSTRUCTIONS AND EXCEPTIONS APPLYING TO INDIVIDUAL PRODUCING DISTRICTS

*Walsenburg District*

1. Walsenburg District may equalize delivered price of oil treated Pea, Stoker, or Slack coal with Routt County to points on and North of the Union Pacific Kansas Line.

*Trinidad-New Mexico*

2. Where a freight differential between Northern New Mexico and Trinidad District exists, such differential may be absorbed.

3. Mines grouped herein for the purpose of establishing minimum prices under Districts "Trinidad-New Mexico" may equalize delivered price on screened sizes only with the Los Cerrillos (District No. 18) Coal for similar sizes on shipments into Market Areas 125, 126, 128, 129, but not into Market Areas 127, 130, and 131.

4. Coal from Sugarite Mine, New Mexico, has the right to absorb a maximum of 40¢ per net ton to points north and east to equalize Brodhead delivered prices.

*Western Slope*

5. Western Slope mines may absorb the freight differential over Walsen or Canon City to points Eastbound except in the territory on and North of Union Pacific Kansas Line, to which territory they may absorb the Oak Hills-Routt County freight differential.

6. Mines in Oliver-Bowie-Somerset and Routt County Districts may equalize Crested Butte District delivered prices at Leadville, Salida and Climax.

7. Mines in Crested Butte-Baldwin District may equalize the Walsenburg freight rates to points in San Luis Valley of Colorado, (South of Mears Junction to the New Mexico State Line including Creede Branch) and in Northern New Mexico on the D. & R. G. W. narrow gauge railroad from Colorado State Line south to and including Santa Fe, New Mexico. The delivered price to be a minimum of 25 cents per net ton over Walsenburg delivered prices.

8. Crested Butte-Baldwin-Routt County Districts may equalize the delivered prices in Area 132 with Bowie-Oliver-Somerset District.

9. Into Market Areas 151, 152, 153, 154, 155, and 156, Western Slope Mines may equalize, but in no case reduce, the delivered prices of Utah (District No. 20) coals moving into Utah and points West thereof.

10. On shipments east through Denver and Pueblo gateways, Cameo Mine may equalize the delivered prices from the Aguilar District.

*Routt County*

11. Mines in Bowie-Oliver-Somerset and Routt County Districts may equalize Crested Butte District delivered prices at Leadville, Salida and Climax.

12. Crested Butte-Baldwin District and Routt County may equalize the delivered prices in Area 132 with Bowie-Oliver-Somerset District.

13. Mines in Moffatt County are placed on Mt. Harris basis with privilege of absorbing 25-cent differential per net ton to equalize Mt. Harris price on rail shipments eastbound.

SUBSTITUTION

Rules covering substitution are included in Marketing Rules and Regulations.

[F. R. Doc. 37-3704; Filed, December 18, 1937; 12:26 p. m.]

[Order No. 143]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER EIGHTEEN IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACTS OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order No. 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order No. 68 the weighted average of the total costs of the tonnage for Minimum Price Area Six in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the several District Boards in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order No. 107 determined and established the initial classifications of coals of Code Members within said District Number Eighteen; the District Board for District Number Eighteen having failed to coordinate in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices as found by Commission Order Number 118, and the Commission having acted in lieu of said District Board under the authority of Section 6 (a) of the Act in coordinating the said proposed minimum prices upon a fair competitive basis in common consuming market areas as determined by the Commission and set forth in the attached Schedule of Minimum Prices for Coals of Code Members within District Number Eighteen, hereinafter referred to; and

The Commission, in coordinating and establishing the prices, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and having conformed to the standards that such prices (a) be just and equitable as between producers within each district, (b) do not permit dumping, (c) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (d) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the

various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (e) preserve, as nearly as may be, existing fair competitive opportunities, and (f) have due regard for the interests of the consuming public; and

The Commission having accepted the proposed minimum prices as submitted by the District Board of District Number Eighteen, and having modified same so as to conform to the standards set forth in the Act, and having used said proposed prices as modified as a basis for coordination with other districts, has coordinated same in conformity with the provisions of the Act and in the manner aforesaid, and having determined that the minimum prices so coordinated do not, as to District Number Eighteen or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number Eighteen, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number Eighteen, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number Eighteen and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number Eighteen to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area Six and to Code Members within District Number Eighteen, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary.*

PRICE SCHEDULE NO. 1—DISTRICT NO. 18

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 18, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective 12:01 A. M. January 3, 1938.

Issued December 16, 1937.

F. W. MCCULLOUGH, *Secretary.*

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size.

4. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

5. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

6. For shipments made to California destinations, two sizes of coal will not be loaded in one railroad car unless a service charge of 25¢ per net ton of 2,000 lbs. is made therefor.

7. All sizes are predicated on screen description as published in railroad tariffs.

8. Gallup District and Corrillos District may equalize their delivered prices on Government business in Market Areas Nos. 125, 126, 129.

9. Corrillos District may equalize the delivered price of District 17 mines in Market Areas 125, 126, 128, 129.

10. Corrillos and Gallup Districts may equalize delivered prices of District 17 on Government business in Market Areas 125, 126, 128, 129.

11. In the sale of coal to destined points outside the boundary of the United States, the prices stipulated herein are for payment in United States funds.

12. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the higher size group and priced accordingly.

[Order No. 144]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER 19 IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part 1 (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 69 the weighted average of the total costs of the tonnage for Minimum Price Area 7 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the several District Boards in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 108 determined and established the initial classifications of coals of Code Members within said District Number 19; the District Board for District Number 19 having coordinated in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices and having submitted to the Commission such coordinated prices and the data upon which they were predicated; the Commission having accepted the minimum prices as proposed and coordinated by said District Board and having in certain respects modified same, and having determined the common consuming market areas to be as set forth in the attached Schedule of Minimum Prices for Coals of Code Members Produced within District Number 19, hereinafter referred to; the said District Board Number 19, in coordinating the said proposed minimum prices and the Commission in modifying the same, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and the said District Board and the Commission having conformed to the standards that such prices (*a*) be just and equitable as between producers within each district, (*b*) do not permit dumping, (*c*) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (*d*) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (*e*) preserve, as nearly as may be, existing fair competitive opportunities, and (*f*) have due regard for the interests of the consuming public; and

The Commission having determined that the minimum prices so coordinated do not, as to District Number 19 or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number 19, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number 19, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number 19 and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number 19 to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 7 and to Code Members within District Number 19, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's Office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the Federal Register.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary*.

[Order No. 145]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER 20 IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 69 the weighted average of the total costs of the tonnage for Minimum Price Area 7 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the several District Boards in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 109 determined and established the initial classifications of coals of Code Members within said District Number 20; the District Board for District Number 20 having coordinated in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices and having submitted to the Commission such coordinated prices and the data upon which they were predicated; the Commission hav-

ing accepted the minimum prices as proposed and coordinated by said District Board and having in certain respects modified same, and having determined the common consuming market areas to be as set forth in the attached Schedule of Minimum Prices for Coals of Code Members Produced within District Number 20, hereinafter referred to; the said District Board Number 20, in coordinating the said proposed minimum prices and the Commission in modifying the same, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and the said District Board and the Commission having conformed to the standards that such prices (*a*) be just and equitable as between producers within each district, (*b*) do not permit dumping, (*c*) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (*d*) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (*e*) preserve, as nearly as may be, existing fair competitive opportunities, and (*f*) have due regard for the interests of the consuming public; and

The Commission having determined that the minimum prices so coordinated do not, as to District Number 20 or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number 20, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number 20, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number 20 and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number 20 to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 7 and to Code Members within District Number 20, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary*.

PRICE SCHEDULE NO. 1—DISTRICT NO. 20

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 20, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective 12:01 A. M. January 3, 1938.

Issued December 16, 1937.

F. W. MCCULLOUGH, *Secretary*.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size.

4. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

5. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

6. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 10 cents per net ton shall be made.

7. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the higher size group and priced accordingly.

[Order No. 146]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER TWENTY-TWO IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the District Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 70 the weighted average of the total costs of the tonnage for Minimum Price Area 9 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the District Board in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 120 determined and established the initial classifications of coals of Code Members within said District Number Twenty-two; the District Board for District Number Twenty-two having coordinated in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices and having submitted to the Commission such coordinated prices and the data upon which they were predicated; the Commission having accepted the minimum prices as proposed and coordinated by said District Board and having in certain respects modified same, and having determined the common consuming market areas to be as set forth in the attached Schedule of Minimum Prices for Coals of Code Members Produced within District Number Twenty-two, hereinafter referred to; the said District Board Number Twenty-two in coordinating the said proposed minimum prices and the Commission in modifying the same, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and the said District Board and the Commission having conformed to the standards that such prices (a) be just and equitable as between producers within each district, (b) do not permit dumping, (c) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (d) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (e) preserve, as nearly as may be, existing fair competitive opportunities, and (f) have due regard for the interests of the consuming public; and

The Commission having determined that the minimum prices so coordinated do not, as to District Number Twenty-two or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number Twenty-two, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number Twenty-two, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number Twenty-two and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board of member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number Twenty-two to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the Districts within Minimum Price Area 9 and to Code Members within District Number Twenty-two, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary*.

PRICE SCHEDULE NO. 1—DISTRICT NO. 22

Schedule of Minimum Prices for Coals of Code Members Produced within District No. 22, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective, 12:01 A. M. January 3, 1938.
Issued: December 16, 1937.

F. W. MCCULLOUGH, *Secretary*.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size.

4. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

5. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

6. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

SUBSTITUTION

Rules covering substitution are included in Marketing Rules and Regulations.

[Order No. 147]

AN ORDER ESTABLISHING MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER 23 IN CONFORMITY WITH SECTION 4, PART II, SUBSECTIONS (A) AND (B) OF THE BITUMINOUS COAL ACT OF 1937

The National Bituminous Coal Commission having established in each of the districts under its jurisdiction, as an agency of the Commission, a Statistical Bureau, and having directed by its Order Number 15 producers of bituminous coal to file therewith cost data for the calendar year 1936; the district Boards having been organized pursuant to Section 4, Part I (a) of the Act and such District Boards having, from cost data submitted by the Statistical Bureaus for their respective districts, determined, pursuant to Order Number 56 of the Commission, the weighted average of the total costs of the ascertainable tonnage produced in their respective districts in the calendar year 1936 and having adjusted the average costs so determined, as was necessary to give effect to any changes in wage rates, hours of employment, or other factors substantially affecting costs, exclusive of seasonal changes, so as to reflect as accurately as possible any change or changes which had been established since January 1, 1936, and having submitted to the Commission such determinations and the computations upon which they were based; the Commission having thereupon determined by its Order Number 71 the weighted average of the total costs of the tonnage for Minimum Price Area 10 in the calendar year 1936, adjusted as aforesaid, and having transmitted the same to the District Board in such Minimum Price Area; each District Board in a Minimum Price Area having proposed minimum prices free on board transportation facilities at the Mines for the kinds, qualities, and sizes of coal produced in their respective districts, and classifications of coals and price variations as to mines, consuming market areas, values as to uses and seasonal demand, said prices having been proposed so as to yield a return per net ton for each district, equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of such Minimum Price Area, such total costs computed as provided by subsection (a), Part II, Section 4 of the Act, the minimum prices having been proposed on tentative weighted average costs, with later adjustments thereof to reflect the actual adjusted weighted average costs; the Commission having by its Order Number 110 determined and established the initial classifications of coals of Code Members within said District Number 23; the District Board for District Number 23 having coordinated in common consuming market areas with other districts upon a fair competitive basis the said proposed minimum prices and having submitted to the Commission such coordinated prices and the data upon which they were predicated; the Commission having accepted the minimum prices as proposed and coordinated by said District Board and having in certain respects modified same, and having determined the common consuming market areas to be as set forth in the attached Schedule of Minimum Prices for Coals of Code Members Produced within District Number 23, hereinafter referred to; the said District Board Number 23 in coordinating the said proposed minimum prices and the Commission in modifying the same, having taken into account, among other factors, the various kinds, qualities, and sizes of coal, and transportation charges upon coal, and the said District Board and the Commission having conformed to the standards that such prices (*a*) be just and equitable as between producers within each district, (*b*) do not permit dumping, (*c*) be just and equitable and not unduly prejudicial or preferential, as between and among districts, (*d*) reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coals produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy, (*e*) preserve, as nearly as may be, existing fair competitive opportunities, and (*f*) have due regard for the interests of the consuming public; and

The Commission having determined that the minimum prices so coordinated do not, as to District Number 23 or any other district with which prices were so coordinated, reduce or increase the return per net ton upon all the coal produced within any of such districts below or above the minimum return as provided in subsection (a), Part II, Section 4 of the Act, by an amount greater than necessary to accomplish such coordination, and that the return per net ton upon the entire tonnage of the minimum price area in which any such district is located, at such prices as coordinated, will approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of Code Members produced within District Number 23, set opposite the names of Code Members and their respective mines, as the same appear in the Schedule of Minimum Prices for Coals of Code Members Produced within District Number 23, filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, shall be and hereby are determined and established as the minimum prices of coals of Code Members within the said District Number 23 and such minimum prices shall be and become effective at 12:01 o'clock A. M. on the 3rd day of January, 1938.

2. That any Code Member or District Board or member thereof, or any State or political subdivision of a State, or the Consumers' Counsel who shall be dissatisfied with the coordination of prices or by any minimum price established, may at any time after this date make complaint by petition to the Commission, pursuant to Section 4, Part II (d), and in conformity with the Commission's Rules of Practice and Procedure, and the Commission shall after notice and hearing make such further order as may be required to effectuate the purpose of subsection (b) of Part II of Section 4 of the Act. Pending final disposition of such petition and upon reasonable showing of necessity therefor, the Commission may at any time make such preliminary or temporary order as in its judgment may be appropriate, and not inconsistent with the provisions of the Act.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Schedule of Minimum Prices for Coals of Code Members Produced within District Number 23 to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area 10 and to Code Members within District Number 23, shall cause copies of this order and said Schedule and copies of the Commission's Rules of Practice and Procedure to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 16th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary.*

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

Issued December 18, 1937

[Puerto Rico Sugar Order No. 8]

ALLOTMENT OF THE QUOTA FOR PUERTO RICO

By virtue of the authority vested in the Secretary of Agriculture by The Sugar Act of 1937, approved September 1, 1937, I, M. L. Wilson, Acting Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, issue, publish and give public notice of this order (constituting a revision of and superseding Puerto Rico Sugar Order No. 7), which shall have the force and effect of law and shall continue in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

I

Whereas, General Sugar Quota Regulations, Series 4, No. 2, as amended by Supplement 3 and Supplement 4, establishes for Puerto Rico for the calendar year 1937 a quota of 897,063 short tons of sugar, raw value, and

Whereas, I hereby find that the total surplus stocks of Puerto Rican sugar in excess of the aforesaid quota and the quota for local consumption in Puerto Rico for the calendar year 1937, established pursuant to General Sugar Quota Regulations, Series 4, No. 3, amount to approximately 151,000 tons of sugar, raw value, and

Whereas, I hereby find that the allotment of the sugar quota established for Puerto Rico for consumption in continental United States for the calendar year 1937 is necessary in order to prevent disorderly marketing of sugar from such area.

II

Now, therefore, upon the basis of the foregoing findings and pursuant to the foregoing authority, it is hereby ordered:

1. That the aforesaid quota of 897,063 short tons of sugar, raw value, shall be allotted to the following processors in the amounts which appear opposite their respective names:

2. That the above-named processors are hereby prohibited from bringing into the continental United States, for consumption during the calendar year 1937, any sugar from Puerto Rico in excess of the marketing allotments set forth in paragraph 1 hereof.

3. That the allotments fixed herein shall not be assigned or transferred without the approval of the Secretary or his duly appointed agent.

4. That where surplus stocks of sugar have been processed from growers' surplus sugarcane and settlement with growers has been made in terms of sugar, such growers' surplus sugar shall share in the allotment herein made to the processor on a pro rata basis.

In testimony whereof, M. L. Wilson Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of December, 1937.

G. S. Q. R. Series 5, No. 1 Issued December 20, 1937

[General Sugar Quota Regulations, Series 5, No. 1]

SUGAR CONSUMPTION REQUIREMENTS AND QUOTAS FOR THE CALENDAR YEAR 1938

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1937, approved September 1, 1937 (hereinafter referred to as the "act"), I, H. A. Wallace, Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, prescribe, publish, and give public notice of these regulations,[1] which shall have the force and effect of law and shall remain in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

I

1. It is hereby determined, pursuant to section 201 of the said act, that the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1938 is 6,861,761 short tons of sugar, raw value.

II

1. There are hereby established, pursuant to section 202 of the said act, for domestic sugar-producing areas, for the calendar year 1938, the following quotas:

| Area: | *Quotas in terms of short tons, raw value* |
|---|---|

| Sub-total | 53,742,000 |
| Unallotted reserve | 500,000 |
| Total | 54,242,000 |

III

1. The quotas established in paragraph 1 of section II hereof for the following listed areas may be filled by direct consumption sugar not in excess of the following amount for each such area:

| Area: | *Amounts of direct consumption sugar in terms of short tons, raw value* |
|---|---|
| Hawaii | 29,616 |
| Puerto Rico | 126,033 |
| Virgin Islands | 0 |

2. The quotas established in paragraph 2 of section II hereof for the following listed areas may be filled by direct

[1] These regulations shall not apply to (1) the first 10 tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba; (2) the first 10 tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba, for religious, sacramental, educational, or experimental purposes; (3) liquid sugar imported from any foreign country, other than Cuba, in individual sealed containers not in excess of one and one-tenth gallons each; or (4) any sugar or liquid sugar imported, brought into, or produced or manufactured in the United States for the distillation of alcohol or for livestock feed, or for the production of livestock feed.

consumption sugar not in excess of the following amount for each such area:

| Area: | *Amounts of direct consumption sugar in terms of short tons, raw value* |
|---|---|
| Commonwealth of the Philippine Islands | 80,214 |
| Cuba | 375,000 |

IV

There are hereby established, pursuant to section 208 of the said act, for foreign countries, for the calendar year 1938, quotas for liquid sugar as follows:

| Country: | *In terms of wine gallons of 72% total sugar content* |
|---|---|
| Cuba | 7,970,558 |
| Dominican Republic | 830,894 |
| Other foreign countries | 0 |

V

1. For the calendar year 1938, all persons are hereby forbidden, pursuant to section 209 of the said act, from bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands, or any foreign country, any sugar or liquid sugar after the quota for such area, or the proration of any such quota, has been filled.

2. For the calendar year 1938, all persons are hereby forbidden, pursuant to section 209 of the said act, from shipping, transporting or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic beet sugar area or the mainland cane sugar area after the quota for such area has been filled.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the District of Columbia, City of Washington, this 20th day of December, 1937.

SECTION 1. SCOPE OF REGULATION

This regulation [1] is issued by the Board of Governors of the Federal Reserve System (hereinafter called the Board") pursuant to the Securities Exchange Act of 1934 [2] (hereinafter called the "Act"), particularly sections 7 and 8 (a) thereof, and applies to every member of a national securities exchange and to every broker or dealer who transacts a business in securities through the medium of any such member.

SECTION 2. DEFINITIONS

For the purposes of this regulation, unless the context otherwise requires:

(a) The terms "person", "member", "broker", "dealer", "buy", "purchase", "sale", "sell", "security", and "bank" have the meanings given them in section 3 (a) of the Act, pertinent parts of which are printed in the appendix to this regulation.

(b) The term "creditor" means any member of a national securities exchange or any broker or dealer who transacts a business in securities through the medium of any such member.

(c) The term "customer" includes any person, or any group of persons acting jointly, (1) to or for whom a creditor is extending or maintaining any credit, or (2) who, in accordance with the ordinary usage of the trade, would be considered a customer of the creditor.

It includes, in case the creditor is a firm, any partner in the firm who would be considered a customer of the firm if he were not a partner, and includes any joint adventure in which a creditor participates and which would be considered a customer of the creditor if the creditor were not a participant.

(d) The term "registered security" means any security which (1) is registered on a national securities exchange; or (2) in consequence of its having unlisted trading privileges on a national securities exchange is deemed, under the provisions of section 12 (f) of the Act, to be registered on a national securities exchange; or (3) is exempted by the Securities and Exchange Commission from the operation of section (c) (2) of the Act only to the extent necessary to render lawful any direct or indirect extension or maintenance of credit on such security or any direct or indirect arrangement therefor which would not have been unlawful if such security had been a security (other than an exempted security) registered on a national securities exchange.

(e) The term "exempted security" has the meaning given it in section 3 (a) of the Act except that the term does not include a security which is exempted by the Securities and Exchange Commission from the operation of section 7 (c) (2) of the Act only to the extent described in subdivision (3) of section 2 (d) of this regulation.

SECTION 3. GENERAL ACCOUNTS

(a) *Contents of general account.*—All financial relations between a creditor and a customer, whether recorded in one record or in more than one record, shall be included in and be deemed to be parts of the customer's general account with the creditor, except that the relations which section 4 permits to be included in any special account provided for by that section may be included in the appropriate special account, and all transactions in commodities for or with any customer shall be included in the special commodity account provided for by sections 4 (a) and 4 (e).

(b) *General rule.*—A creditor shall not effect for or with any customer in a general account any transaction which, in combination with the other transactions effected in the account on the same day, creates an excess of the adjusted debit balance of the account over the maximum loan value of the securities in the account, or increases any such excess, unless in connection therewith the creditor obtains, as promptly as possible and in any event before the expiration of three full business days following the date of such transaction, the deposit into the account of cash or securities in such amount that the cash deposited plus the maximum loan value of the securities deposited equals or exceeds the excess so created or the increase so caused.

A transaction consisting of a withdrawal of cash or registered or exempted securities from a general account shall be permissible only on condition that no cash or securities need be deposited in the account in connection with a transaction on a previous day and that, in addition, the transactions (including such withdrawal) on the day of such withdrawal would not create an excess of the adjusted debit balance of the account over the maximum loan value of the securities in the account or increase any such excess.

Rules for computing the maximum loan value of the securities in a general account and the adjusted debit balance of such an account are provided in section 3 (c) and 3 (d), and certain modifications of and exceptions to the general rule stated above are provided in the subsequent subsections of this section and in section 6.

(c) *Maximum loan value and current market value.*—The maximum loan value of the securities in a general account is the sum of the maximum loan values of the individual securities in the account, including securities (other than unissued securities) bought for the account but not yet debited thereto, but excluding securities sold for the account whether or not payment has been credited thereto.

Except as otherwise provided in this section 3 (c), the maximum loan value of a registered security (other than an exempted security) in a general account shall be such maximum loan value as the Board shall prescribe for general accounts from time to time in the supplement to this regulation, and the maximum loan value of an exempted security shall be as determined by the creditor in good faith. No collateral other than registered securities or exempted securities shall have any loan value in a general account.

A warrant or certificate which evidences only a right to subscribe to or otherwise acquire any security and which expires within ninety days of issuance shall have no loan value in a general account; but, if the account contains, in addition to such warrant or certificate, the security to the holder of which such warrant or certificate has been issued, the current market value of such security (if the security be a registered security) shall, for the purpose of calculating its maximum loan value, be increased by the current market value of such warrant or certificate.

For the *current market value* of a security throughout the day of its purchase or sale, the creditor shall use its total cost or the net proceeds of its sale, as the case may be, and at any other time shall use the closing sale price of the security on the preceding business day as shown by any regularly published reporting or quotation service. In the absence of any such closing sale price, the creditor may use any reasonable estimate of the market value of such security as of the close of business on such preceding business day.

(d) *Adjusted debit balance.*—For the purposes of this regulation, the adjusted debit balance of a general account shall be calculated by taking the sum of the following items:

(1) the net debit balance, if any, of the account;

(2) the total cost of any securities (other than unissued securities) bought for the account but not yet debited thereto;

(3) the current market value of any securities (other than unissued securities) sold short in the account *plus*, for each such security (other than an exempted security), such amount as the Board shall prescribe from time to time in the supplement to this regulation as the margin required for such short sales, except that such amount so prescribed in the supplement need not be included when there are held in the account securities exchangeable or convertible within a reasonable time, without restriction other than the payment of money, into such securities sold short;

(4) the amount of margin specified by section 3 (h) for every net commitment in the account in unissued securities, *plus* all unrealized losses on each commitment in unissued securities and *minus* all unrealized gains (not exceeding the required margin) on each commitment in unissued securities; and

(5) the amount of any margin customarily required by the creditor in connection with his endorsement or guarantee of any put, call or other option;

and deducting therefrom the sum of the following items:

(6) the net credit balance, if any, of the account; and

(7) the net proceeds of sale of any securities (other than unissued securities) sold for the account but for which payment has not yet been credited thereto.

In case the general account is the account of a partner of the creditor, the account of a joint adventure in which the creditor participates, a guaranteed account, or the account of a customer who has guaranteed the account of another customer, the adjusted debit balance shall be computed according to the foregoing rule and the supplementary rules prescribed in sections 6 (a), 6 (b), and 6 (c).

(e) *Liquidation in lieu of deposit.*[1]—In any case in which the deposit required by section 3 (b), or any portion thereof,

[1] Forms F. R. T-1, T-2, and T-3 (Revised) were attached to the original document as filed with the Division of the Federal Register, The National Archives; copies are available upon application to the Board of Governors of the Federal Reserve System.

[2] 48 Stat. 881.

[1] This requirement relates to the action to be taken when a customer fails to make the deposit required by section 3 (b), and it is not intended to countenance on the part of customers the practice commonly known as "free-riding" or "three-day riding," to prevent which the principal national securities exchanges have adopted certain rules. See the rules of such exchanges and section 7 (e) of this regulation.

is not obtained by the creditor within the three-day period specified in that section, securities shall be sold or covering or other liquidating transactions shall be effected in the account, prior to the expiration of such three-day period, in such amount that the resulting decrease in the adjusted debit balance of the account exceeds, by an amount at least as great as such required deposit or the undeposited portion thereof, any resulting decrease in the maximum loan value of the securities in the account.

(*f*) *Extensions of time.*—In exceptional cases, the three-day period specified in section 3 (b) may, on application of the creditor, be extended for one or more limited periods commensurate with the circumstances by any regularly constituted committee of a national securities exchange having jurisdiction over the business conduct of its members, of which exchange the creditor is a member or through which his transactions are effected, provided such committee is satisfied that the creditor is acting in good faith in making the application and that the circumstances are in fact exceptional and warrant such action.

(*g*) *Transactions on given day.*—For the purposes of section 3 (b), the question of whether or not an excess of the adjusted debit balance of a general account over the maximum loan value of the securities in the account is created or increased on a given day shall be determined on the basis of all the transactions in the account on that day exclusive of any deposit of cash, deposit of securities, covering transaction or other liquidation that has been effected on the given day, pursuant to the requirements of section 3 (b) or 3 (e), in connection with a transaction on a previous day.

(*h*) *Unissued securities.*—The amount to be included in the adjusted debit balance of a general account as the margin required for a net long commitment in unissued securities shall be the current market value of the net amount of unissued securities long *minus* the maximum loan value which such net amount of securities would have if they were issued registered securities held in the account; and the amount to be so included as the margin required for a net short commitment in unissued securities shall be the amount which would be required as margin for the net amount of unissued securities short if such securities were issued securities and were sold short in the account: *Provided,* That no amount need be included as margin for a net short commitment in unissued securities when there are held in the account securities in respect of which the unissued securities are to be issued, nor for any net position in unissued securities that are exempted securities.

Whenever a creditor, pursuant to a purchase of an unissued security for a customer, receives an issued security which is not a registered or exempted security, the creditor shall treat any payment by him for such issued security as a transaction (other than a withdrawal) which increases the adjusted debit balance of the account by the amount of the payment *minus* the amount required to be included in the adjusted debit balance of the account, at the time of and in connection with the purchase of the unissued security, as the margin required for such purchase.

SECTION 4. SPECIAL ACCOUNTS

(*a*) *General rule.*—Pursuant to this section 4, a creditor may establish for any customer one or more special accounts.

Each such special account shall be recorded separately and shall be confined to the transactions and relations specifically authorized for such account by the appropriate subsection of this section and to transactions and relations incidental to those specifically authorized. An adequate record shall be maintained showing for each such account the full details of all transactions in the account.

A special account established pursuant to this section shall not be used in any way for the purpose of evading or circumventing any of the provisions of this regulation. If a customer has with a creditor both a general account and one or more such special accounts, the creditor shall treat each such special account as if the customer had with the creditor no general account.

The only other conditions to which transactions in such special accounts shall be subject under the provisions of this regulation shall be such conditions as are specified in the appropriate subsection of this section and in sections 2, 6 and 7.

(*b*) *Special omnibus account.*—In a special omnibus account, a member of a national securities exchange may effect for a customer transactions which are effected in reliance upon a signed statement which the member has accepted from the customer in good faith, and a duplicate original of which has been filed by the member with the secertary of a national securities exchange of which he is a member, that the customer is a broker or dealer who is subject to the provisions of this regulation or has places of business only in foreign countries; and such a special omnibus account shall be subject to all the conditions to which it would be subject if it were a general account except that—

(1) In such a special omnibus account, no securities shall have loan value and no short sales of securities shall be carried, except securities and short sales as to which the member shall have accepted in good faith a signed statement of the customer that he is in turn carrying such securities and such short sales for the account of his customers other than his partners;

(2) The maximum loan value of a registered security (other than an exempted security) having loan value in such a special omnibus account shall be such special maximum loan value, and the amount to be included in the adjusted debit balance of such an account as the margin required for short sales shall be such special amount, as the Board shall prescribe from time to time for special omnibus accounts in the supplement to this regulation; and

(3) If the maximum loan value of the securities in the account shall have equalled or exceeded the adjusted debit balance of the account after all the transactions in the account on any day within the period specified in section 3 (b), the liquidating or covering transactions required by section 3 (e) need not be effected.

(*c*) *Special cash account.*—In a special cash account, a creditor may effect for or with any customer *bona fide* cash transactions in securities in which the creditor may—

(1) purchase any security for, or sell any security to, any customer, provided funds sufficient for the purpose are already held in the account or the purchase or sale is in reliance upon an agreement accepted by the creditor in good faith that the customer will promptly make full cash payment for such security; or

(2) sell any security for, or purchase any security from, any customer, provided the security is held in the account or the purchase or sale is in reliance upon an agreement accepted by the creditor in good faith that the security is to be promptly deposited in the account.

Except as otherwise provided in this section 4 (c), in case a customer does not make full cash payment for a security purchased by him in the account, or does not deposit in the account a security sold by him in the account, within seven days after date on which the security was purchased or sold, the creditor shall promptly cancel, cover, or otherwise liquidate, the transaction or the unsettled portion thereof.

If the security was purchased for the customer subject to a customary "seller's option" as to the time of delivery, or if the security was purchased for, or sold to, the customer and the creditor "failed to receive" the security at the usual time of delivery, the period referred to in the preceding paragraph shall be five days from the day on which the creditor acting in good faith was able to obtain the security. If the security was sold for the customer subject to a customary "seller's option" as to the time of delivery, such period shall end with the day on which the option expires. If the security when purchased or sold was an unissued security, such period shall be seven days from the day on which the security was made available by the issuer for delivery to purchasers of the security.

If any regularly constituted committee of a national securities exchange having jurisdiction over the business conduct of its members, of which exchange the creditor is a member or through which his transactions are effected, is satisfied that the creditor is acting in good faith in making the application, that the application relates to a *bona fide* cash transaction, and that exceptional circumstances warrant such action, such committee, on application of the creditor, may (A) extend any period specified in the two preceding paragraphs for one or more limited periods commensurate with the circumstances, or (B) in the case of the purchase of a registered or exempted security which has been effected by the customer in the account, authorize the transfer of the transaction to a general account or special omnibus account and the completion of the transaction pursuant to the provisions of this regulation relating to such accounts.

The days specified in this section 4 (c) are calendar days, but if the last day of any period specified herein is a Saturday, Sunday, or holiday, such period shall be considered to end on the next full business day. For the purposes of this section 4 (c), a creditor may, at his option, disregard any sum due by the customer not exceeding $50.

(*d*) *Special arbitrage account.*—In a special arbitrage account, a member of a national securities exchange may effect and finance for any customer *bona fide* arbitrage transactions in securities. For the purposes of this subsection, the term "arbitrage" means (1) a purchase or sale of a security in one market together with an offsetting sale or purchase of the same security in a different market at as nearly the same time as practicable, for the purpose of taking advantage of a difference in prices in the two markets, or (2) a purchase of a security which is, without restriction other than the payment of money, exchangeable or convertible within a reasonable time into a second security together with an offsetting sale at or about the same time of such second security, for the purpose of taking advantage of a disparity in the prices of the two securities.

(*e*) *Special commodity account.*—In a special commodity account, a creditor may effect and carry for any customer transactions in commodities.

(*f*) *Special miscellaneous account.*—In a special miscellaneous account, a creditor may—

(1) With the approval of any regularly constituted committee of a national securities exchange having jurisdiction over the business conduct of its members, make and maintain loans to meet the emergency needs of any creditor;

(2) Effect and finance, for any joint adventure in which the sole participants are the creditor and one or more members of a national securities exchange who are registered on such exchange as odd-lot dealers and acting as such, any transactions in securities with respect to which all participants, or all participants other than the creditor, are so registered and so act;

(3) Effect transactions for and finance any joint adventure or group in which the creditor participates and in which all participants are dealers (whether such participants be acting jointly or severally), or any member thereof or participant therein, for the purpose of facilitating the underwriting or distributing of all or part of an issue of securities (A) not through the medium of a national securities exchange, or (B) the distribution of which has been approved by the appropriate committee of a national securities exchange;

(4) Effect for any customer the collection or exchange (other than by sale or purchase) of securities deposited by the customer specifically for such purposes, and (subject to any other applicable provisions of law) receive from or for any customer, and pay out or deliver to or for any customer, any money or securities;

(5) Effect and carry for any customer transactions in foreign exchange; and

(6) Extend and maintain credit to or for any customer without collateral or on any collateral whatever for any purpose other than purchasing or carrying or trading in securities.

SECTION 5. BORROWINGS BY MEMBERS, BROKERS, AND DEALERS

(*a*) *General rule.*—It is unlawful for any creditor, directly or indirectly, to borrow in the ordinary course of business as a broker or dealer on any registered security (other than an exempted security) except

(1) from or through a member bank of the Federal Reserve System; or

(2) from any nonmember bank which shall have filed with the Board an agreement which is still in force and which is in the form prescribed by this regulation; or

(3) to the extent to which, under the provisions of this regulation, loans are permitted between members of a national securities exchange and/or brokers and/or dealers, or loans are permitted to meet emergency needs.

(*b*) *Agreements of nonmember banks.*—An agreement filed pursuant to section 8 (a) of the Act by a bank not a member of the Federal Reserve System shall be substantially in the form contained in Form F. R. T–2 if the bank has its principal place of business in a territory or insular possession of the United States, or if it has an office or agency in the United States and its principal place of business outside the United States. The agreement filed by any other nonmember bank shall be in substantially the form contained in Form F. R. T–1. Any nonmember bank which has executed any such agreement may terminate the agreement if it obtains the written consent of the Board. Blank forms of such agreements, information regarding their filing or termination, and information regarding the names of nonmember banks for which such agreements are in force, may be obtained from any Federal Reserve bank.

(*c*) *Borrowing from other creditors.*—A creditor may borrow from another creditor in the ordinary course of business as a broker or dealer on any registered security to the extent and subject to the terms upon which the latter may extend credit to him in accordance with the provisions of this regulation, and subject to any other applicable provisions of law.

SECTION 6. CERTAIN TECHNICAL DETAILS

(*a*) *Accounts of partners.*—In case a general account is the account of a partner of the creditor, the creditor, in calculating the adjusted debit balance of such account and the maximum loan value of the securities therein, shall disregard the partner's financial relations with the firm as reflected in his capital and ordinary drawing accounts.

(*b*) *Contribution to joint adventure.*—In case a general account is the account of a joint adventure in which the creditor participates, the adjusted debit balance of the account shall include, in addition to the items specified in section 3 (d) any amount by which the creditor's contribution to the joint adventure exceeds the contribution which he would have made if he had contributed merely in proportion to his right to share in the profits of the joint adventure.

(*c*) *Guaranteed accounts.*—In case a general account maintained by a creditor for one customer is guaranteed in writing by another customer for whom the creditor maintains a general account, the adjusted debit balance of the guaranteed account may, at the option of the creditor, be computed by deducting from the sum of the items specified in section 3 (d) an amount not greater than the excess of the maximum loan value of the securities in the guarantor's general account over the adjusted debit balance of such guarantor's account calculated without the addition thereto prescribed by the following paragraph, provided (1) the guarantor is not a creditor, (2) a duplicate original of the guarantee has been filed with the secretary of a national securities exchange of which the creditor is a member or through which his transactions are effected, and (3) the guarantee permits the creditor to use funds and securities in the guarantor's account to carry the guaranteed account without restriction, except that the guarantee may be limited to a specified amount and in that event the deduction shall not exceed such amount.

In case a guarantee has served to permit in the guaranteed account any transaction which could not otherwise have been effected in accordance with this regulation: (A) the adjusted debit balance of the guarantor's account shall be computed by adding to the sum of the items specified in section 3 (d) an amount equal to the deduction made pursuant to the preceding paragraph; (B) the creditor shall not subsequently decrease the amount of such deduction, or the amount of the consequent addition to the adjusted debit balance of the guarantor's account, unless the adjusted debit balance of the guaranteed account, after such decrease and after all transactions in such guaranteed account on the date of such decrease, does not exceed the maximum loan value of the securities in such guaranteed account; and (C) if the guarantee is terminated or the amount thereof reduced, the creditor shall require that, after all the transactions (including such termination or reduction) on the date of such termination or reduction, the adjusted debit balance of the guaranteed account shall not exceed the maximum loan value of the securities in the account.

(*d*) *Transfer of accounts.*—In the event of the transfer of a general account from one creditor to another, such account may be treated for the purposes of this regulation as if it had been maintained by the transferee from the date of its origin: *Provided,* That the transferee accepts in good faith the signed statement of the transferor that no cash or securities need be deposited in the account in connection with any transaction that has been effected in the account or, in case he finds that it is not practicable to obtain such a statement from the transferor, accepts in good faith such a signed statement from the customer.

In the event of the transfer of a general account from one customer to another, such account may be treated by the creditor for the purposes of this regulation as if it had been maintained for the transferee from the date of its origin.

(*e*) *Reorganizations.*—A creditor may, without regard to the other provisions of this regulation, effect for a customer the exchange of any registered or exempted security in a general account for the purpose of participating in a reorganization or recapitalization in which the security is involved: *Provided,* That if an unregistered non-exempted security is acquired in exchange, the creditor shall not, for a period of sixty days following such acquisition, permit the withdrawal of such security or the proceeds of its sale from the customer's account except to the extent that such security or proceeds could be withdrawn if the security were a registered security.

(*f*) *Time of receipt of funds or securities.*—For the purposes of this regulation, a creditor may, at his option (1) treat the receipt in good faith of any check or draft drawn on a bank which in the ordinary course of business is payable on presentation, or any order on a savings bank with passbook attached which is so payable, as receipt of payment of the amount of such check, draft or order; (2) treat the shipment of securities in good faith with sight draft attached as receipt of payment of the amount of such sight draft; and (3) in the case of the receipt in good faith of written or telegraphic notice in connection with a special omnibus account of a customer not located in the same city that a specified security or a check or draft has been dispatched to the creditor, treat the receipt of such notice as receipt of such security, check or draft: *Provided, however,* That if the creditor receives notice that such check, draft, order, or sight draft described in clause (1), (2) or (3) is not paid on the day of presentation, or if such security, check or draft described in clause (3) is not received by the creditor within a reasonable time, the creditor shall promptly take such action as he would have been required to take by the appropriate provisions of this regulation if the provisions of this subsection had not been utilized.

(*g*) *Interest, service charges, etc.*—Interest on credit maintained in a general account, communication charges with respect to transactions in the account, shipping charges, premiums on securities borrowed in connection with short sales or to effect delivery, dividends or other distributions due on borrowed securities, and any service charges (other than commissions) which the creditor may impose, may be debited to the account in accordance with the usual practice and without regard to the other provisions of this regulation, but such items so debited shall be taken into consideration in calculating the net credit or net debit balance of the account.

A creditor may, without regard to the other provisions of this regulation, pay to or for a customer from a general account interest or cash dividends collected by the creditor for such account, if such payment is made within 35 days after the day on which, in accordance with the creditor's usual practice, such interest or dividends are credited to the account, and if the crediting thereof has not served in the meantime to permit in the account any purchase of securities or other transactions which could not otherwise have been effected in accordance with this regulation.

(*h*) *Borrowing and lending securities.*—Without regard to the other provisions of this regulation, a creditor (1) may make a *bona fide* deposit of cash in order to borrow securities (whether registered or unregistered) for the purpose of making delivery of such securities in the case of short sales, failure to receive securities he is required to deliver, or other similar cases, and (2) may lend securities for such purpose against such a deposit.

(*i*) *Credit for clearance of securities.*—The extension or maintenance of any credit which is maintained for only a fraction of a day (that is, for only part of the time between the beginning of business and midnight on the same day) shall be disregarded for the purposes of this regulation, if it is incidental to the clearance of transactions in securities directly between members or through an agency organized or employed by the members of a national securities exchange for the purpose of effecting such clearance.

(*j*) *Foreign currency.*—If foreign currency is capable of being converted without restriction into United States currency, a creditor acting in good faith may treat any such foreign currency in an account as a credit to the account in an amount determined in accordance with customary practice.

(*k*) *Innocent mistakes.*—If any failure to comply with this regulation results from a mistake made in good faith in executing a transaction, recording, determining, or calculating any loan, balance, market price or loan value, or other similar matter, the creditor shall not be deemed guilty of a violation of this regulation if promptly after the discovery of the mistake he takes whatever action may be practicable in the circumstances to remedy the mistake.

SECTION 7. MISCELLANEOUS PROVISIONS

(*a*) *Arranging for loans by others.*—A creditor may arrange for the extension or maintenance of credit to or for any customer of such creditor by any person upon the same terms and conditions as those upon which the creditor, under the provisions of this regulation, may himself extend or maintain such credit to such customer, but only upon such terms and conditions, except that this limitation shall not apply with respect to the arranging by a creditor for a bank subject to Regulation U to extend or maintain credit on registered securities or exempted securities.

(*b*) *Maintenance of credit.*—Except as otherwise specifically forbidden by this regulation, any credit initially extended without violation of this regulation may be maintained regardless of (1) reductions in the customer's equity resulting from changes in market prices, (2) the fact that any security in an account ceases to be registered or exempted, and (3) any change in the maximum loan values or margin requirements prescribed by the Board under this regulation. In maintaining any such credit, the creditor may accept or retain for his own protection additional collateral of any description, including unregistered securities.

(*c*) *Declaration as to purpose of loan.*—Every extension of credit on a registered security (other than an exempted security shall be deemed to be for the purpose of purchasing or carrying or trading in securities, unless the customer shall file with the creditor a written declaration signed by the customer which shall state the use to be made of such credit and which shall state specifically that such credit is neither for the purpose of purchasing or carrying or trading in securities nor for the purpose of evading or circumventing the provisions of this regulation. In connection with any extension of credit, a creditor may rely upon such a written declaration unless he knows the statement to be false or has information which would put a prudent man upon inquiry and if investigated with reasonable diligence would lead to the discovery of the falsity of the statement.

(*d*) *Reports.*—Every creditor shall make such reports as the Board may require to enable the Board to perform the functions conferred upon it by the Act.

(*e*) *Additional requirements by exchanges and creditors.*—Nothing in this regulation shall (1) prevent any exchange from adopting and enforcing any rule or regulation further restricting the time or manner in which its members must obtain initial or additional margin in customers' accounts because of transactions effected in such accounts, or requiring such members to secure or maintain higher margins, or further restricting the amount of credit which may be extended or maintained by them, or (2) modify or restrict the right of any creditor to require additional security for the maintenance of any credit, to refuse to extend credit, or to sell any securities or property held as collateral for any loan or credit extended by him.

SUPPLEMENT TO REGULATION T

*Issued by the Board of Governors of the Federal Reserve System*

[Effective January 1, 1938]

*Maximum loan value for general accounts.*—The maximum loan value of a registered security (other than an exempted security) in a general account, subject to section 3 of Regulation T, shall be 60 percent of its current market value.

*Maximum loan value for special omnibus accounts.*—The maximum loan value of a registered security (other than an exempted security) in a special omnibus account, subject to section 4 of Regulation T, shall be 75 percent of its current market value.

*Margin required for short sales.*—The amount to be included in the adjusted debit balance of a general account pursuant to section 3 (d) (3) of Regulation T, as margin required for short sales of securities (other than exempted securities) shall be 50 percent of the current market value of each such security, and in the case of a special omnibus account with another member, broker or dealer, such amount shall be 35 percent of such current market value.

Approved by the Board of Governors of the Federal Reserve System on December 3, 1937, to become effective January 1, 1938.

## DEPARTMENT OF THE INTERIOR.

### National Bituminous Coal Commission.

[Order No. 148]

AN ORDER MODIFYING ORDER NO. 89, AS MODIFIED BY ORDER NO. 126, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER ONE, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES

The National Bituminous Coal Commission having by its Order No. 89, as modified by Order No. 126, determined and established the minimum prices of coals of code members produced within District Number One, as set forth in "Price Schedule No. 1—District No. 1", and "Supplement No. 1 to Price Schedule No. 1—District No. 1", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid price schedule and supplement by a further supplement as hereinafter provided;

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District Number One, established in "Price Schedule No. 1—District No. 1", as supplemented by "Supplement No. 1 to Price Schedule No. 1—District No. 1", are hereby further supplemented as set forth in "Supplement No. 2 to Price Schedule No. 1—District No. 1", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 2, shall be and hereby are determined and established as the minimum prices of coals of code members within said District Number One, and shall be effective at 12:01 o'clock A. M., on the third day of January, 1938.

2. That said Order No. 89 as modified by Order No. 126, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Supplement No. 2 to Price Schedule No. 1—District No. 1 to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District Number One; shall cause copies of this order and said Supplement No. 2 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 18th day of December, 1937.

[Order No. 149]

AN ORDER MODIFYING ORDER NO. 90, AS MODIFIED BY ORDER NO. 138, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NO. TWO, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES

The National Bituminous Coal Commission having by its Order No. 90, as modified by Order No. 138, determined and established the minimum prices of coals of code members produced within District No. 2, as set forth in "Price Schedule No. 1—District No. 2", and "Supplement No. 1 to Price Schedule No. 1—District No. 2", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid price schedule and supplement by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. [Order No. 155]

AN ORDER MODIFYING ORDER NO. 100, AS MODIFIED BY ORDER NO. 134, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER TWELVE, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES

The National Bituminous Coal Commission having by its Order No. 100, as modified by Order No. 134, determined and established the minimum prices of coals of code members produced within District Number Twelve, as set forth in "Price Schedule No. 1—District No. 12", and "Supplement No. 1 to Price Schedule No. 1—District No. 12", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid price schedule and supplement by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District Number Twelve, established in "Price Schedule No. 1—District No. 12", as supplemented by "Supplement No. 1 to Price Schedule No. 1—District No. 12", are hereby further supplemented as set forth in "Supplement No. 2 to Price Schedule No. 1—District No. 12", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 2, shall be and hereby are determined and established as the minimum prices of coals of code members within said District Number Twelve, and shall be effective at 12: 01 o'clock A. M., on the third day of January, 1938.

2. That said Order No. 100 as modified by Order No. 134, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Supplement No. 2 to Price Schedule No. 1—District No. 12 to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area Two; to code members within District Number Twelve; shall cause copies of this order and said Supplement No. 2 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 18th day of December, 1937.

[Order No. 157]

AN ORDER TEMPORARILY REVISING THE SCHEDULE OF PRICES ESTABLISHED FOR DISTRICTS NOS. 7 AND 8, IN SO FAR AS THE SAME RELATE TO HIGH VOLATILE COALS PRODUCED BY CERTAIN MINES WITHIN SAID DISTRICTS HAVING A FREIGHT RATE INTO MARKET AREAS 40, 41 AND 42 EQUAL TO THE POCAHONTAS FREIGHT RATE INTO SAID MARKET AREAS FOR OFF-LINE RAILROAD LOCOMOTIVE FUEL

Chafin-Jones Heatherman Coal Company, et al., having on the 17th day of December, 1937, filed a petition with the National Bituminous Coal Commission, pursuant to the provisions of Section 4, Part II (d) of the Act, alleging dissatisfaction with certain of the minimum prices established for coals of code members within Districts No. 7 and No. 8, and praying for immediate and temporary relief as therein set forth by preliminary or temporary order pending final disposition of such petition, and it appearing to the Commission that petitioners have made reasonable showing of necessity for the granting of the temporary relief prayed for therein.

Now, therefore, the National Bituminous Coal Commission pursuant to the provisions of subsection (d) of Part II of Section 4 of the Bituminous Coal Act of 1937 hereby orders:

1. That pending final disposition of the aforesaid petition, and until further order of the Commission, the schedules of minimum prices for coals of code members produced within Districts No. 7 and No. 8, and any and all supplements thereto, established for said districts, be and the same hereby are modified and revised to contain the following provision as if the same were fully set forth therein:

"High volatile mines in District No. 7 and District No. 8 taking the New River Pocahontas Freight rate, or rate equal thereto, for shipments to destinations in Market Areas 40, 41 or 42, shall increase the established minimum off-line locomotive fuel prices by ten cents (10¢) per ton when for consignment to off-line railroads in Market Areas 40, 41 or 42. The foregoing provision shall supersede any other provision contained herein to the contrary notwithstanding."

2. That except as herein temporarily revised, the minimum price schedules and supplements thereto, established for Districts No. 7 and No. 8, shall remain in full force and effect.

3. That the Secretary of the Commission shall, forthwith, mail copies of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Boards for the districts within Minimum Price Area No. 1 and to code members within Districts No. 7 and No. 8; shall cause a copy of this order to be made available for inspection by all interested parties at the office of the Secretary of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 20th day of December, 1937.

[Order No. 158]

AN ORDER AMENDING AND CORRECTING ORDER NO. 100 BY STRIKING THEREFROM THE PHRASE "SET OPPOSITE THE NAMES OF CODE MEMBERS AND THEIR RESPECTIVE MINES"

DISTRICT NO. 12

The National Bituminous Coal Commission having by its Order No. 100, as modified by its Orders Nos. 134 and 155, determined and established the minimum prices for coals of code members produced within District No. 12, and it appearing that the phrase "set opposite the names of code members and their respective mines" contained in said Order No. 100 might be misleading and that it should therefore be deleted from said order.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the said Order No. 100 be and the same hereby is modified by striking therefrom the phrase "set opposite the names of code members and their respective mines" in the second and third lines of paragraph numbered 1 on page 3 thereof.

2. That the said Order No. 100, as modified by Orders No. 134 and No. 155 and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall, forthwith, mail copies of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the districts within Minimum Price Area Two and to code members within District Number Twelve; shall cause copies of this order to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 20th day of December, 1937.

[Order No. 159]

AN ORDER MODIFYING ORDER NO. 89, AS MODIFIED BY ORDERS NOS. 126 AND 148, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER ONE, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES, TO BE KNOWN AS "SUPPLEMENT NO. 3 TO PRICE SCHEDULE NO. 1—DISTRICT NO. 1"

The National Bituminous Coal Commission having by its Order No. 89, as modified by Orders Nos. 126 and 148, determined and established the minimum prices of coals of code members produced within District Number One, as set forth in "Price Schedule No. 1—District No. 1", as supplemented by Supplements No. 1 and No. 2, and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid schedule and supplements by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st. sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District Number One, established in "Price Schedule No. 1—District No. 1", as supplemented by "Supplements No. 1 and No. 2 to Price Schedule No. 1—District No. 1", are hereby further supplemented as set forth in "Supplement No. 3 to Price Schedule No. 1—District No. 1", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 3, shall be and hereby are determined and established as the minimum prices of coals of code members within District Number One, and shall be effective at 12:01 o'clock A. M., on the fifth day of January, 1938.

2. That said Order No. 89 as modified by Orders Nos. 126 and 148, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Supplement No. 3 to Price Schedule No. 1—District No. 1 to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District Number One; shall cause copies of this order and said Supplement No. 3 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

[Order No. 160]

AN ORDER MODIFYING ORDER NO. 90, AS MODIFIED BY ORDERS NOS. 138 AND 149, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NO. 2, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES, TO BE KNOWN AS "SUPPLEMENT NO. 3 TO PRICE SCHEDULE NO. 1—DISTRICT NO. 2"

The National Bituminous Coal Commission having by its Order No. 90, as modified by Orders Nos. 138 and 149, determined and established the minimum prices of coals of code members produced within District No. 2, as set forth in "Price Schedule No. 1—District No. 2", as supplemented by "Supplements No. 1 and No. 2", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid schedule and supplements by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress, entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District No. 2, established in "Price Schedule No. 1—District No. 2", as supplemented by "Supplements No. 1 and No. 2 to Price Schedule No. 1—District No. 2", are hereby further supplemented as set forth in "Supplement No. 3 to Price Schedule No. 1—District No. 2", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 3, shall be and hereby are determined and established as the minimum prices of coals of code members within District No. 2, and shall be effective at 12:01 o'clock A. M., on the 5th day of January, 1938.

2. That said order No. 90 as modified by Orders Nos. 138 and 149, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and "Supplement No. 3 to Price Schedule No. 1—District No. 2" to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District No. 2; shall cause copies of this order and said Supplement No. 3 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

[Order No. 161]

AN ORDER MODIFYING ORDER NO. 91, AS MODIFIED BY ORDERS NOS. 128 AND 150, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER THREE, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES, TO BE KNOWN AS "SUPPLEMENT NO. 3 TO PRICE SCHEDULE NO. 1—DISTRICT NO. 3"

The National Bituminous Coal Commission having by its Order No. 91, as modified by Orders Nos. 128 and 150, determined and established the minimum prices of coals of code members produced within District Number Three, as set forth in "Price Schedule No. 1—District No. 3", as supplemented by "Supplements No. 1 and No. 2", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid schedule and supplements by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District Number Three, established in "Price Schedule No. 1—District No. 3", as supplemented by "Supplements No. 1 and No. 2 to Price Schedule No. 1—District No. 3", are hereby further supplemented as set forth in "Supplement No. 3 to Price Schedule No. 1—District No. 3", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 3, shall be and hereby are determined and established as the minimum prices of coals of code members within District Number Three, and shall be effective at 12:01 o'clock A. M., on the fifth day of January, 1938.

2. That said order No. 91 as modified by Orders Nos. 128 and 150, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and "Supplement No. 3 to Price Schedule No. 1—District No. 3" to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District Number Three; shall cause copies of this order and said Supplement No. 3 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

[Order No. 163]

AN ORDER MODIFYING ORDER NO. 95, AS MODIFIED BY ORDER NO. 131, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NO. 7, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES

The National Bituminous Coal Commission having by its Order No. 95, as modified by Order No. 131, determined and established the minimum prices of coals of code members produced within District No. 7, as set forth in "Price Schedule No. 1—District No. 7", and "Supplement No. 1 to Price Schedule No. 1—District No. 7", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid price schedule and supplement by a further supplement as hereinafter provided.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District No. 7, established in "Price Schedule No. 1—District No. 7", as supplemented by "Supplement No. 1 to Price Schedule No. 1—District No. 7", are hereby further supplemented as set forth in "Supplement No. 2 to Price Schedule No. 1—District No. 7", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 2, shall be and hereby are determined and established as the minimum prices of coals of code members within said District No. 7, and shall be effective at 12:01 o'clock A. M., on the 5th day of January, 1938.

2. That said Order No. 95 as modified by Order No. 131, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Supplement No. 2 to Price Schedule No. 1—District No. 7 to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District No. 7; shall cause copies of this order and said Supplement No. 2 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

[Order No. 164]

AN ORDER MODIFYING ORDER NO. 96, AS MODIFIED BY ORDER NO. 132, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NO. 8, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES

The National Bituminous Coal Commission having by its Order No. 96, as modified by Order No. 132, determined and established the minimum prices of coals of code members produced within District No. 8, as set forth in "Price Schedule No. 1—District No. 8", and "Supplement No. 1 to Price Schedule No. 1—District No. 8", and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid price schedule and supplement by a further supplement as hereinafter provided.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District No. 8, established in "Price Schedule No. 1—District No. 8", as supplemented by "Supplement No. 1 to Price Schedule No. 1—District No. 8", are hereby further supplemented as set forth in "Supplement No. 2 to Price Schedule No. 1—District No. 8", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 2, shall be and hereby are determined and established as the minimum prices of coals of code members within said District No. 8, and shall be effective at 12:01 o'clock A. M., on the 5th day of January, 1938.

2. That said Order No. 96 as modified by Order No. 132, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and Supplement No. 2 to Price Schedule No. 1—District No. 8 to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District No. 8; shall cause copies of this order and said Supplement No. 2 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 20th day of December, 1937.

[Order No. 165]

AN ORDER MODIFYING ORDER NO. 101, AS MODIFIED BY ORDER NO. 114, AND SUPPLEMENTING THE SCHEDULE OF MINIMUM PRICES FOR COALS OF CODE MEMBERS PRODUCED WITHIN DISTRICT NUMBER THIRTEEN, BY ADDING THERETO A SUPPLEMENTAL SCHEDULE OF PRICES, TO BE KNOWN AS "SUPPLEMENT NO. 2 TO PRICE SCHEDULE NO. 1—DISTRICT NO. 13"

The National Bituminous Coal Commisison having by its Order No. 101, as modified by Order No. 114, determined and established the minimum prices of coals of code members produced within District Number Thirteen, as set forth in "Price Schedule No. 1—District No. 13", as supplemented by "Supplement No. 1," and having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by supplementing the aforesaid schedule and supplement by a further supplement as hereinafter provided:

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the minimum prices of coals of code members produced within District Number Thirteen, established in "Price Schedule No. 1—District No. 13", as supplemented by "Supplement No. 1 to Price Schedule No. 1—District No. 13", are hereby further supplemented as set forth in "Supplement No. 2 to Price Schedule No. 1—District No. 13", filed this day in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and such minimum prices, as shown in said Supplement No. 2, shall be and hereby are determined and established as the minimum prices of coals of code members within District Number Thirteen, and shall be effective at 12:01 o'clock A. M., on the fifth day of January, 1938.

2. That said order No. 101 as modified by Order No. 114, and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this order and "Supplement No. 2 to Price Schedule No. 1—District No. 13" to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; to code members within District Number Thirteen; shall cause copies of this order and said Supplement No. 2 to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 20th day of December, 1937.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary*.

SUPPLEMENT NO. 2 TO PRICE SCHEDULE NO. 1—DISTRICT NO. 13

Supplemental Schedule of Minimum Prices for By-Product Coals of Code Members Produced within District No. 13, Established Pursuant to the Provisions of the "Bituminous Coal Act of 1937."

Effective 12:01 A. M., January 5, 1938.

Issued December 20, 1937.

F. W. MCCULLOUGH, *Secretary*.

[Docket No. 57-FD]

At a Regular Session of the National Bituminous Coal Commission Held at its offices in Washington, D. C., on the 20th day of December, 1937.

INVESTIGATION OF THE NATURE AND EXTENT OF TRANSACTIONS IN INTRASTATE COMMERCE IN BITUMINOUS COAL IN THE STATE OF KENTUCKY AND THE EFFECT OF SUCH TRANSACTIONS ON INTERSTATE COMMERCE IN SUCH COAL

It appearing that by Orders Nos. 2 and 40, the Commission, upon its own motion entered into and conducted an investigation under the provisions of Section 4-A of the Bituminous Coal Act of 1937, for the purpose of determining the nature and extent of transactions in intrastate commerce in bituminous coal in the State of Kentucky and the effect of such transactions upon interstate commerce in such coal; and

It further appearing that reasonable public notice of a hearing was provided and that at said hearing interested parties were afforded an opportunity to be heard; that the presiding Examiner duly designated by the Commission having filed his report and recommendations and the Commission having given due consideration to said report and recommendations and to the record of the evidence in this proceeding; and, the Commission having on the 20th day of December, 1937, adopted the Examiner's report and recommendations as its own, which said report is hereby referred to and made a part hereof;

Now, therefore, It is by order declared:

That substantially all transactions in bituminous coal in intrastate commerce in the State of Kentucky directly affect interstate commerce in such coal; and

That there will be an undue or unreasonable advantage, preference or prejudice as between localities in Kentucky in such intrastate commerce on the one hand and interstate commerce in bituminous coal on the other hand, and an undue, unreasonable, or unjust discrimination against interstate commerce in such coal if such transactions in intrastate commerce or any substantial part thereof are not regulated and subjected to the provisions of Section 4 of the Bituminous Coal Act of 1937.

*Therefore, it is further ordered:*

1. That on and after the 3rd day of January, 1938, all bituminous coal sold, delivered or offered for sale in transactions in intrastate commerce in such coal in all localities within the State of Kentucky, shall be subject to the provisions of Section 4 of the Bituminous Coal Act of 1937, to the Bituminous Coal Code, as promulgated by the Commission and made effective on the 21st day of June, 1937, and to all relevant orders of the Commission in effect on the date of this order, as well as all further orders which may thereafter be issued by the Commission under Section 4 of said Act, so as to apply to such intrastate commerce in coal within the State of Kentucky.

2. That any producer of bituminous coal in intrastate commerce within the State of Kentucky, who may believe that his or its particular transactions in intrastate commerce in bituminous coal should be exempted from this order and/or from the provisions of Sections 4 and 4-A of said Bituminous Coal Act of 1937, may file application at any time hereafter for exemption pursuant to the second paragraph of Section 4-A of said Act, and be entitled to a hearing and appropriate orders thereon.

3. That the Secretary of the Commission shall give notice to each known producer of bituminous coal within the State of Kentucky, who is not upon the date of this Order a member of the Bituminous Coal Code, by mailing, within five (5) days from this date, a copy of this Order, together with three (3) copies of the Form of Code Acceptance and rules prescribed by the Commission for filing acceptances, and a copy of the Bituminous Coal Code as promulgated under date of June 21, 1937.

The Secretary shall cause a copy of this Order to be published in the FEDERAL REGISTER, and shall also publish a copy thereof in a newspaper of general circulation in each county within the State of Kentucky known to produce bituminous coal, publication thereof to be made three (3) times within fourteen (14) days from the date of this Order.

By order of the Commission.

Dated this 20th day of December, 1937.

[Docket No. 103-FD]

IN THE MATTER OF PETITION OF ASSOCIATION OF AMERICAN RAILROADS, THE AMERICAN SHORT LINE RAILROAD ASSOCIATION, FOR THEIR MEMBERS, AND CONSUMERS' COUNSEL OF THE NATIONAL BITUMINOUS COAL COMMISSION, FOR AND ON BEHALF OF SAID ASSOCIATIONS, AND THEIR MEMBERS

ORDER AND NOTICE FOR HEARING

The petitioners above named having filed with the commission on the 13th day of December, 1937, a petition complaining against the minimum prices for railroad locomotive fuel coals of code members produced within Districts Nos. 1 to 13, inclusive, as established by the Commission by Orders Nos. 89 to 101, inclusive, as amended and revised by subsequent orders, a copy of said petition being on file and available for inspection by interested parties in each of the Statistical Bureaus of the Commission within Districts 1 to 13, inclusive, and at the office of each District Board within said districts:

It is ordered that a hearing on said petition be held before the Commission, on the 10th day of January, 1938, at the hour of 10:00 A. M., at the Hearing Room of the Commission in Washington, D. C., at which time all interested parties shall be afforded opportunity to be heard.

The Secretary of the Commission is directed, forthwith, to mail a copy of this order and notice to each petitioner; to the Secretary of each District Board of Districts Nos. 1 to 13, inclusive; and to each code member in Districts Nos. 1 to 13, inclusive; and shall cause a copy hereof to be filed and made available for inspection at each of the Statistical Bureaus of the Commission for Districts Nos. 1 to 13, inclusive, and shall cause a copy hereof to be published in the FEDERAL REGISTER.

By order of the Commission.

Dated this 20th day of December, 1937.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NCR—B-101—Tama County, Supplement No. 2

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION, TAMA COUNTY, IOWA

TAMA COUNTY BULLETIN NO. 101—SUPPLEMENT NO. 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Tama County Bulletin No. 101 is hereby amended as follows:

1. Part IV, Section 5, paragraph (b) is amended to read as follows:

(b) If the acreage of any noncropland planted to a crop other than a crop listed in Section 2 of Part III on any farm with respect to which a person is owner or operator, is in excess of the total conserving acreage on such farm, a deduction will be made from any payment which would otherwise be made to such person with respect to any farms in Tama County in an amount computed by multiplying each acre of such excess by $3.70 (multiplied by the productivity index for the farm) and then by multiplying the result so obtained by the percentage determined for such person for such farm under Section 4 of this Part IV.

2. Part IV, Section 9 is amended to read as follows:

SEC. 9. *Association Expenses.*—In determining the amount of payments under the 1937 Agricultural Conservation Program, there shall be deducted from any payment computed for any person with respect to any farm in Tama County, all of such person's pro rata share of the estimated total administrative expenses incurred and to be incurred by the Association of such county in cooperating in carrying out the Soil Conservation and Domestic Allotment Act, or 10 percent of the gross payment computed for such person, whichever is smaller. Such pro rata share shall be determined by multiplying the total payments computed for such person with respect to any farms in Tama County by the percentage that the estimated total of administrative expenses of the Association for Tama County as approved by the North Central Division for 1937 is of the total payments estimated by the North Central Division which will be made with respect to farms in Tama County in 1937. There shall be credited for the payment of administrative expenses of the Tama County Agricultural Conservation Association the amount of administrative expenses estimated by the North Central Division to have been incurred by the Tama County Association during the period January 1, 1937, to March 15, 1937, inclusive, in planning the 1937 Agricultural Conservation Program for Tama County provided, however, that no credit shall be allowed for expenses incurred after the referendum in Tama County. There shall also be credited to the Tama County Agricultural Conservation Association the amount obtained by multiplying $2.00 by the number of applications for payment estimated by the North Central Division under which the gross payment prior to the deduction of any administrative expenses, will be $20.00 or less or under which there will be no payment. As provided in the Articles of Association, as amended, any person who previously has not become a member of the Tama County Agricultural Conservation Association shall become a member thereof by his signing an application for payment with respect to his farms in Tama County.

The provisions of this Supplement No. 2 to North Central Region Bulletin No. 101, Tama County shall be effective as of October 14, 1937, so as to be included within the conditions mentioned in the "Order Increasing the Allowances, Deductions, and Rates of Payment under the 1937 Agricultural Conservation Program in the East Central, Northeast, North Central, Southern, and Western Regions" issued October 14, 1937.

In testimony whereof H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 20th day of December, 1937.

Issued December 20, 1937.

DETERMINATION OF FARMING PRACTICES TO BE CARRIED OUT IN CONNECTION WITH THE PRODUCTION OF SUGAR BEETS AND SUGARCANE DURING THE CROP YEAR 1937

Whereas Section 301 of the Sugar Act of 1937 authorizes the Secretary of Agriculture to make payments upon certain conditions with respect to sugar or liquid sugar commercially recoverable from the sugar beets or sugarcane grown on a farm for the extraction of sugar or liquid sugar, and

Whereas subsection (e) of section 301 of the said act provides, as one of the conditions for payment, as follows:

> That there shall be carried out on the farm such farming practices in connection with the production of sugar beets and sugarcane during the year in which the crop was harvested with respect to which a payment is applied for, as the Secretary may determine, pursuant to this subsection, for preserving and improving fertility of the soil and for preventing soil erosion, such practices to be consistent with the reasonable standards of the farming community in which the farm is situated.

Now, therefore, I, H. A. Wallace, Secretary of Agriculture, do hereby determine:

1. That the condition prescribed in subsection (e) of section 301 of the said act shall be deemed to have been fulfilled with respect to the production of the 1937 crop of sugar beets and sugarcane for sugar on any farm on which there have been carried out such farming practices prescribed under the 1937 Agricultural Conservation Program as would have qualified such farm for at least one-half of the maximum payment which could have been made with respect to sugar beets or sugarcane for sugar under such program; provided, however, that for any farm that did not have in 1937 an acreage of soil conserving crops on land customarily used in rotation with sugar beets equal to at least 20% of the acreage of sugar beets planted for harvest in 1937, the following acreages of the following practices shall be deemed to be equal to an acre of soil conserving crops and the number of acres so obtained shall, in computing the total, be added to the 1937 acreage of soil conserving crops:

(*a*) Five acres of sugar beets grown on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936;

(*b*) Two acres of green manure or cover crops turned under immediately preceding the planting of the sugar beets or planted immediately following the harvest of sugar beets and turned under after ninety days unpastured growth, in states where such practice is prescribed in the 1937 Agricultural Conservation Program; or

(*c*) Two and one-half acres of sugar beets grown in 1937 on land devoted to perennial or biennial legumes in 1936, in states where such practice is prescribed in the 1937 Agricultural Conservation Program.

2. That the condition prescribed in subsection (e) of section 301 of the said act shall be deemed to have been fulfilled with respect to the production of the 1937 crop of sugar beets for sugar on any farm on which an amount of superphosphate is applied during 1937 to not less than thirty-three and one-third percent of the acreage planted to sugar beets for harvest in 1937 at a rate per acre of not less than 50 pounds of available $P_2O_5$.

This determination supersedes the determination entitled "Determination of a Farm Pursuant to Subsection (b) of Section 304 of the Sugar Act of 1937, and Determination of Farming Practices to be Carried Out in Connection With the Production of Sugar Beets and Sugarcane During the Crop Year 1937, Pursuant to Subsection (e) of Section 301 of the Sugar Act of 1937," dated September 20, 1937, insofar as that determination relates to farming practices carried out in connection with the production of sugar beets and sugarcane for sugar during the crop year 1937.

Done at Washington, D. C., this 20th day of December, 1937. Witness my hand and the seal of the Department of Agriculture.

B. P. Q.—359 (Supplement No. 3) December 20, 1937

SUPPLEMENT NO. 3 TO INSTRUCTIONS TO INSPECTORS ON THE TREATMENT OF NURSERY PRODUCTS, FRUITS, VEGETABLES, AND SOIL, FOR THE JAPANESE BEETLE, PURSUANT TO NOTICE OF QUARANTINE NO. 48

Section II of Circular B. P. Q.—359 entitled, "Instructions to Inspectors on the Treatment of Nursery Products, Fruits, Vegetables, and Soil, for the Japanese Beetle," is further supplemented as follows:

II. TREATMENT OF SOIL ABOUT THE ROOTS OF PLANTS

*G. Fumigation of Strawberry Plants for Japanese Beetle Larvae*

The treatment outlined herein may be employed as a basis for certification of strawberry plants under regulation 6 of Quarantine No. 48 (twelfth revision).

Fumigation with methyl bromide at a dosage of 3 pounds per 1,000 cubic feet, including the space occupied by the strawberry plants, for a period of 4 hours, the plants and room to be at a temperature of not less than 60° F. during the fumigation period. The treatment is to be applied in a tight room with gas-tight doors, and the strawberry plants shall be piled loosely in open crates or baskets and stacked in the room so that the gas mixture can have access to all sides of the container. After the room is loaded and closed the dosage of methyl bromide shall be volatilized within the room. The air-gas mixture shall be circulated by means of a fan or blower throughout the entire 4-hour fumigation period, and the treatment is to be applied in a fumigation chamber of approved design and under the supervision of an inspector of the Bureau of Entomology and Plant Quarantine of the United States Department of Agriculture.

In authorizing the movement of strawberry plants fumigated according to the requirements stated above, it is to be understood that no liability shall attach either to the United States Department of Agriculture or to any of its employees in the event of injury resulting to the strawberry plants.

*Caution.*—Methyl bromide is a gas at ordinary temperatures. It is colorless and practically odorless in concentrations used for fumigation of strawberry plants. It is a poison, and the operator should use an approved gas mask when exposed to the gas at concentrations used in fumigation. The strawberry plants in the fumigation chamber should be well aerated by blowing air through them and by ventilating the house before it is entered and the plants removed.

SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT OF RULE LA7

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 14 (a) and 23 (a) thereof, hereby takes the following action:

Rule LA7 is amended to read as follows:

RULE LA7. *Effect of Violation.*—Subject to the proviso below, nothing in the rules or regulations promulgated by the Commission pursuant to Section 14 of the Securities Exchange Act shall be construed to prescribe or limit the authority of the holder or holders of any proxy, consent or authorization, and failure to comply with such rules and regulations shall not invalidate any action taken pursuant to a proxy, consent or authorization: Provided, however, that this rule shall not be construed to prevent the granting of injunctions in any proper proceedings, or to exempt any person from any of the penalties or prohibitions provided by the Act in respect of violations of the Act or any rules or regulations thereunder.

The foregoing action of the Commission shall be effective immediately upon publication.

**National Bituminous Coal Commission.**

At a Regular Session of the National Bituminous Coal Commission held at its offices in Washington, D. C., on the 21st day of December, 1937.

[Docket No. 20-FD]

ORDER IN THE MATTER OF AN INVESTIGATION AND HEARING TO DETERMINE THE NATURE AND EXTENT OF INTRASTATE COMMERCE IN BITUMINOUS COAL IN THE STATE OF INDIANA AND THE EFFECT OF SUCH COMMERCE ON INTERSTATE COMMERCE IN SUCH COAL

It appearing that by Orders No. 2 and No. 30, the Commission, upon its own motion entered into and conducted an investigation under the provisions of Section 4-A of the Bituminous Coal Act of 1937, for the purpose of determining the nature and extent of transactions in intrastate commerce in bituminous coal in the State of Indiana and the effect of such transactions upon interstate commerce in such coal; and

It further appearing that reasonable public notice of a hearing was provided and that at said hearing interested parties were afforded an opportunity to be heard; that the presiding Examiner duly designated by the Commission having filed his report and recommendations and the Commission having given due consideration to said report and recommendations and to the record of the evidence in this proceeding; and, the Commission having on the 21st day of December, 1937, adopted the Examiner's report and recommendations as its own which said report is hereby referred to and made a part hereof;

Now, therefore, It is by order declared:

That substantially all transactions in bituminous coal in intrastate commerce in the State of Indiana directly affect interstate commerce in such coal; and

That there will be an undue or unreasonable advantage, preference or prejudice as between localities in Indiana in such intrastate commerce on the one hand and interstate commerce in bituminous coal on the other hand, and an undue, unreasonable, or unjust discrimination against interstate commerce in such coal if such transactions in intrastate commerce or any substantial part thereof are not regulated and subjected to the provisions of Section 4 of the Bituminous Coal Act of 1937.

*Therefore, it is further ordered:*

1. That on and after the 3rd day of January, 1938, all bituminous coal sold, delivered or offered for sale in transactions in intrastate commerce in such coal in all localities within the State of Indiana shall be subject to the provisions of Section 4 of the Bituminous Coal Act of 1937, to the Bituminous Coal Code, as promulgated by the Commission and made effective on the 21st day of June, 1937, and to all relevant orders of the Commission in effect on the date of this order, as well as all further orders which may thereafter be issued by the Commission under Section 4 of said Act, so as to apply to such intrastate commerce in coal within the State of Indiana.

2. That any producer of bituminous coal in intrastate commerce within the State of Indiana, who may believe that his or its particular transactions in intrastate commerce in bituminous coal should be exempted from this order and/or from the provisions of Sections 4 and 4-A of said Bituminous Coal Act of 1937, may file application at any time hereafter for exemption pursuant to the second paragraph of Section 4-A of said Act, and be entitled to a hearing and appropriate orders thereon.

3. That the Secretary of the Commission shall give notice to each known producer of bituminous coal within the State of Indiana, who is not upon the date of this Order a member of the Bituminous Coal Code, by mailing, within five (5) days from this date, a copy of this Order, together with three (3) copies of the Form of Code Acceptance and rules prescribed by the Commission for filing acceptances, and a copy of the Bituminous Coal Code as promulgated under date of June 21, 1937.

The Secretary shall cause a copy of this Order to be published in the FEDERAL REGISTER, and shall also publish a copy thereof in a newspaper of general circulation in each county within the State of Indiana known to produce bituminous coal, publication thereof to be made three (3) times within fourteen (14) days from the date of this Order.

By order of the Commission.

Dated this 21st day of December, 1937.

[Docket No. 124-FD]

IN THE MATTER OF LITTLE JOHN COAL CO., INC.

TEMPORARY ORDER

The petitioner above named having filed with the Commission on the 15th day of December, 1937, pursuant to the provisions of paragraph 2 of Order No. 98 and Section 4, Part II (d), of the Bituminous Coal Act of 1937, a petition alleging dissatisfaction with the minimum prices applicable to the sale of coal to the Chicago, Burlington & Quincy Railroad in District No. 10, by petitioner, operating a mine on short line connection of the aforesaid railroad, and established by the Commission by its Orders Nos. 98 and 133, and praying for a temporary order pending final disposition of such petition; and the Commission having noticed an ex parte hearing upon such petition for the 21st day of December, 1937, at the Hearing Room of the Commission at Washington, D. C.; and pursuant to said notice an ex parte hearing having been held thereon; and it appearing to the Commission that the petitioner has made a reasonable showing of the necessity for a temporary order pending final disposition of the petition; the Commission, pursuant to the provisions of Section 4, Part II (d), of the Act, orders as follows:

1. That pending final disposition of the aforesaid petition and until further order of the Commission, the Schedule of Minimum Prices for coals of code members produced within District No. 10, filed in the office of the Secretary of the Commission on the 30th day of November, 1937, and as supplemented by Order No. 133, dated December 14, 1937, is hereby modified by adding to such price schedule, as amended, the following proviso:

"That code members in District No. 10, whose mines are located on the Galesburg and Great Eastern Railroad, may absorb, on sales of coals from such mines to the Chicago, Burlington and Quincy Railroad, an amount not exceeding eleven (11) cents per net ton from the minimum price now established for railroad locomotive fuel."

2. That the Secretary of the Commission shall forthwith mail a copy of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Boards for the districts within Minimum Price Area Two; and to the petitioner; and to Code Members within District No. 10; and shall cause copies of this order to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

By order of the Commission.

Dated this 21st day of December, 1937.

NOTICE OF RE-OPENING OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

Whereas pursuant to Public No. 10, 73rd Congress, as amended and as reenacted and further amended by the Agricultural Marketing Agreement Act of 1937, the Secretary of Agriculture held a public hearing at Cincinnati, Ohio, on the 29th day of November 1937, in connection with a proposed marketing agreement and proposed order regulating the handling of milk in the Cincinnati, Ohio, marketing area, which public hearing was adjourned by the presiding officer subject to being re-opened by the Secretary; and

Whereas the Secretary has determined to re-open said hearing for the purpose of receiving additional evidence as to general economic conditions which may necessitate regulation in order to effectuate the declared policy of the act and as to the specific provisions which a marketing agreement and order should contain:

Now, therefore, notice is hereby given that the aforesaid hearing will be re-opened on January 4, 1938 at 9:30 a. m., eastern standard time, in the Ball Room of the Alms Hotel, McMillan and Victory Parkway, Cincinnati, Ohio, for the purpose of receiving additional evidence as to general economic conditions in the marketing area and as to the specific provisions which a marketing agreement and order should contain.

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area, and it is hereby determined that the period of notice of the reopening of said hearing hereby given is reasonable under the circumstances.

Copies of the proposed marketing agreement and proposed order may be inspected or procured from the Hearing Clerk, Office of the Solicitor, Room 0318, South Building, United States Department of Agriculture, Washington, D. C.

NOTICE UNDER ACT TO REGULATE INTERSTATE AND FOREIGN COMMERCE IN LIVESTOCK, ETC.

TO FARMERS' LIVE STOCK MARKET, INC.,
*Bristol, Va.*

Whereas, Section 301 of Title III of an Act of Congress entitled "An Act to regulate interstate and foreign commerce in livestock, livestock products, dairy products, poultry, poultry products, and eggs, and for other purposes", approved August 15, 1921, provides in part that, when used in said Act, the term "stockyard owner" means any person engaged in the business of conducting or operating a stockyard; and Section 302 of said Act provides as follows:

(a) When used in this title the term "stockyard" means any place, establishment, or facility commonly known as stockyards, conducted or operated for compensation or profit as a public market, consisting of pens, or other inclosures, and their appurtenances, in which live cattle, sheep, swine, horses, mules, or goats are received, held, or kept for sale or shipment in commerce. This title shall not apply to a stockyard of which the area normally available for handling livestock, exclusive of runs, alleys, or passage ways, is less than twenty thousand square feet.

(b) The Secretary shall from time to time ascertain, after such inquiry as he deems necessary, the stockyards which comes within the foregoing definition, and shall give notice thereof to the stockyard owners concerned, and give public notice thereof by posting copies of such notice in the stockyard, and in such other manner as he may determine. After the giving of such notice to the stockyard owner and to the public, the stockyard shall remain subject to the provisions of this title until like notice is given by the Secretary that such stockyard no longer comes within the foregoing definition:

Notice is hereby given that after inquiry it has been ascertained by me as Secretary of Agriculture of the United States that the stockyard known as Farmers' Livestock Market, at Bristol, State of Virginia, comes within the foregoing definition and is subject to the provisions of said Act.

The attention of stockyard owners, market agencies, dealers and other persons concerned is directed to Sections 303 and 306 and other pertinent provisions of said Act and the rules and regulations issued thereunder by the Secretary of Agriculture.

## FEDERAL HOME LOAN BANK BOARD.

### Home Owners' Loan Corporation.

AMENDMENT TO CHAPTER IV AND CHAPTER V OF THE MANUAL

CHANGE IN TITLE OF OFFICIAL HEADS OF THE APPRAISAL AND RECONDITIONING SECTIONS

Whereas the former Appraisal Division and Reconditioning Division are now operating as Sections of the "Appraisal and Reconditioning Division" as set forth in the new Consolidated Manual, and it has therefore become desirable to effect a change in the titles of the heads of these two Sections: Therefore,

*Be it resolved*, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4-a and 4-k of said Act as amended, the title of Chief Appraiser as used in the Manual be changed to Chief, Appraisal Section, and the title of Director of Reconditioning as used in the Manual be changed to Chief, Reconditioning Section, and the Appraisal and Reconditioning Chapters of the Manual be amended by inserting said new titles in lieu of the former titles in all places where they now appear; such insertion to be at such times as the pages involved are reprinted for the insertion of other matter; and

*Be it further resolved*, That all duties, responsibilities and authority incident to the offices under their former titles be hereby transferred, respectively, to the offices having the new titles herein provided.

Adopted by the Federal Home Loan Bank Board on December 21, 1937.

## SECURITIES AND EXCHANGE COMMISSION.

### RULES UNDER SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

### REVISED RULES GOVERNING REGISTRATION OF CERTAIN UNISSUED SECURITIES FOR "WHEN ISSUED" TRADING ON EXCHANGES AND EXEMPTION OF CERTAIN WARRANTS FROM SECTION 12 (A) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

These rules were adopted pursuant to authority conferred upon the Securities and Exchange Commission by the Securities Exchange Act of 1934, as amended, particularly Sections 3 (a) (12), 10 (b), 12 (d) and 23 (a) thereof. Rule JD4 applies to the registration of certain unissued securities for "when issued" trading on an exchange and takes the place of Rules JD4 to JD12, inclusive, which are repealed. Rule AN15 applies to the exemption of certain issued warrants from the operation of Section 12 (a) of the Securities Exchange Act of 1934, as amended, and takes the place of Rules AN15 to AN17, inclusive, which are repealed. New forms have been adopted to replace Forms 1–J to 5–J, inclusive, which are repealed. The new Form 1–J is an application to register certain unissued warrants for "when issued" dealing on an exchange; the new Form 2–J is an application to register unissued securities other than warrants for "when issued" dealing on an exchange; and Form 15–AN is a statement of exemption of an issued warrant to be filed pursuant to Rule AN15.

The Securities and Exchange Commission acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 3 (a) (12), 10 (b), 12 (d) and 23 (a) thereof, and deeming the following action to be necessary for the execution of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors, hereby takes the following action:

I. The following rules and forms, as presently in effect, are repealed:

Rules AN15 to AN17, inclusive.
Rules JD4 to JD12, inclusive.
Forms 1–J to 5–J, inclusive.

II. The following new rule, designated Rule JD4, is hereby adopted:

III. Form 1–J, as set forth in the copies of such form marked "Revision of January 3, 1938", is hereby adopted for applications for registration of an unissued warrant for "when issued" dealing on a national securities exchange.

IV. Form 2–J, as set forth in the copies of such form marked "Revision of January 3, 1938", is hereby adopted for applications for registration of an unissued security other than a warrant for "when issued" dealing on a national securities exchange.

V. The following new rule, designated Rule AN15, is hereby adopted:

VI. Form 15–AN, as set forth in copies of such form marked "Adopted as of January 3, 1938", is hereby adopted as the form for statements to be filed in respect of an issued warrant exempted pursuant to Rule AN15.

The foregoing action shall be effective at the opening of business January 3, 1938.

*Rule JD4. Rule for Registration of Certain Unissued Warrants and Other Unissued Securities for "When Issued" Dealing on National Securities Exchanges*

SECTION 1. *Definitions.*—When used in this rule or in the forms prescribed pursuant thereto unless the context otherwise requires—

(*a*) The term "warrant" means any warrant or certificate evidencing a right to subscribe to or otherwise acquire an unissued security.

(*b*) The term "beneficiary security" means a security to the holders of which a warrant or right to subscribe to or otherwise acquire an unissued security is granted.

(*c*) The term "subject security" means an unissued security which is the subject of a warrant or right to subscribe to or otherwise acquire such security.

(*d*) The term "in the process of admission to dealing", in respect of a specified security means that (1) an application has been filed pursuant to Section 12 (b) and (c) of the Act for the registration of such security on a national securities exchange upon notice of issuance; or (2) the Commission has granted an application made pursuant to Section 12 (f) of the Act to continue or extend unlisted trading privileges to such security on a national securities exchange; or (3) written notice has been filed with the Commission by a national securities exchange to the effect that such security has been approved for admission to dealing as a security exempted from the operation of Section 12 (a) of the Act.

(*e*) The term "certifying exchange" means the exchange which has certified and approved the unissued warrant or other unissued security for registration for dealing on a "when issued" basis.

(*f*) The term "Notice of Deficiency" means a notice to the applicant by mail or telegraph setting forth any ground which appears to exist for denial of registration pursuant to Section 8 hereof.

SEC. 2. *Registration of an unissued warrant.*—An unissued warrant may be registered for "when issued" dealing on a national securities exchange, provided that—

(*a*) Such warrant is to expire by its terms within ninety days after the issuance thereof.

(*b*) Such warrant is granted to the holders of a security which is admitted to dealing on a national securities exchange.

(*c*) In respect of such warrant (1) an application has been filed pursuant to Section 12 (b) and (c) of the Act for registration, upon notice of issuance, on the certifying exchange or on another national securities exchange in the same city, or (2) a statement on Form 15–AN complying with the provisions of Rule AN15 has been filed and such warrant has been approved by the certifying exchange or by another national securities exchange in the same city for admission to dealing as a security exempted from the operation of Section 12 (a) of the Act.

(*d*) Each subject security is in the process of admission to dealing on a national securities exchange.

(*e*) A registration statement under the Securities Act of 1933 as amended is in effect as to such warrant and as to each subject security, if such registration is required.

(*f*) Formal and official announcement has been made by the issuer specifying (1) the terms of the plan or offer pursuant to which such warrant and each subject security is to be issued, and (2) the date, if any, as of which holders of record of the beneficiary security will be determined to be entitled to acquire such warrant, and (3) the approximate date of the issuance of such warrant, and (4) the approximate date of the issuance of each subject security.

(*g*) The members of the certifying exchange are subject to rules which provide substantially that the performance of a contract to purchase or to sell an unissued warrant shall be conditioned upon the issuance of such warrant.

(*h*) Notwithstanding the other provisions of this Rule an unissued warrant may not be registered for "when issued" dealing on an exchange on which such warrant is not in the process of admission to dealing, if application has been made for "when issued" dealing in such warrant on another exchange in the same city on which other exchange such warrant is in the process of admission to dealing.

SEC. 3. *Application for registration of an unissued warrant.*—An unissued warrant may be registered for "when issued" dealing on a national securities exchange—

(*a*) By the issuer filing Form 1–J with such exchange and with the Commission and by such exchange filing with the Commission the certification required by Form 1–J; or

(*b*) By such exchange filing Form 1–J with the Commission.

SEC. 4. *Registration of an unissued security other than a warrant.*—An unissued security other than a warrant may be registered for "when issued" dealing on a national securities exchange, provided that—

(*a*) Such unissued security is in the process of admission to dealing on such exchange or on another national securities exchange in the same city.

(*b*) Such unissued security is the subject of a right to subscribe to or otherwise acquire such unissued security granted to the holders of a security which is admitted to dealing on a national securities exchange.

(*c*) A registration statement under the Securities Act of 1933 as amended is in effect as to such unissued security, if such registration is required.

(*d*) If such unissued security is the subject of a warrant which is to expire by its terms in not more than 90 days, such warrant shall expire within 120 days after the record date for determining the holders of the beneficiary security entitled to acquire such warrant.

(*e*) Formal and official announcement has been made by the issuer specifying (1) the terms of the plan or offer pursuant to which such unissued security is to be issued, and (2) the date, if any, as of which holders of record of the beneficiary security will be determined to be entitled to subscribe to or otherwise acquire such unissued security, and (3) the approximate date of the issuance of such unissued security.

(*f*) The members of the certifying exchange are subject to rules which provide substantially that the performance of a contract to purchase or sell an unissued security shall be conditioned upon the issuance of such security.

(*g*) Notwithstanding the other provisions of this Rule an unissued security may not be registered for "when issued" dealing on an exchange on which such security is not in the process of admission to dealing, if application has been made for "when issued" dealing on another exchange in the same city on which other exchange such security is in the process of admission to dealing.

SEC. 5. *Application for Registration of an Unissued Security Other than a Warrant.*—An unissued security other than a warrant may be registered for "when issued" dealing on a national securities exchange—

(*a*) By the issuer filing Form 2–J with such exchange and with the Commission and by such exchange filing with the Commission the certification required by Form 2–J; or

(*b*) By such exchange filing Form 2–J with the Commission.

SEC. 6. *Effective and expiration dates.*—(*a*) Registration of an unissued warrant or other unissued security for "when issued" dealing on a national securities exchange, shall become effective on the latest of the following dates:

(1) The opening of business on the sixth day after the date of filing with the Commission of the application for registration, or

(2) The opening of business on the second day after the date of filing with the Commission of the certification by such exchange to the application for registration, or

(3) If the Commission has sent a Notice of Deficiency, the date when the Commission sends notice to the applicant and to the exchange that all Notices of Deficiency have been withdrawn.

(*b*) If, in respect of an unissued warrant, any of the provisions of Section 2 hereof have not been satisfied, or if, in respect of an unissued security other than a warrant, any of the provisions of Section 4 hereof have not been satisfied, and if the Commission has failed to send a Notice of Deficiency or has notified the exchange that all Notices of Deficiency have been withdrawn, registration of such unissued warrant or other unissued security shall nevertheless become effective on the date specified in Paragraph (a) of this section as though no such deficiency existed, but the Commission shall, not thereby be precluded from thereafter revoking such registration pursuant to Section 9 hereof for such deficiency.

(*c*) The Commission may accelerate the date upon which registration shall become effective upon a showing of unusual circumstances by written petition.

(*d*) Registration of an unissued warrant or other unissued security for "when issued" dealing shall expire at the close of business on the forty-fifth day after the effective date of such registration or at the close of business on the fifth full business day after the issuance of such warrant or other unissued security, whichever date is earlier, unless the Commission shall order an extension of the effective period of such registration.

SEC. 7. *Amendments—Withdrawal of certification.*—(*a*) Promptly after the discovery of any inaccuracy, omission or other deficiency in an application for registration pursuant to this Rule, or in the certification thereto, or in any amendment thereto, or after the occurrence of any event which renders no longer accurate any portion of such application, certification or amendment, an amendment shall be filed correcting such inaccuracy, omission or other deficiency or setting forth the occurrence of such event. An amendment filed prior to the effective date of the application shall be deemed to have been filed at the same time and as a part of the original application. Amendments to the application for registration shall be filed on Form 8.

(*b*) In the event that, prior to the time registration becomes effective, an amendment to the application for registration is filed by the issuer with an exchange and the Commission, the certification by the exchange, unless withdrawn, shall be deemed made to the application as amended.

(*c*) An exchange may by notice to the Commission withdraw its certification as to all or any part of the warrants or other securities covered thereby prior to the time that registration becomes effective.

SEC. 8. *Denial of registration.*—(*a*) The Commission may deny registration of an unissued warrant or other unissued security for "when issued" dealing if, after notice and opportunity for hearing, it finds that—

(1) The application for registration or the certification thereof or any amendment thereto is deficient; or

(2) In respect of an unissued warrant, the provisions of Section 2 hereof have not been satisfied; or

(3) In respect of an unissued security other than an unissued warrant, the provisions of Section 4 hereof have not been satisfied; or

(4) Any other facts exist which make denial of registration necessary or appropriate in the public interest or for the protection of investors.

(*b*) If it appears necessary or appropriate in the public interest or for the protection of investors, the Commission may postpone the effective date of any registration for any period of time.

(*c*) If 40 days have elapsed since the sending of any Notice of Deficiency, other than one which has been withdrawn, and neither the issuer nor the exchange has made a written request to the Commission for a hearing to determine whether registration shall become effective, such application shall be deemed withdrawn unless the Commission extends the time within which such request may be made. If such request is made, the Commission shall, within five days after receipt thereof, send notice by mail or telegraph of the date, hour and place fixed for the hearing. If such notice of hearing is not sent within the time specified, registration shall become effective upon the opening of business on the sixth business day after the date of receipt of the request for a hearing. Any hearing pursuant to this rule may be continued from time to time for cause. After hearing, the Commission may deny registration or grant registration conditionally or unconditionally and fix the date when registration shall become effective.

SEC. 9. *Suspension and revocation of registration.*—(*a*) The Commission may revoke the registration of an unissued warrant or other unissued security for "when issued" dealing on a national securities exchange, if, after appropriate notice

and opportunity for hearing to the issuer of such warrant or other unissued security and to such exchange, it finds that—

(1) Any cause existed or has arisen since the effective date of such registration which would be grounds for denial of registration; or

(2) Any amendment required by Section 7 has not been filed; or

(3) Subsequent to the effective date of such registration, transactions have been effected on such exchange which, with respect to such unissued warrant or other unissued security (i) create or induce a false, misleading or artificial appearance of activity, (ii) unduly or improperly influence the market price, or (iii) make a price which does not reflect the true state of the market; or

(4) Any other facts exist which make such revocation necessary or appropriate in the public interest or for the protection of investors.

(b) If it shall appear necessary or appropriate in the public interest or for the protection of investors, the Commission may suspend such registration summarily pending final determination as to whether such registration shall be revoked.

*Rule AN15. Exemption of Certain Warrants From Section 12 (a)*

(a) When used in this rule or in the forms prescribed pursuant thereto, unless the context otherwise requires—

(1) The term "warrant" means any warrant or certificate evidencing a right to subscribe to or otherwise acquire another security, issued or unissued.

(2) The term "beneficiary security" means a security to the holders of which a warrant or right to subscribe to or otherwise acquire another security is granted.

(3) The term "subject security" means a security which is the subject of a warrant or right to subscribe to or otherwise acquire such security.

(4) The term "in the process of admission to dealing", in respect of a specified security means that (A) an application has been filed pursuant to Section 12 (b) and (c) for the registration of such security on a national securities exchange; or (B) the Commission has granted an application made pursuant to Section 12 (f) to continue or extend unlisted trading privileges to such security on a national securities exchange; or (C) written notice has been filed with the Commission by a national securities exchange to the effect that such security has been approved for admission to dealing as a security exempted from the operation of Section 12 (a).

(b) An issued warrant granted to the holders of a security which is admitted to dealing on a national securities exchange shall be exempt from the operation of Section 12 (a) to the extent necessary to render lawful the effecting of transactions therein on any national securities exchange (1) upon which the beneficiary security is admitted to dealing or (2) upon which the subject security is admitted to dealing or is in the process of admission to dealing, provided that—

(A) Such warrant expires by its terms within ninety days after the issuance thereof;

(B) At least six days prior to the commencement of dealing in such warrant as an exempted security on any such exchange, a statement on Form 15–AN has been filed (i) with the Commission and with such exchange by the issuer of such warrant or (ii) with the Commission by such exchange; except that such statement need be filed only two business days prior to such commencement of dealing if, at the time of such commencement of dealing, another statement on Form 15–AN complying with the requirements of this rule in respect of exemption of such warrant on another exchange, has been on file at least six days.

(C) A certification has been filed with the Commission by such exchange to the effect that such warrant has been approved for admission to dealing as an exempted security.

(D) At the time of the issuance of the warrant, a security of the issuer of the subject security is admitted to dealing on a national securities exchange.

(E) Each subject security is admitted to dealing or is in the process of admission to dealing on a national securities exchange.

(F) Prior to the commencement of dealing in such warrant on any such exchange, the Commission has not notified the exchange that in the opinion of the Commission registration of such warrant or any security which is the subject of such warrant is required under the Securities Act of 1933, as amended, and is not in effect.

(c) Promptly after the discovery of any inaccuracy, omission or other deficiency in a statement filed pursuant to this rule, or after the occurrence of any event which renders no longer accurate any portion of such statement, an amendment on Form 8 correcting such inaccuracy, omission, or other deficiency or setting forth the occurrence of such event shall be filed by the issuer or exchange which filed such statement.

(d) The Commission may by order revoke the exemption of a warrant exempted under this rule, if, after appropriate notice and opportunity for hearing to the issuer of such warrant and to the exchange or exchanges on which such warrant is admitted to dealing as an exempted security, it finds that—

(1) Any cause has existed at any time during the period of such exemption which would have prevented such exemption from being effective including the failure to file any amendment required by paragraph (c); or

(2) At any time during the period of such exemption, transactions have been effected on any such exchange in such warrant which (A) create or induce a false, misleading or artificial appearance of activity, (B) unduly or improperly influence the market price, or (C) make a price which does not reflect the true state of the market; or

(3) Any other facts exist which make such revocation necessary or appropriate in the public interest or for the protection of investors.

(e) If it appears necessary or appropriate in the public interest or for the protection of investors, the Commission may summarily suspend the exemption of such warrant pending the determination by the Commission whether such exemption shall be revoked.

(f) Rule GB1 shall be applicable to any warrant exempted from the operation of Section 12 (a) by paragraph (b) of this rule.

By the Commission.

## UNITED STATES BOARD OF TAX APPEALS.

### RULES OF PRACTICE BEFORE THE UNITED STATES BOARD OF TAX APPEALS

[Revised to January 1, 1938]

INTRODUCTION

These revised rules are promulgated pursuant to authority of section 907 (a) of the Revenue Act of 1924, as amended by section 601 of the Revenue Act of 1928, which provides in part that "The proceedings of the Board and its divisions shall be conducted in accordance with such rules of practice and procedure (other than rules of evidence) as the Board may prescribe and in accordance with the rules of evidence applicable in courts of equity of the District of Columbia."

Congress in the revenue acts has enacted provisions relating to the organization, jurisdiction, and procedure of the Board of Tax Appeals, and to the action of the Bureau of Internal Revenue with respect to the assessment and collection of deficiencies when a petition has been filed with the Board. Reference is made to those statutory provisions in the revenue acts for procedural requirements other than those relating to the conduct of proceedings before the Board and its divisions to which these Rules of Practice are limited. Attention is called to title 26 of the United States Code Annotated for convenient reference to the revenue acts as amended and particularly to sections 271, 272, 273, 600, and 645 of title 26.

This edition of the Rules of Practice is the twelfth revision. It becomes effective on January 1, 1938, and takes the place of the last revision which became effective on July 1, 1935. Further revisions will be made from time to time, as circumstances justify, and practitioners should keep themselves current. The Board will furnish copies upon request. The revised rules are published in the first succeeding bound volume of the Board reports as well as in the tax services. The Board appreciates the assistance and cooperation which it received in the preparation of these revised rules from attorneys in the Treasury Department, from members of the committee on taxation of the American Bar Association, and from others.

Attention is called to the following: Many petitions filed with this Board are dismissed for lack of jurisdiction and for failure to comply with the Rules of Practice. It is therefore of great importance to petitioners that petitions be prepared and filed properly in accordance with statutory requirements and the provisions of the Rules of Practice.

*Rule 1—Business Hours*

The office of the Board at Washington, D. C., will be open each business day from 9 o'clock a. m. to 4:30 o'clock p. m.

*Rule 2—Admission to Practice*

Persons of the following classes who are found by the Board, upon consideration of their applications, to be citizens of the United States, of good moral character, and to possess the requisite qualifications to represent others, may be admitted to practice before the Board:

(a) Attorneys at law who are admitted to practice before the Supreme Court of the United States or the highest court of any State or Territory or of the District of Columbia.

(b) Certified public accountants duly qualified under the laws of any State or Territory or of the District of Columbia.

Corporations and firms will not be admitted or recognized.

An applicant for admission must file his application with the Board on the form provided. Forms will be furnished upon request to the secretary of the Board. Such application shall be accompanied by a current certificate of the clerk of the court in which the applicant is admitted to practice to the effect that he has been so admitted and is in good standing; or a current certificate by the proper State, Territorial, or District authority to the effect that the applicant is a certified public accountant in good standing, duly qualified and entitled to practice in such State or Territory or the District of Columbia.

The Board may deny admission to, suspend, or disbar any person who in its judgment does not possess the requisite qualifications to represent others, or who is lacking in character, integrity, or proper professional conduct. No person shall be suspended for more than 60 days or disbarred until he has been afforded an opportunity to be heard. A Division may immediately suspend any person for not more than 60 days for contempt or misconduct during the course of any proceeding.

The Board may require any practitioner before it to furnish a statement under oath of the terms and circumstances of his employment in any proceeding.

*Rule 3—Personal Representation in Lieu of Counsel*

Any individual taxpayer or member of a taxpayer partnership may appear for himself or such partnership upon adequate identification to the Board. A taxpayer corporation may be represented by a bona fide officer of the corporation upon permission granted, in its discretion, by the Board or the Division sitting.

*Rule 4—Form and Style of Papers*

All papers filed with the Board shall be either printed or typewritten, and if typewritten, shall be on only one side of plain white paper. This paper shall be not more than 8½ inches wide and 11 inches long, and shall weigh not less than 16 pounds to the ream. The papers shall be fastened on the left side and at no other place. They shall not be bound with stiff covers or backs. Copies shall be legible but may be on any weight paper. If printed, they shall be in 10- or 12-point type, on good unglazed paper, 5⅞ inches wide by 9 inches long, with inside margin not less than 1 inch wide, and with double-leaded text and single-leaded quotations. Citations shall be in italics when printed, and underscored when typewritten.

The proper caption shall be placed upon all papers filed. If the petitioner is an individual, the full given name and surname shall be set forth in the caption. If the petitioner is a married woman, her given name shall be used, not the name of her husband preceded by "Mrs." If the petitioner is a fiduciary, the name of the estate, trust, or other person for whom he acts, shall be given first, followed by the name of the fiduciary. (See Rules 5 and 6 (a), and Appendix I, Form No. 2.)

Except as otherwise provided in these rules, a signed original and four conformed copies of all papers shall be filed. Whenever any paper is filed in more than one proceeding (as a motion to consolidate proceedings or in proceedings already consolidated), one additional copy shall be filed for each additional proceeding.

The written signature, whether of counsel or of the petitioner, shall be in individual and not in firm name, except that where the petitioner is a corporation the written signature shall be by an active officer of the corporation. The name and mailing address of the petitioner or of counsel shall be typed or printed immediately following the written signature.

*Rule 5—Proper Parties*

The proceeding shall be brought by and in the name of the person against whom the Commissioner determined the deficiency [or liability, as the case may be], or by and in the full descriptive name of the fiduciary legally entitled to institute a proceeding on behalf of such person.

In the event of a variance between the name set forth in the notice of deficiency or liability and the correct name, a statement of the reasons for such variance shall be set forth in the petition. (See Rules 4, 6, and 23.)

*Rule 6—Initiation of a Proceeding—Petition*

A proceeding shall be initiated by filing with the Board a petition, as provided in Rules 4, 5, and 8, and substantially in accordance with Form 2, shown in Appendix I. The petition shall be complete in itself so as fully to state the issues. It shall contain:

(a) A caption in the following form:

United States Board of Tax Appeals

Docket No. —

----------, PETITIONER

*v.*

COMMISSIONER OF INTERNAL REVENUE, RESPONDENT

*Petition*

(b) Proper allegations showing jurisdiction in the Board.

(c) A statement of the amount of the deficiency [or liability, as the case may be], determined by the Commissioner, the nature of the tax, the period for which determined, and the amount thereof (as nearly as may be computed) in controversy.

(d) Clear and concise assignments of each and every error which the petitioner alleges to have been committed by the Commissioner in the determination of the deficiency. Issues in respect of which the burden of proof is by statute placed upon the Commissioner will not be deemed to be raised by the

petitioner in the absence of assignments of error in respect thereof. Each assignment of error shall be numbered.

(*e*) Clear and concise numbered statements of the facts upon which the petitioner relies as sustaining the assignments of error, except those assignments of error in respect of which the burden of proof is by statute placed upon the Commissioner.

(*f*) A prayer, setting forth relief sought by the petitioner.

(*g*) The signature of the petitioner or that of his counsel. (See Rule 4.)

(*h*) A verification by the petitioner; provided that where the petitioner is sojourning outside the United States or is a nonresident alien, the petition may be verified by a duly appointed attorney in fact, who shall attach to the petition a copy of the power of attorney under which he acts and who shall state in his verification that he acts pursuant to such power, that such power has not been revoked; that petitioner is absent from the United States, and the grounds of his knowledge of the facts alleged in the petition. As used herein the term "United States" includes only the States and the District of Columbia. A notary public is not authorized to administer oaths, etc., in matters in which he is employed as counsel. (See title 4, ch. 2, D. C. Code, and 26 Op. A. G. 236.)

In the case of estates, trusts, or other fiduciaries, the petition shall be signed by counsel or by one or more of the fiduciaries and shall be verified by one or more of the fiduciaries. A majority of the fiduciaries shall either sign or verify the petition.

The signature and the verification to the petition shall be considered the certificate of those performing these acts that there is good ground for the petition, the proceeding has not been instituted merely for delay, and it is not frivolous.

(*i*) A copy of the notice of deficiency (or liability, as the case may be), shall be appended to the petition. If a statement has accompanied the notice of deficiency, so much thereof as is material to the issues set out in the assignments of error likewise shall be appended. If the notice of deficiency refers to prior notices from the Bureau, which are necessary to elucidate the determination, such parts thereof as are material to the issues set out in the assignments of error shall likewise be appended. (See Appendix I, Form No. 2.)

*Rule 7—Filing of Petition*

An original and four clear copies of the petition, either printed or typewritten as provided in Rule 4, shall be filed with the Board at Washington, D. C. The copies of the petition shall be conformed to the original by the petitioner.

Failure to file a sufficient number of copies, as provided in this rule, or to conform to the requirements of Rules 4, 5, and 8, shall be ground for dismissal of the proceeding.

*Rule 8—Fee for Filing Petition*

The fee for filing a petition with the Board shall be $10, payable at the time of filing.

*Rule 11—Docket*

Upon receipt of the petition, the proceeding will be docketed and assigned a number and the parties notified thereof. This number shall be placed by the parties on all papers thereafter filed in the proceeding.

*Rule 12—Service of the Petition*

Upon filing of a petition and the copies, as prescribed in Rule 7, the clerk will serve a copy upon the Commissioner.

*Rule 14—Answer*

After service upon him of a copy of the petition, the Commissioner shall have 60 days within which to file an answer or 45 days within which to move in respect of the petition. The answer shall be so drawn as fully and completely to advise the petitioner and the Board of the nature of the defense. It shall contain a specific admission or denial of each material allegation of fact contained in the petition and a statement of any facts upon which the Commissioner relies for defense or for affirmative relief or to sustain any issue raised in the petition in respect of which issue the burden of proof is, by statute, placed upon the Commissioner. Each paragraph contained in the answer shall be numbered to correspond with the paragraphs of the petition. An original and four copies of the answer shall be filed, of which the original shall be signed by the Commissioner or his counsel and the copies conformed by him.

The clerk will serve one copy of the answer upon the petitioner or his counsel of record by registered mail.

*Rule 15—Reply*

If the answer of the Commissioner sets forth facts upon which he relies for affirmative relief, or contains a statement of the facts upon which he relies to sustain an issue in respect of which the burden of proof is placed upon him by statute, the petitioner shall, within 45 days after a copy of such answer is mailed to him or his counsel of record by registered mail, file a reply which shall contain a specific admission or denial of each material allegation of fact contained in the answer and shall set forth any facts upon which he relies for defense. Each paragraph contained in the reply shall be numbered to correspond with the paragraphs of the answer. An original and four copies of the reply shall be filed, of which the original shall be signed by the petitioner or his counsel and the copies conformed by him.

The Board upon motion of the respondent in which good cause is shown, or upon its own motion, may require the verification of any reply.

The clerk will serve one copy of the reply upon the Commissioner.

*Rule 16—Joinder of Issue*

A proceeding shall be deemed at issue upon the filing of the answer unless a reply is required under Rule 15, in which event the proceeding shall be deemed at issue upon the filing of the reply.

*Rule 17—Amended and Supplemental Pleadings*

The petitioner may, as of course, amend his petition at any time before answer is filed. After answer is filed, a petition may be amended only by consent of the Commissioner or on leave of the Board.

All motions to amend, made prior to the hearing, must be accompanied by the proposed amendments or amended pleading.

Upon motion made, the Board may, in its discretion, at any time before the conclusion of the hearing, permit a party to a proceeding to amend the pleadings to conform to the proof.

When motions to amend are granted at the hearing, the amendment or amended pleading shall be filed at the hearing or with the Board within such time as the member presiding may fix.

See Rules 4 and 19.

*Rule 18—Pleadings—General*

The Board, upon motion of either party in which good cause is shown, or upon its own motion, may order a further and better statement of the nature of the claim or defense, or of any matter stated in any pleading. Such a motion filed by a party shall point out the defects complained of and the details desired. If such order of the Board is not obeyed within 15 days or within such other time as the Board may fix, the Board may strike the pleading to which the motion was directed or may make such other order as it deems just.

If no reply is required by these rules, each and every material allegation of fact set out in the answer shall be deemed to be denied. Any new or affirmative matter contained in the reply shall be deemed to be denied.

Where an answer has been filed, each and every material allegation of fact set out in the petition and not expressly admitted or denied in the answer, shall be deemed to be admitted. Where a reply is required by these rules and a reply has been filed, each and every material allegation of fact set out in the answer and not expressly admitted or denied in the reply shall be deemed to be admitted.

Where no answer is filed or where a reply is required by these rules, but no reply is filed, the adverse party, within 45 days after the expiration of the time fixed by these rules for filing the answer or the reply, as the case may be, or within 45 days after the promulgation of these rules, whichever shall allow the greater time, may file a motion with the Board calling attention to the fact that the pleading has not been filed within the specified time and certain material allegations of fact have not been denied, and requesting the Board to enter its order that those particular undenied allegations shall be deemed to be admitted. The Board will serve a copy of this motion upon the other party and issue an order to show cause, returnable on or before a day certain. If the above described motion is not filed within the prescribed time, the allegations of the pleading to which there was no response shall be deemed to be denied.

*Rule 19—Motions*

Motions must be timely. If a motion, other than one relating to the receipt of evidence during trial, is made orally during trial, the maker thereof shall promptly reduce it to writing and file it with the Board unless the member presiding directs otherwise. Motions shall be prepared in the form and style prescribed by Rule 4. The clerk will serve a copy of each motion upon the opposite party. Motions will be acted upon as justice may require and may, in the discretion of the Board, be placed upon the calendar for argument. (See also Rule 30 (b).) The filing of a motion shall not constitute cause for postponement of a hearing from the date set.

Motions for rehearing, reconsideration, further hearing, and the like, to be considered timely, shall be made within 30 days after promulgation or entry of the report.

Motions to vacate, correct, or revise a decision of the Board, to be considered timely, shall be made within 30 days after entry of the decision.

*Rule 20—Extensions of time*

Continuances, extensions of time (except for the filing of the petition and except as otherwise provided in these rules), and adjournments may be ordered by the Board on its own motion or may be granted by it in its discretion on motion of either party filed in writing and showing good and sufficient cause therefor.

*Rule 21—Dismissal*

A proceeding may be dismissed for cause upon motion of either party or of the Board.

*Rule 22—Service*

When at any time there are two or more counsel of record for a petitioner, service will be made upon the one whose appearance was first entered of record, unless he has otherwise requested by writing filed with the Board, in which event service will be upon such other counsel of record as may be designated by him. However, service upon any counsel of record shall be deemed service upon the party. If there is no counsel of record, service will be made upon the petitioner.

Service may be made upon the Commissioner in person, upon deputies designated by him for the purpose of accepting service, or upon counsel appearing for the respondent in the proceeding. (See Rules 12, 14, and 15.)

*Rule 23—Substitution of Parties*

In the event of the death of a petitioner or for other cause, the Board may order the substitution of the proper parties. In the event of mistake in the name or title of a proper party, the Board may order substitution of the proper name or title. (See Rule 5.)

Motions for substitution should be accompanied by a proper certificate of the court or official having custody of the record showing the interest of the party substituted. In the event of a change in the name of a corporation or other party petitioner, a motion to amend the pleadings to show such change should be filed, accompanied by a copy of the certificate, decree, or other document, effecting such change, certified by the official having custody of such document, unless the parties have agreed to the change and have so indicated in the record.

*Rule 24—Substitution or Withdrawal of Counsel—Notice of Appearance*

Counsel of record in any proceeding desiring to withdraw must give prompt notice of his withdrawal to the Board and to his client. The Board may, in its discretion, withhold permission to counsel of record to withdraw.

Where the petition is not subscribed by counsel, or counsel of record has withdrawn, counsel subsequently appearing for the petitioner shall immediately file a notice of appearance, which shall include statements of his admission to practice before the Board and of his mailing address.

Notice of a change in the mailing address of counsel or petitioner shall be filed promptly with the Board, and a separate notice shall be filed for each docket number involved.

*Rule 25—Calendars*

(*a*) *Washington and circuit calendars.*—Each proceeding when at issue will be placed either upon the Washington calendar or upon a circuit calendar, in accordance with Rule 26. (See Appendix II.)

(*b*) *Hearing calendars.*—The clerk, as directed from time to time by the chairman, will prepare hearing calendars.

(*c*) *Reserve calendar.*—A proceeding which is at issue may be placed upon the reserve calendar for good cause shown, as, for example, to await the decision of the Supreme Court in a pending case.

*Rule 26—Place of Hearing—Requests and Designation*

The petitioner at the time of filing the petition shall also file a request showing the name of the place where he would prefer the hearing on the merits to be held. A copy of this request will be served upon the Commissioner by the clerk of the Board.

If the petitioner has filed no request, or if the respondent desires that the hearing on the merits be held at some place other than the place requested by the petitioner, the respondent shall file at the time he files his answer, a request showing the name of the place preferred by him. A copy will be served upon the petitioner by the clerk of the Board.

These requests shall not be bound as a part of the petition or answer but shall be separate therefrom and shall consist of an original and four copies.

The Board will determine the place of hearing, with due regard to any request properly filed in the proceeding and in accordance with the statutory provision that the time and place of trial shall be fixed "with as little inconvenience and expense to taxpayers as is practicable," and, in all cases, will notify the parties of the place at which or in the vicinity of which the hearing on the merits will be held.

Motions for change in designation of the place of hearing, made after the notice of the time of the hearing has been mailed, will not be deemed to have been timely filed.

In case it is necessary for the Board to hear the parties on matters other than the merits, such hearing will be held in Washington unless good cause is shown for holding it elsewhere.

(See Appendix II for further information to assist in making requests as to place of hearing.)

*Rule 27—Notice of Hearing*

When a proceeding has been placed upon the hearing calendar the clerk will, not less than 15 days in advance, notify the parties of the place where and the date when it will be called.

*Rule 28—Call of Calendar and Assignment for Hearing*

The hearing calendar of proceedings to be heard at Washington will be called at 9:30 a. m. The hearing calendar of proceedings to be heard elsewhere will be called at the time indicated in the notice of hearing. Proceedings will be assigned therefrom for hearing in due course.

*Rule 29—Failure to Appear*

The unexcused absence of a party or his counsel on the day set for the hearing of any proceeding, will not be the occasion for delay. The hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

The Board may require appearance for argument or it may accept briefs in lieu of personal appearance.

*Rule 30—Submission Without Hearing or Appearance*

(*a*) *Submission of cases without hearing where facts are uncontested.*—Any case not requiring a hearing for the submission of evidence (as, for example, where sufficient facts have been admitted, stipulated, or included in the record in some other way), may be submitted at any time by notice of the parties filed with the Board. The parties need not wait for the proceeding to be calendared and need not appear in person. The Chairman will then assign the proceeding to a Division for report, which division, upon request of the parties, will fix a time for filing briefs or for oral argument.

(*b*) A contested motion, not predicated upon an issue of fact, may be submitted in the same way.

See, however, Rule 31.

*Rule 31—Evidence and the Submission of Evidence*

(*a*) *Rules applicable.*—The rules of evidence applicable in courts of equity of the District of Columbia shall govern the admission or exclusion of evidence.

(*b*) *Stipulations.*—The parties by stipulation in writing filed with the Board or presented at the hearing, may agree upon any facts involved in a proceeding. A complete duplicate of the stipulation, including all exhibits, shall be filed at the same time. Stipulations filed need not be formally offered to be considered in evidence.

(*c*) *Depositions must be offered.*—Testimony taken by deposition will not be considered until offered and received in evidence.

(*d*) *Documentary evidence.*

(1) When books, records, papers, or documents have been received in evidence, a copy thereof or of so much thereof as may be material or relevant may, in the discretion of the Division holding the hearing, be substituted therefor.

(2) After the decision of the Board in any proceeding has become final, the Board may, upon motion, permit the withdrawal by the party entitled thereto of original exhibits, or the Board may, on its own motion, make such other disposition thereof as it deems advisable.

(*e*) *Not evidence.*—Statements in the petition, ex parte affidavits and briefs do not constitute evidence.

(*f*) *Failure of proof.*—Failure to adduce evidence in support of the material facts alleged in the petition and denied by the Commissioner in his answer will be ground for dismissal. Where there is a joinder of issue on questions of fact, the provisions of Rule 30 do not relieve the party upon whom rests the burden of proof from properly producing evidence to support the issues.

*Rule 35—Briefs*

The parties should be prepared to make oral arguments at the conclusion of the hearing or to file written citations of authorities at that time if the case is one in which the presiding Member might reasonably call for such. The filing of briefs and the making of oral arguments shall be in accordance with the directions of the Member presiding at the hearing. If the Member does not direct otherwise, each party shall have 30 days after the day on which the hearing was concluded within which to file a brief on all of the issues as to which he has the burden of proof; the opposite party shall have 60 days after the day on which the hearing was concluded within which to file a brief on all such issues; and the first party shall have 75 days after the day on which the hearing was concluded within which to file a brief for the purpose of replying to that of his opponent. Should either party desire to file a brief after the expiration of the prescribed period, that party shall prepare and attach the original and requisite number of copies of his proposed brief to a motion asking leave of the Board to file the brief and setting forth reasons for the request. The granting of any such motion will effect a corresponding extension of the time for filing any subsequent brief provided for in this rule. After a brief has been filed, the clerk will serve a copy upon the opposite party.

If briefs are typewritten, an original and four copies shall be filed; if printed, 20 copies. Each brief shall contain on its front flyleaf a table of contents with page references, supplemented by a list of all citations, alphabetically arranged as to cases cited, together with references to pages. Citations shall be in italics, when printed, and underscored, when typewritten.

The form of all briefs shall be as follows:

(*a*) A statement of the nature of the tax and how the proceeding comes before the Board.

(*b*) The party having the burden of proof shall set forth complete statements of the facts based upon the evidence. Each statement shall be numbered, shall be complete in itself, and shall consist of a concise statement of the essential fact and not a discussion or argument relating to the evidence or the law. Reference to the pages of the transcript or the exhibits relied upon in support thereof shall be inserted after each separate statement.

If the other party disagrees with any or all of the statements of fact, he shall set forth each correction which he believes the evidence requires and shall give the same numbers to his statement of fact as appear in his opponent's brief. His statement of fact shall be set forth in accordance with the requirements above designated.

(*c*) A concise statement of the points upon which the party relies.

(*d*) *The argument.*—The argument shall set forth the points of law relied upon and any discussion of the evidence deemed necessary to support the statement of fact.

*Rule 40—Transcripts of Proceedings*

Hearings before the Board or its divisions shall be stenographically reported and a transcript thereof shall be made if, in the opinion of the Board or of the Division holding the hearing, a permanent record of the hearing is deemed necessary. Transcripts shall be supplied to the parties and to the public by the official reporter at such rates as may be fixed by contract between the Board and the reporter.

*Rule 44—Subpenas*

(*a*) *How issued.*—The party desiring a subpena must make a timely application therefor, in writing.

(*b*) *Application for.*—The application shall state the name and address of each witness required, the time and place at which and the officer before whom he is to appear, and whether he may designate some one to appear in his place. An original and two conformed copies shall be filed. (See Appendix I, Form No. 3.)

(*c*) *For production of documents.*—If evidence other than oral testimony is required, such as documents or written data, the application shall set forth the specific matter to be produced and sufficient facts to indicate that such matter is reasonably necessary to establish the cause of action or defense of the applicant.

(*d*) *Service and proof.*—The Board will not serve subpenas, but will leave service to be procured by the party making the application. Service may be made by any citizen of the United States over the age of 21 years and competent to be a witness, and not a party to or in any way interested in the proceeding. Proof of service may be made by affidavit.

*Rule 45—Depositions*

(*a*) *Application to take.*—When either party desires to take a deposition, he shall file with the Board a verified application and two conformed copies, together with an additional copy for each additional docket number involved. The Board upon request will furnish forms for this purpose. If the space in the form furnished by the Board is inadequate for setting forth the reasons in support of the application in any particular case, a substitute form may be used, but the substitute must contain all of the information called for on the Board's form. (See Appendix I, Form No. 5.)

(*b*) *Limitation on time for application to take.*—Applications to take depositions must be filed at least 30 days prior to the date set for the hearing of the proceeding, and such depositions must be completed and filed with the Board at least 10 days prior to the hearing: *Provided*, Such applications will not be regarded as sufficient ground for the granting of a continuance from the date or place of the hearing theretofore set, unless the proceeding shall have been at issue less than 60 days and the motion for continuance shall have been filed not less than 20 days prior to said date of hearing: *Provided further*, That under special circumstances, and for good cause shown, the Board may otherwise order.

(*c*) *Qualification of officer.*—The officer before whom depositions are taken must be one authorized to administer oaths under the Revenue Act of 1924. See section 908 of the Revenue Act of 1924, as amended by section 1000 of the Revenue Act of 1926; section 1002 (d), Revenue Act of 1924; and section 1102 (d), Revenue Act of 1926. In no case shall a deposition be taken before any person who has any office connection or business employment with either party or his counsel except by consent of the parties and when no other officer is available, and in his certificate of return to such deposition such officer shall so certify.

(*d*) *Order for taking.*—Upon receipt of such application, the clerk will serve a copy thereof on the opposite party, and allow a reasonable time for objection thereto. Thereafter, the Board will, in its discretion, make an order, a copy of which will be mailed or delivered to the parties or their counsel, wherein the Board will name the witness whose deposition is to be taken and specify the time when, the place where, and the officer before whom the witness is to testify, but such time, place, and officer specified in the Board's order may or may not be the same as set forth in the application. The applicant shall thereupon make all necessary arrangements for the taking of each deposition and shall furnish the officer before whom it is to be taken with a copy of the order above mentioned.

(*e*) *By stipulation.*—At any time after issue is joined, the parties or their counsel may, by stipulation duly signed and filed, take depositions. In such cases, the stipulation shall state the name and address of each witness, the time when and the place where such depositions will be taken, and the name, address, and official title of the officer before whom it is proposed to take the depositions. In such cases, no order to take depositions will be issued, but they shall be taken and returned by the officer in accordance with the rules of the Board.

(*f*) *Manner of taking.*—Each witness must first take the oath or affirm. The questions propounded to him and his answers must be recorded verbatim.

Objections to questions or answers shall be explicitly but briefly and concisely stated, but no comment, explanation, or argument of any kind shall be recorded; neither shall there be recorded any comment, explanation, or argument by examining counsel. Any matter reported in violation of this rule may be sufficient cause for the suppression of the deposition.

(*g*) *Other witnesses to be excluded.*—At the request of either party, a person whom either expects or intends to call as a witness in the same or any related proceeding shall be excluded from the room where the testimony of a witness is being taken. If such person remains in the room or within hearing of the examination after such request has been made, he shall not thereafter be permitted to testify except by the consent of the party who requested his exclusion.

(*h*) *Depositions to be signed.*—The testimony of the witness when transcribed shall be read to or by him and shall be signed by him. (See Appendix I, Form No. 6.)

(*i*) *Form in which depositions must be returned to the Board.*—When a deposition is returned to the Board it must show the docket number and the caption (the names of the parties) of the proceeding as appears in the Board's records, the place and date of taking, the name of the witness, the party by whom called, the names of counsel present, indicating which party each counsel represents, and (in the body of the deposition) the name of counsel examining or cross-examining the witness.

The officer must so fasten the sheets of the deposition that they cannot be tampered with. He must spare no pains to return to the Board the exact testimony he has taken. All exhibits must be carefully marked so as to be capable of identification, and when practicable must be attached to the deposition.

The officer must properly execute and attach to the deposition a certificate of return in the form prescribed. (See Appendix I, Form No. 6.)

(*j*) *Return of.*—The officer must enclose the original depositions and exhibits, together with two copies of the depositions, in a sealed packet, with postage or other transportation charges prepaid, and direct and forward the same to the United States Board of Tax Appeals, Washington, D. C. In each case, the original of the depositions must be directed and forwarded to the Board. The officer may, however, upon written request, deliver a copy of the depositions to either or to both of the parties, or to their representatives, in lieu of sending such copies to the Board as above provided. If one or both of the required copies are delivered by the officer taking the depositions, he shall attach to his return the written request of the party or parties, or of their counsel to whom such copy or copies were delivered, and shall state in his certificate of return the fact of delivery by him of such copy or copies. If copies of the depositions are delivered by the officer taking the same, no service of copies of such depositions upon the party or his counsel of record will be made by the Board.

(*k*) The deposition of any witness shall not constitute a part of the record until received in evidence. (See Rule 31.)

*Rule 46—Depositions Upon Written Interrogatories*

Depositions may be taken in the discretion of the Board upon written interrogatories in substantially the same manner as provided in Rule 45 for depositions upon oral examination. An original and five copies of the interrogatories must be filed with the application. The clerk will serve one copy of the application and of the interrogatories upon the opposite party. If the opposite party desires to file objections or cross-interrogatories, he must do so within 10 days after the application and interrogatories have been served upon him. Cross-interrogatories must consist of an original and five copies. The clerk will serve one copy thereof upon the opposite party who, if he has any objection thereto, must file his objections within 10 days thereafter. No objections to the interrogatories or cross-interrogatories will be considered at the hearing unless timely filed in accordance with this rule.

No person other than the witness, a stenographic reporter, and the officer taking the deposition upon written interrogatories and cross-interrogatories shall be present at the examination of the witness. This fact shall be certified by the officer taking the deposition. That officer shall propound the interrogatories and cross-interrogatories to the witness in their order and cause the testimony to be reduced to writing in the witness' own words.

Depositions obtained in foreign countries must be taken upon written interrogatories, except as otherwise directed by the Board for cause shown.

*Rule 50—Computations by Parties for Entry of Decision*

Where the Board has promulgated or entered its opinion determining the issues in a proceeding, it may withhold entry of its decision for the purpose of permitting the parties to submit computations pursuant to the Board's determination of the issues, showing the correct amount of the deficiency or overpayment to be entered as the decision. If the parties are in agreement as to the amount of the deficiency or overpayment to be entered as the decision pursuant to the report of the Board, they or either of them shall file promptly with the Board an original and two copies of a computation showing the amount of the deficiency or overpayment and that there is no disagreement that the figures shown are in accordance with the decision of the Board. The Board will then enter its decision. If, however, the parties are not in agreement as to the amount of the deficiency or overpayment to be entered as the decision, in accordance with the report of the Board, either of them may file with the Board a computation of the deficiency or overpayment believed by him to be in accordance with the report of the Board. The clerk will serve a copy thereof upon the opposite party, will place the matter upon the calendar for argument in due course, and will serve notice of the argument upon both parties. If the opposite party fails to file objection, accompanied by an alternative computation, at least five days prior to the date of such argument, or any continuance thereof, the Board may enter decision in accordance with the computation already submitted. If in accordance with this rule computations are submitted by the parties which differ as to the amount to be entered as the decision of the Board, the parties will be afforded an opportunity to be heard in argument thereon on the date fixed, and the Board will determine the correct deficiency or overpayment and enter its decision.

Any argument under this rule wil be confined strictly to the consideration of the correct computation of the deficiency or overpayment resulting from the report already made, and no argument will be heard upon or consideration given to the issues or matters already disposed of by such report or of any new issues. This rule is not to be regarded as affording an opportunity for rehearing or reconsideration.

*Rule 51—Costs—Preparation of Record on Review*

Immediately after the contents of a record on review have been settled or agreed to, the clerk will notify the petitioner of the costs and charges for the preparation, comparison, and certification of said records; such charges to be determined in accordance with the provisions of an act of Congress entitled "An Act to provide fees to be charged by clerks of the district courts of the United States," approved February 11, 1925, 43 Stat. 857–8; U. S. C. A., Title 28, secs. 548–54.

No transcript will be certified and transmitted to the appellate court until the costs and charges therefor have been paid.

A petitioner for review who requests the clerk to certify but not to prepare documents for transmission to a United States Circuit Court of Appeals or to the United States Court of Appeals for the District of Columbia shall furnish the clerk with the copies of the documents to be certified.

*Rule 52—Costs—Printing of Record on Review*

In each proceeding for review of a decision of the Board by the United States Circuit Court of Appeals for the Second Circuit when review is sought by the Commissioner of Internal Revenue, the clerk of the Board shall, immediately after the contents of the record on review, as required by Rule 35 of the Court, have been settled or agreed upon, make available to the Commissioner, or his counsel, the record of the Board in the proceeding. The Commissioner shall cause the record to be printed. Twenty-five copies of the printed record shall be delivered to the clerk of this Board for certification and for filing with the clerk of the Circuit Court of Appeals. The clerk of the Board will serve three copies of the printed record upon counsel for the taxpayer.

*Rule 53—Copies of Board Records—Fees for Furnishing*

A plain or a certified copy of any document, record, entry, or other paper may be had upon application to the Board, the fee to be charged and collected therefor to be determined in accordance with the provisions of the act of Congress entitled "An Act to provide fees to be charged by clerks of the district courts of the United States," approved February 11, 1925, 43 Stat. 857–8; U. S. C. A., Title 28, secs. 548–54.

*Rule 60—Fees and Mileage*

Title X of the Revenue Act of 1926 provides in part:

SEC. 909. (a) Any witness summoned or whose deposition is taken under section 908 shall receive the same fees and mileage as witnesses in courts of the United States. Such fees and mileage and the expenses of taking any such deposition shall be paid as follows:

(1) In the case of witnesses for the Commissioner, such payments shall be made by the Secretary out of any moneys appropriated for the collection of internal-revenue taxes, and may be made in advance.

(2) In the case of any other witnesses, such payments shall be made, subject to rules prescribed by the Board, by the party at whose instance the witness appears or the deposition is taken.

No witness, other than one for the Commissioner, shall be required to testify in any proceeding before the Board until he shall have been tendered the fees and mileage to which he is entitled in accordance with the above provision of law.

*Rule 61—Computation of Time—Sundays and Holidays*

Whenever these rules prescribe a time for the performance of any act, Sundays and legal holidays in the District of Columbia shall count just as any other days, except that when the time prescribed for the performance of an act expires on a Sunday or a legal holiday in the District of Columbia, such time shall extend to and include the next succeeding day that is not a Sunday or such a legal holiday: *Provided*, That when the time for performing any act is prescribed by statute nothing in these rules shall be deemed to be a limitation or extension of the statutory time period.

The following-named days are legal holidays within the District of Columbia:

New Year's Day, January 1 (U. S. C. A., Title 5, sec. 87).

Washington's Birthday, February 22 (U. S. C. A., Title 5, sec. 87).

Inauguration Day, every fourth year (48 Stat. 879; D. C. Code, Title 22, sec. 126).

Decoration Day, May 30 (U. S. C. A., Title 5, sec. 87).

Fourth of July (U. S. C. A., Title 5, sec. 87).

Labor Day, first Monday in September (U. S. C. A., Title 5, sec. 87).

Thanksgiving Day, day proclaimed by the President (sec. 993, R. S., relating to D. C.; D. C. Code, Title 22, sec. 126).

Christmas Day, December 25 (U. S. C. A., Title 5, sec. 87).

When legal holidays fall on Sunday the next day shall be a holiday (22 Stat. 1; D. C. Code, Title 22, sec. 126).

*Rule 62—Special Assessment*

(*a*) If some of the issues raised by the petition involve section 327 or section 328 of the Revenue Act of 1918 or of 1921 [or section 210 of the Revenue Act of 1917, as the case may be], and some do not involve such sections, the hearing may, in the discretion of the Board, on motion, be limited in the first instance to trial of the issues which do not involve such sections.

(*b*) A hearing may be had in the discretion of the Board, on motion, limited to the trial of the issue whether the petitioner is entitled to have its tax determined as provided in section 328 [or section 210, as the case may be].

(*c*) If the Board decides that the petitioner is entitled to have its tax determined as provided in section 328 [or section 210, as the case may be], the respondent shall within 60 days after such decision file with the Board an original and two copies of a proposed redetermination showing the method of the computation. If, within 20 days after service by the clerk upon the petitioner of a copy of such proposed redetermination, the parties are unable to agree upon the amount of tax, either party may move, or the Board may upon its own motion order, that the proceeding be placed upon the calendar for further hearing, at which either party may submit proof of the correct amount of tax and deficiency or overpayment.

(*d*) If from the pleadings or otherwise it appears of record before the Board that the parties agree that petitioner is entitled to have its tax determined as provided in section 328 [or section 210, as the case may be], and the only issue is as to the correct amount of the tax so determined, the proceeding will be placed upon the calendar in due course for hearing, at which either party may submit proof of the correct amount of the tax and deficiency or overpayment.

*Rule 70—Effective Date*

These rules shall become effective January 1, 1938, superseding prior editions and amendments.

*II. Requests for Place of Hearing*

The Board will fix the times and places for its hearings in order to secure reasonable opportunity to taxpayers to be heard with as little inconvenience and expense to taxpayers as is practicable. Section 1000, Revenue Act of 1926, amending section 907 (e), Revenue Act of 1924. Hearings may be held at any place requested if suitable accommodations are available and a sufficient number of cases are ready for hearing there. A partial list of cities where a combination of these circumstances has justified a calendar of hearings in the past appears below. It is published here merely to assist parties in making requests under Rule 26. The grouping of certain cities in the list indicates that if one of those cities is requested, it may be necessary to hold the hearing at the other city in order to make up a sufficient calendar of hearings. Likewise, if sufficient cases are not ready for hearing in any particular city requested by taxpayers, or if suitable quarters are not available there, the Board may find it necessary to combine the hearings requested for that city and hold them along with the hearings requested for some other city in the vicinity.

## WAR DEPARTMENT.

REGULATIONS TO GOVERN USE AND NAVIGATION OF WATERS OF ATLANTIC OCEAN ADJOINING HILTON HEAD AND ST. HELENA ISLANDS, SOUTH CAROLINA, COMPRISING THE FIRING RANGE OF THE UNITED STATES MARINE CORPS AT THE LOCALITY

In pursuance of Chapter XIX of the Army Act approved July 9, 1918 (40 Stat. 892), the following regulations are hereby prescribed to govern the use and navigation of the waters of the Atlantic Ocean, adjoining Hilton Head and St. Helena Islands, South Carolina, comprising the firing range of the United States Marine Corps at the locality.

1. The firing range includes the water within two sectors, the center of each sector being at the abandoned rear range light tower on land located at Lat. 32°9'59" north and Long. 80°44'23" west. The first sector extends over a width of 103° and is bounded by two limiting lines bearing N. 54° E., and S. 23° E. from said old light tower, both lines having a length of 23,000 yards. The southwesterly corner of the first sector is N. 11°45' E. 2.9 miles from the Savannah light ship. The northeasterly corner of this sector is on the shore of Capers Island 1.8 miles northeast of Bull Point, and the easterly edge of the sector passes 1.5 miles east of Port Royal entrance lighted whistle buoy PR. The second sector is adjacent to and westward of the first, extending over a width of 31° and is bounded on the west by a line S. 8° W., from the said old range tower, the line having a length of 15,000 yards. The southwest corner of this sector is 2.8 miles northeasterly from the center of the improved channel in Tybee Roads.

2. Sailing vessels or any water craft having a speed of less than five miles per hour will keep clear of these sectors at all times after notices of firing have been given. Any vessel or other water craft propelled by mechanical power at a speed greater than five miles per hour may enter the firing sectors without restriction except when the signals enumerated in paragraphs 5, 6 and 7, below, are being displayed. When the above signals are displayed, all vessels in the sectors will clear immediately and no vessel will enter the sectors until the signals indicate that firing has ceased.

3. Firing over the range will take place during both daylight and night time hours, at irregular periods throughout the year.

4. The headquarters of the Savannah Bar Pilots will be advised at least two days in advance of the day when firing in the sectors is scheduled to begin, in order that the directing heads of local shipping agencies may be notified. On the same day of notification, notices of the day when firing is to begin in the sectors will be posted at the headquarters of the shrimp industries at Thunderbolt, Georgia, Jenkins Island, and Beaufort, South Carolina, and published in local newspapers.

5. On days when there is firing in the sectors, a red flag will be displayed from a tower near the shore on the former lighthouse reservation on Hilton Head Island. The flag will be displayed not later than 7:00 A. M., and will be removed when firing ceases for the day.

6. During night firing, a searchlight will be in operation on Hilton Head Island near the apex of the firing sector and the beam of this light will be a warning that firing is in progress.

7. During either day or night firing, the firing sector will be patrolled by boats and by low flying aircraft, and all craft in or near the danger area warned and given the necessary instructions and orders to insure safety. During the day, the patrol boats will display a square red flag. At night the patrol boats will fire red rockets at half-hourly intervals while firing is in progress and a green rocket when firing ceases. During day or night firing, the low flying aircraft will discharge red flares at frequent intervals while firing is in progress and green flares when firing has ceased.

8. These regulations shall be enforced by the Commanding General, Marine Barracks, Parris Island, South Carolina, or such responsible agent as he may designate.

Approved December 16, 1937.

SR—B-101, Amendment 17

1937 AGRICULTURAL CONSERVATION PROGRAM

SOUTHERN REGION BULLETIN 101—AMENDMENT 17

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Southern Region Bulletin 101, as amended, is hereby further amended by adding at the end of section 62 the following new subsection:

(*g*) Notwithstanding any other provision of this bulletin, all adjacent or nearby farm land to which one person holds legal title, all or part of which is field-rented to and operated by other persons, may be covered by one work sheet and one application for payment with the consent (indicated by signatures on the application for payment) of all persons who have an interest in the crops (or the proceeds thereof) grown in 1937 on such land.

The provisions of this Amendment 17 and of Amendment 16 shall be effective as of October 14, 1937, so as to be covered by the provisions of the "Order Increasing the Allowances, Deductions, and Rates of Payment Under the 1937 Agricultural Conservation Program in the East Central, Northeast, North Central, Southern, and Western Regions" issued by the Secretary of Agriculture on October 14, 1937.

Done at Washington, D. C., this 23rd day of December, 1937. Witness my hand and the seal of the Department of Agriculture.

## DEPARTMENT OF LABOR.

**Office of the Secretary.**

DECISION OF THE SECRETARY IN THE MATTER OF DETERMINATION OF THE PREVAILING MINIMUM WAGE IN THE MEN'S WELT SHOE INDUSTRY

This matter is before me pursuant to Section 1 (b) of the Act of June 30, 1936, 49 Stat. 2036, entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes". At my direction the Public Contracts Board created in accordance with Section 4 of the said Act by Administrative Order dated October 6, 1936, held a public hearing on April 29, 1937 on the prevailing minimum wages in the men's welt shoe industry.

Invitations to attend this hearing were sent to the trade associations and labor unions and to the manufacturers listed in the directories of the industry and were extended, through the national press, to all employers and employees interested. Testimony was presented by the Women's Bureau and the Bureau of Labor Statistics of the Department of Labor, by the National Boot and Shoe Manufacturers Association, by the Southern States Industrial Council, by the Mississippi Valley Association, by the Brotherhood of Shoe and Allied Craftsmen, by the United Shoe Workers of America, and by other representatives of employers and employees and the public. This testimony was duly considered by the members of the Board and their successors subsequently appointed and upon the facts in the record, the Board submitted its findings of fact and recommendations on the prevailing minimum wage in this industry.

After an examination of the record of the hearing and of the findings and recommendations of the Board, I am of the opinion that such findings and recommendations of the Board are correct and adopt them as my own.

Therefore, I hereby determine—

That the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of Public Act No. 846, 74th Congress, approved June 30, 1936, 49 Stat. 2036, for the manufacture or supply of men's welt shoes shall be 40 cents per hour or $16.00 per week for a week of 40 hours, to be arrived at either upon a time or piece work basis.

This determination shall be effective and the minimum wage hereby established shall apply to all such contracts awarded on or after 15 days from the date hereof.

Dated this 21st day of December, 1937.

[General Order No. 20]

REGULATIONS AND INSPECTIONS GOVERNING REPAIRS ON OPERATING-DIFFERENTIAL SUBSIDY AGREEMENT VESSELS

1. For the purpose of insuring compliance with Title VI of the Merchant Marine Act, 1936, this Order is issued for the guidance of all concerned with the requirements of the Sections of the Act involving all Operators receiving the benefits of operating-differential subsidies.

2. A representative of the Technical Division, United States Maritime Commission, when available, shall be present at all vessel dry-dockings, damage and special surveys, Bureau of Marine Inspection and Navigation inspections, and the opening and closing of main machinery and at all major repairs, and the Operator is to permit access to all parts of the vessel, its log books and official records at reasonable hours. The presence of such representatives, however, shall not relieve the Operator from strict performance of any of the obligations assumed under the Operating-Differential Subsidy Agreement.

3. *Repair inspection* and responsibility as to the quality of materials, workmanship and satisfactory completion of all repairs is the entire responsibility of the Operator. The Operator shall secure completion certificates signed by the Master or Chief Officer, Chief Engineer and the Port Superintendent Engineer, certifying that each and every item of work in the specification has been satisfactorily completed within the time specified (or otherwise). Cancelled items are to be noted on this certificate. This completion report will also be certified by representatives of the United States Maritime Commission, if available, at time of completion of repairs. Wherever possible, surveyors of the Technical Division will inspect repairs and will certify on the completion certificate that the work was necessary, has been satisfactorily completed, and the cost thereof is fair and reasonable. In cases where it is impracticable for the surveyors to certify completion certificates when repairs are completed, it is planned that our auditor will discuss with one of the surveyors such features of the repair invoice as he may consider necessary.

4. *Repair specifications* are to be prepared by the Operator in sufficient detail to permit intelligent bidding, and are to include all items as may be necessary for maintaining the vessels in a seaworthy condition and a thoroughly efficient state of repair. Specifications shall contain the low bidder's price on required items, and be segregated under the following captions. If repairs are effected on other than competitive basis the same segregation is required:

Maintenance: Segregated as to Hull, Engine, Steward.
Other Vessel Expense: Segregated as to Hull, Engine, Steward.
Marine Losses: Segregated as to Hull, Engine, Steward.

Wherever practicable, the item numbers used in the condition surveys taken at the beginning of the temporary operating-differential subsidy agreement period shall be indicated in the repair specifications or requisitions, to facilitate identification of items, particularly those considered to be deferred repairs.

5. *Classification of repairs.*—For purposes of classification in repair specifications, summaries, etc., only, the following descriptions will apply:

(*a*) *Maintenance* shall include only those repairs directly attributed to the replacement, by duplication or restoration to satisfactory condition, of damaged or worn parts of the vessels and equipment, or relocation of equipment, piping, etc., which are not properly chargeable to other accounts. Transfer should not be permitted from one vessel to another of useable spare parts and/or equipment without issuing a property removal notice, which should clearly outline the entire transaction and name the vessel to which credit is given and the vessel to be charged with the transferred materials. Proper accounting shall be made for the parts transferred in the books of the Operator.

(*b*) *Other vessel expense pertaining to upkeep.*—(Commonly termed O. V. E. items.) This shall include the cost of all work properly belonging to the vessel's crew that for any reason is performed either in part or in its entirety by outside labor; such as, internal and external boiler cleaning; bilge cleaning, painting of vessels and preparatory work thereto (other than bottoms); testing of boilers, condensers, coolers, etc.; opening of main and auxiliary machinery for examination; making minor adjustments to machinery, renewing gaskets, pump packing, making joints tight, grinding in valves, and minor rebricking of boiler furnaces; obtaining seaworthy certificates; testing and preparing tackle for foreign requirements; inspection and repairs to special fire fighting and detection apparatus, such as Lux Rich and Foamite systems, etc.

(*c*) *Marine losses* shall include all repairs, material, survey charges (Insurance Underwriters and Classification Societies) as are properly chargeable to the casualty.

6. *Repair bids.*—The Operator is obligated to use due diligence to minimize expense, and it is contemplated that wherever practicable major repairs and replacements will be made only after competitive bidding on written specifications. In determining whether or not competitive bidding is practically possible or advantageous, the Operator must necessarily give consideration to all the surrounding circumstances. To assist the Commission in formulating regulations to be promulgated hereafter, a prompt report, including a statement of all relevant circumstances, should be made to this office in each case where the Operator did not obtain competitive bids and a surveyor or other representative of the Commission is of opinion that the Operator should have done so.

7. *Repairs performed by operator or subsidiary.*—If an Operator or one or more of its wholly owned subsidiaries is specifically authorized by the Commission, pursuant to Section 803 of the Merchant Marine Act, 1936, to make repairs to subsidized vessels with its own equipment and with employees carried upon its own pay rolls and supervised by employees likewise in its direct employ, specifications or job order forms, completion certificates and other repair documents should be prepared in form similar to those used for contract repairs.

8. *Drydocking.*—The nearest District Office of the United States Maritime Commission must be notified when and where it is contemplated drydocking a vessel, sufficiently in advance of such drydocking to permit of a representative of the Technical Division being present at the docking.

9. *Damage surveys.*—The Operator must promptly notify the nearest District Representative of the Maritime Commission of all damage surveys.

10. *Condition surveys* will be held on vessels to determine if the vessels are being properly maintained and operated. These survey reports will be made by a representative of the Technical Division and forwarded to the Washington office semi-annually. These surveys will be reported on T. D. Form R–100–B.

11. *Forms to be submitted by operators (in accordance with paragraphs 9 and 27 of operating-differential subsidy agreement).*—The following forms, for use in connection with the work of the Technical Division, must be prepared and submitted to the nearest District Office by the Operator for transmittal to the Washington Office of the Maritime Commission. The Forms listed are pro forma only and the Operator is required to submit the information sought on the forms in line with the attachments:

(*a*) *Form No. 2.*—Certificate for completion of all requisitioned work or material, including cancellation, if any, shall be attached to Form No. 11 (Summary Report).

(*b*) *Form No. 3.*—Drydock Report—on all vessels whenever drydocked.

(*c*) *Form No. 11.*—Summary Report on Voyage Repairs. This form is to be submitted in duplicate upon completion of all repairs charged to the terminating voyage, and within a period of *not in excess of ten (10) days* after each vessel has sailed from her last American port of call on the next outward voyage. These "summaries" must be carefully prepared to cover the following information: Voyage numbers, dates of beginning and ending of voyages, dates of starting and completing repairs; contractors' names; contract numbers and a breakdown of such contract into its component parts. The "summaries" must include all expenditures made on requisitions for repairs, materials, and/or other services, which are properly chargeable to the various repair accounts. After examination by the Technical Division to determine the propriety of charges to be considered for participation in subsidy payments, one copy of these "summaries" will be returned to the Operator, where it is to be held available for examination when audit is made.

12. *Other reports to be submitted by operators* to the nearest District Office for transmittal to the Washington Office of the United States Maritime Commission:

(*a*) Signed copies of all reports of accidents to hull, machinery and/or equipment.

(*b*) Signed copies of all survey reports and/or requirements of the U. S. Salvage Association or other underwriters.

By order of the United States Maritime Commission.

APPLICATION OF DUTIES PROCLAIMED IN CERTAIN TRADE AGREEMENTS TO PRODUCTS OF ITALY

THE WHITE HOUSE,
*Washington, December 18, 1937.*

THE HONORABLE HENRY MORGENTHAU, JR.,
*Secretary of the Treasury.*

MY DEAR MR. SECRETARY: With reference to my letter addressed to you on July 3, 1937, concerning the application of duties proclaimed in connection with the trade agreement signed on November 28, 1936, with Costa Rica and all other duties theretofore proclaimed in connection with trade agreements concluded under the authority of the Act to Amend the Tariff Act of 1930, approved June 12, 1934 (48 Stat. 943), as extended by the Joint Resolution approved March 1, 1937 (Public Resolution No. 10, 75th Congress), I hereby direct that the aforesaid duties (with the exception of the duties proclaimed in connection with the trade agreement signed on August 24, 1934, with Cuba) shall continue to be applied to the products of Italy so long as such duties remain in effect, and this direction is not modified.

The above mentioned letter of July 3, 1937, is modified accordingly, and you will please cause notice of this modification to be published in an early issue of the weekly *Treasury Decisions.*

Very sincerely yours,

CONVERSION OF BRAZILIAN MILREIS FOR THE PURPOSE OF THE ASSESSMENT OF DUTIES ON MERCHANDISE INTO THE UNITED STATES

DECEMBER 20, 1937.

*To Collectors of Customs and Others Concerned:*

Reference is made to the instructions published in T. D. 48467 of August 8, 1936, T. D. 48553 of October 5, 1936, and T. D. 49277 of December 6, 1937, concerning the collection of duties in cases involving the conversion of Brazilian milreis.

T. D. 49277 is hereby revoked, and collectors of customs are hereby directed not to apply the instructions set forth in T. D. 48467, as modified by T. D. 48553, with respect to merchandise exported to the United States on or after November 18, 1937.

The rates stated below should be used when it is necessary to convert the Brazilian milreis into currency of the United States for the purpose of assessing and collecting duties on merchandise exported to the United States on the dates indicated. It will be noted that the value of the Brazilian milreis proclaimed by the Secretary of the Treasury for the quarter beginning October 1, 1937 (T. D. 49175), varies by more than 5 per centum from each of the values measured by the rates published below. Rates for the milreis for dates subsequent to those stated below will be regularly published in the weekly Treasury Decisions.

### National Bituminous Coal Commission.

At a Regular Session of the National Bituminous Coal Commission held at its offices in Washington, D. C., on the 21st day of December, 1937.

[Docket No. 55–FD]

ORDER IN THE MATTER OF AN INVESTIGATION AND HEARING TO DETERMINE THE NATURE AND EXTENT OF INTRASTATE COMMERCE IN BITUMINOUS COAL IN THE STATE OF PENNSYLVANIA AND THE EFFECT OF SUCH COMMERCE ON INTERSTATE COMMERCE IN SUCH COAL.

It appearing that by Orders No. 2 and No. 37, the Commission, upon its own motion entered into and conducted an investigation under the provisions of Section 4-A of the Bituminous Coal Act of 1937, for the purpose of determining the nature and extent of transactions in intrastate commerce in bituminous coal in the State of Pennsylvania and the effect of such transactions upon interstate commerce in such coal; and

It further appearing that reasonable public notice of a hearing was provided and that at said hearing interested parties were afforded an opportunity to be heard; that the presiding Examiner duly designated by the Commission having filed his report and recommendations and the Commission having given due consideration to said report and recommendations and to the record of the evidence in this proceeding; and, the Commissioner having on the 21st day of December, 1937, adopted the Examiner's report and recommendations as its own which said report is hereby referred to and made a part hereof;

Now, therefore it is by order declared:

That substantially all transactions in bituminous coal in intrastate commerce in the State of Pennsylvania directly affect interstate commerce in such coal; and

That there will be an undue or unreasonable advantage, preference or prejudice as between localities in Pennsylvania in such intrastate commerce on the one hand and interstate commerce in bituminous coal on the other hand, and an undue, unreasonable, or unjust discrimination against interstate commerce in such coal if such transactions in intrastate commerce or any substantial part thereof are not regulated and subjected to the provisions of Section 4 of the Bituminous Coal Act of 1937.

*Therefore, it is further ordered:*

1. That on and after the 7th day of January, 1938, all bituminous coal sold, delivered or offered for sale in transactions in intrastate commerce in such coal in all localities within the State of Pennsylvania shall be subject to the provisions of Section 4 of the Bituminous Coal Act of 1937, to the Bituminous Coal Code, as promulgated by the Commission and made effective on the 21st day of June, 1937, and to all relevant orders of the Commission in effect on the date of this order, as well as all further orders which may thereafter be issued by the Commission under Section 4 of said Act, so as to apply to such intrastate commerce in coal within the State of Pennsylvania.

2. That any producer of bituminous coal in intrastate commerce within the State of Pennsylvania, who may believe that his or its particular transactions in intrastate commerce in bituminous coal should be exempted from this order and/or from the provisions of Sections 4 and 4–A of said Bituminous Coal Act of 1937, may file application at any time hereafter for exemption pursuant to the second paragraph of Section 4–A of said Act, and be entitled to a hearing and appropriate orders thereon.

3. That the Secretary of the Commission shall give notice to each known producer of bituminous coal within the State of Pennsylvania, who is not upon the date of this Order a member of the Bituminous Coal Code, by mailing, within five (5) days from this date, a copy of this Order, together with three (3) copies of the Form of Code Acceptance and rules prescribed by the Commission for filing acceptances, and a copy of the Bituminous Coal Code as promulgated under date of June 21, 1937.

The Secretary shall cause a copy of this Order to be published in the FEDERAL REGISTER, and shall also publish a copy thereof in a newspaper of general circulation in each county within the State of Pennsylvania known to produce bituminous coal, publication thereof to be made three (3) times within ten (10) days from the date of this Order.

By order of the Commission.

Dated this 21st day of December, 1937.

IN THE MATTER OF THE PETITION OF VIRGINIA COAL OPERATORS' ASSOCIATION, INC., ET AL.

ORDER AND NOTICE FOR HEARING

The petitioner above named, Virginia Coal Operators' Association, Inc., and others, having filed with the Commission on the 20th day of December, 1937, a petition alleging dissatisfaction with certain of the minimum prices for coals of code members produced within Districts Nos. 7 and 8, established by the Commission by Orders Nos. 95 and 131 for District No. 7, and Orders Nos. 96, 132 and 169 for District No. 8, a copy of said petition being on file and available for inspection by interested parties in each of the Statistical Bureaus of the Commission within Districts Nos. 1 to 13, inclusive, and at the office of each District Board in each of said districts.

It is ordered that a hearing on said petition be held before the Commission, or duly designated Examiners, on the 5th day of January, 1938, at the hour of 10:00 o'clock A. M., in the hearing room of the Commission, Washington, D. C., at which time all interested parties shall be afforded an opportunity to be heard.

The Secretary of the Commission is directed, forthwith, to mail a copy of this order and notice to each petitioner, to the Secretary of each District Board of Districts Nos. 1 to 13, inclusive, and to each code member in Districts Nos. 7 and 8, and shall cause a copy hereof to be filed and made available for inspection at each of the Statistical Bureaus of the Commission for Districts Nos. 1 to 13, inclusive, and shall cause a copy hereof to be published in the FEDERAL REGISTER.

[Order No. 167]

AN ORDER TEMPORARILY REVISING THE SCHEDULE OF PRICES ESTABLISHED FOR DISTRICT NO. 10, IN RESPECT TO MINIMUM PRICE GROUP "G"

Peabody Coal Company, having on the 20th day of December, 1937, filed a petition with the National Bituminous Coal Commission, pursuant to the provisions of Section 4, Part II (d) of the Act, alleging dissatisfaction with certain of the minimum prices established for coals of code members within District No. 10, and praying for immediate and temporary relief as therein set forth by preliminary or tem-

porary order pending final disposition of such petition, and it appearing to the Commission that petitioner has made reasonable showing of necessity for the granting of the temporary relief prayed for therein,

Now, therefore, the National Bituminous Coal Commission, pursuant to the provisions of subsection (d) of Part II of Section 4 of the Bituminous Coal Act of 1937, hereby orders;

1. That pending final disposition of the aforesaid petition and until further order of the Commission, the Schedule of Minimum Prices for Coals of Code Members Produced Within District No. 10 and Supplement thereto be and the same are hereby revised by changing the mines indexed under "Mine Price Group 'G' " from said price group "G" to include them among the mines indexed under "Mine Price Group 'H'", and by striking from Supplement No. 1 to Price Schedule No. 1—District No. 10, under the heading "Transportation Differentials", the symbol and figure following: "G------ 60¢ per ton."

2. That except as herein temporarily revised, the minimum price schedule and supplements thereto, established for District No. 10, shall remain in full force and effect.

3. That the Secretary of the Commission, shall, forthwith, mail copies of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Board for the district within Minimum Price Area No. 2 and to code members within District No. 10; shall cause a copy of this order to be made available for inspection by all interested parties at the office of the Secretary of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

[Order No. 168]

AN ORDER PROVIDING FOR A HEARING TO DETERMINE THE NATURE AND EXTENT OF INTRASTATE COMMERCE IN BITUMINOUS COAL IN THE STATE OF NEW MEXICO AND THE EFFECT OF SUCH COMMERCE UPON INTERSTATE COMMERCE IN SUCH COAL, TO BE HELD AT ALBUQUERQUE, NEW MEXICO, ON JANUARY 6, 1938, BEFORE AN EXAMINER, AND NOTICE THEREOF

Pursuant to act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission, upon being advised that substantially all transactions in bituminous coal in intrastate commerce within the State of New Mexico directly affect interstate commerce in such coal and will cause undue and unreasonable advantage, preference or prejudice as between such commerce in New Mexico on the one hand and interstate commerce in such coal on the other hand as such interstate commerce is provided to be regulated by the Bituminous Coal Act of 1937, and that a hearing to determine the effect of intrastate transactions in bituminous coal upon interstate transactions in bituminous coal in the State of New Mexico would be desirable, and upon investigation hereby orders:

1. That on January 6, 1938, commencing at the hour of ten (10) o'clock A. M., at the Hearing Room of the Commission in the Hotel El Fidel, Albuquerque, New Mexico, a public hearing will be held to determine the nature and extent of intrastate commerce in bituminous coal in the State of New Mexico, and the effect of such commerce upon interstate commerce in such coal and to determine what, if any, undue or unreasonable advantage, preference or prejudice, will exist between localities in New Mexico in such commerce on the one hand and interstate commerce as regulated by the Bituminous Coal Act of 1937 on the other hand and what, if any, undue, unreasonable or unjust discriminations against interstate commerce in coal have occurred or will occur under the administration of Section 4 of said Act to the end that the Commission may, after hearing, take such action as is necessary to give effect to the Bituminous Coal Code and to the provisions of Section 4-A of said Act.

2. That said hearing will be conducted by an Examiner designated by the Commission.

3. That interested parties may appear and present evidence at such hearing.

4. That any producer believing that particular transactions in intrastate commerce in bituminous coal are not subject to the provisions of the first paragraph of Section 4-A will, subsequent to the final order of the Commission in the proceeding herein noticed, be afforded full opportunity to file an application for exemption as provided in said section, upon which application a hearing will thereafter be held by the Commission upon proper notice given.

5. That failure of any producer to appear and present evidence at the hearing herein noticed to be held in Albuquerque, New Mexico, on January 6, 1938, will not prejudice the case of any producer to be heard upon such application.

6. That the Secretary of the Commission shall forthwith mail a copy of this notice to the Consumers' Counsel, to each known producer of bituminous coal in the State of New Mexico, and to the secretaries of all of the district boards, and shall cause to be published at the expense of the Commission copy of this order and notice for three (3) days in newspapers of general circulation in the counties of New Mexico in which bituminous coal is produced.

By order of the Commission.

AN ORDER TEMPORARILY REVISING THE SCHEDULE OF PRICES ESTABLISHED FOR DISTRICT NO. 8, INSOFAR AS THE SAME RELATE TO COALS USING NEW RIVER POCAHONTAS GROUP FREIGHT RATES AS BASE INTO MARKET AREAS 40, 41 AND 42

Virginia Coal Operators' Association, Incorporated, a corporation, comprised of code members within District No. 8, having on the 20th day of December, 1937, filed a petition with the National Bituminous Coal Commission, pursuant to the provisions of Section 4, Part II (d) of the Act, (Docket No. 128-FD), alleging dissatisfaction with certain of the minimum prices established for coals of code members within District No. 8, and praying for immediate and temporary relief as therein set forth by preliminary or temporary order pending final disposition of such petition, and it appearing to the Commission that petitioners have made reasonable showing of necessity for the granting of a temporary order.

Now, therefore, the National Bituminous Coal Commission pursuant to the provisions of subsection (d) of Part II of Section 4 of the Bituminous Coal Act of 1937 hereby orders:

1. That pending final disposition of the aforesaid petition, and/or until further order of the Commission, the Schedule of Minimum Prices for Coals of Code Members Produced within District No. 8, and any and all supplements thereto, established for said district, be and the same hereby are modified and revised to contain the following provision as if the same were fully set out therein:

"Code member mines in District No. 8 having freight rates in excess of the New River Pocahontas group rates may absorb the exact amount of the differential not exceeding 35¢ per ton into Market Areas 40, 41 and 42. The foregoing provision shall supersede any other provision contained herein to the contrary notwithstanding."

2. That except as herein temporarily revised, the minimum price schedules and supplements thereto, established for District No. 8, shall remain in full force and effect.

3. That the Secretary of the Commission, shall, forthwith, mail copies of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Boards for the districts within Minimum Price Area No. 1 and to code members within District No. 8; shall cause a copy of this order to be made available for inspection by all interested parties at the office of the Secretary of the Commission and at all Statistical Bureaus of the Commission, and shall cause to be published a copy of this order in the FEDERAL REGISTER.

It appearing that in order to more fully determine the facts in this matter bearing upon the final decision of the Commission in this case such further experimental authority is necessary.

And it appearing on the basis of tests heretofore made by the applicant in this matter which have been thus far reported to the Commission that these devices can be developed to a point where they may be operated so as not to interfere with the regular use of police radio facilities,

And it further appearing that while the tests heretofore made by the applicant and the evidence thus far adduced of record in this case have not demonstrated that these devices can be developed to a point where they will render a service not now adequately rendered through other communication facilities or that they can be made to operate so as not to

interfere with the protection offered by a properly organized and administered police department or that they are capable of rendering such efficient service as would justify the authorization of the use of such devices on a regular basis;

Nevertheless it appearing to the Commission that the applicant should be accorded every opportunity to demonstrate the practicability of such devices.

It is by the Commission this 14th day of December, 1937, ordered:

1. That the Commission will receive a limited number of applications from holders of licenses for police radio stations in the State of Washington for special experimental authorization to operate portable radio transmitting apparatus described as Howton Radio Alarm Model 7-A for a limited term not to extend in any case beyond June 30, 1938;

2. Any applications filed hereunder shall be accompanied with evidence in writing of the consent of other police licensees operating upon the frequency applied for, in contiguous areas, whose service might be interfered with by the granting of such applications;

3. Any licenses which may be issued under such applications shall provide for observation and inspection in connection with any operation thereunder by representatives of the Federal Communications Commission;

4. Such licenses shall further provide for submission by the licensee of reports containing data showing the results and effects of any operation thereunder;

5. Any such licenses shall be issued on a special temporary basis, only, and upon the express condition that they may be terminated by the Commission at any time, without advance notice or hearing; if in the discretion of the Commission need for such action should arise;

6. No such license shall authorize the use of an amount of power in the excess of 50 watts;

7. Licensees shall accept responsibility for the maintenance of complete log records showing all actual operations of the device and including, as far as possible, information as to the cause of operation, such as an actual criminal act or fire, defects in equipment, defects in installation, or carelessness on the part of the occupant of the premises protected;

8. A properly qualified operator, or operators, shall be kept on duty at a central point within the receiving range of the station, and a continuous watch shall be maintained by such operator, or operators, to observe the operation of the transmitter at all times;

9. The Howton Radio Alarm Company shall be permitted to install, inspect, and maintain such devices, and shall be permitted to make a charge for same, which charge, however, shall not exceed the amount of actual expense for the construction, operation, and maintenance of the station;

10. The installation of these devices shall be pursuant to written agreements between the Howton Radio Alarm Company and the licensee, which such agreements shall be submitted to the Commission, accompanying the application for approval;

*Provided, however,* That nothing contained in this order shall constitute a determination that the operation of any such devices on a regular basis will serve public interest, convenience and necessity.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION.

RULES UNDER PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

AMENDMENT TO RULE 17C-3

The Securities and Exchange Commission, acting pursuant to the authority granted by the Public Utility Holding Company Act of 1935, particularly section 17 (c) thereof, and finding that, in the cases specified in the following rule, and subject to the conditions and limitations therein prescribed, it will not adversely affect the public interest or the interest of investors or consumers for a registered holding company or subsidiary company thereof to have as on officer or director thereof, a person who has a financial connection (as defined in rule 17C-1), hereby amends rule 17C-3 so that the same shall read as follows:

RULE 17C-3. *Officers and directors approved by a federal court.*—(*a*) Subject to the limitations as to time prescribed in paragraph (b), a registered holding company or subsidiary company thereof may have as an officer or director, or both, a person who has a financial connection (as defined in rule 17C-1), if a court of the United States in connection with a reorganization proceeding (whether in equity or pursuant to section 77B of the Bankruptcy Act) has specifically directed or approved of the election or appointment of such person in the capacity of director or officer of such company or as a director or officer or voting trustee of any company (including a voting trust) of which it is a subsidiary.

(*b*) The provisions of paragraph (a) of this rule shall cease to be applicable upon whichever of the following dates is the earliest:

(1) At the expiration of any specific term for which such person shall have been appointed or designated by the court; or

(2) Five years after such appointment or designation; or

(3) On December 31, 1939.

AMENDMENT TO RULE 7A-1

Acting pursuant to the Public Utility Holding Company Act of 1935, particularly Sections 7 and 20 (a) thereof, and finding that such action is necessary and appropriate in the public interest and for the protection of investors and consumers and to carry out the provisions of said Act, the Securities and Exchange Commission hereby amends Rule 7A-1 to read as follows:

RULE 7A-1. *Form of declarations.*—(*a*) Declarations pursuant to Section 7 in respect of the issue or sale of any security of a registered holding company or subsidiary company thereof, or of the exercise by any such company of any privilege or right to alter the priorities, preferences, voting power or other rights of the holders of an outstanding security of any such company shall comply with Form U-7 and Instructions for Form U-7, dated April 9, 1936, and shall contain the information therein specified.

(*b*) Such a declaration shall become effective only at such time as the Commission shall fix by order. Every order for hearing on a declaration shall include an order to declarant to show cause why such declaration shall become effective.

AMENDMENT TO RULE 3

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Public Utility Holding Company Act of 1935, particularly Section 20 (a) thereof, and finding it necessary and appropriate to carry out the provisions of said Act, hereby amends Rule 3 under said Act to read as follows:

RULE 3. *General requirements of application and declarations.*— (*a*) For the purposes of this rule, the word "application" includes any application for an order of the Commission or any declaration filed pursuant to any requirement of the Act or any rule thereunder.

(*b*) Every application shall comply with the provisions of rule 2, and with the requirements of any rule, form, or instructions specifically applicable thereto. If, however, any information to be given is not available without unreasonable effort or delay, or is deemed by the applicant to be irrelevant to the question presented, the applicant may omit such information, briefly indicating the reasons for such omission, and submitting instead such other information, if any, as it may deem relevant. In any case involving a question of control an applicant may admit control in whole or in part and, to such extent, omit the information bearing on this question. If any applicant is in doubt as to the interpretation of any requirement of any rule or instruction, it should, in making its application, adopt the interpretation which seems to it most reasonable, and expressly explain the interpretation adopted. All applications shall be subject to the right of the Commission to require additional information, whether specified by any rule or instruction or not. The applicant may at its option include any additional information not required by the Commission. Each application should contain a brief statement of the reasons why the applicant is deemed to be entitled to the action requested with a reference to the provisions of the Act and of the Rules and Regulations under which application is made.

(*c*) Any application may incorporate by reference any information contained in any other application previously or concurrently filed, whether by the same or by a different applicant. Any one applicant may file a combined application for different orders or file separate applications, but, if separate, each such application should include an express reference to the other. Any two or more applicants may file joint applications where substantially the same questions of fact are involved. Orders may be requested in the alternative, but in such case the applicant's preference should be indicated.

(*d*) Any application may state that the applicant offers the application in evidence pursuant to this paragraph of this rule at any hearing on such application. If such offer is made, the application shall be received in evidence at the

hearing as proof in support of the allegations therein without the necessity of the applicant appearing and introducing further evidence, unless

(A) counsel for the Commission objects; or

(B) objection is made on behalf of any interested State commission, State securities commission, municipality, or any political subdivision of a State; or any person having a bona fide interest in such proceeding appears and objects.

If counsel for the Commission intends to object to the admission in evidence of the application or in advance of the hearing date is apprised of the intention of any person having a bona fide interest in the proceeding to appear in opposition to the application, he shall promptly advise the applicant thereof. If such objection or opposition is first made at such time that seasonable notice thereof cannot be given to the applicant, and the applicant does not appear, the hearing shall be continued to permit the applicant to appear and support its application at the adjourned date thereof. Unless the Commission otherwise directs, the application shall be dismissed if the applicant fails to appear and support its application after it has been notified by counsel for the Commission of such objection or opposition. Nothing in this paragraph shall be construed as preventing the receipt in evidence of any document or other evidence duly tendered at any hearing for a purpose for which it would be appropriate and competent apart from the provisions of this paragraph.

By the Commission.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT TO RULE AN21

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 3 (a) (12), 10 (b) and 23 (a) thereof, hereby amends paragraph (a) of Rule AN21 by deleting the words "five hundred and ninetieth" and inserting in lieu thereof the words "six hundred and eightieth".

Paragraph (a), as amended, reads as follows:

(*a*) Evidences of indebtedness (i) which have been issued by any foreign state that is presently governed by an interim government which is holding office temporarily and which is to continue to hold such office only until the assumption thereof by a regular government which has been elected and (ii) as to which temporary exemption from the operation of Section 12 (a) shall expire pursuant to the terms of Rule AN7 on May 15, 1936, and as to which registration shall not be effective on that date, shall be exempt from the operation of said Section 12 (a) to and including the six hundred and eightieth day following the assumption of office by such elected regular government.

The foregoing action shall be effective immediately upon publication.

RULES OF PRACTICE OF THE SECURITIES AND EXCHANGE COMMISSION

AMENDMENTS TO RULE VIII OF RULES OF PRACTICE

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Section 19 (a) thereof, the Securities Act of 1934, particularly Section 23 (a) thereof, the Public Utility Holding Company Act of 1935, particularly Section 20 (a) thereof, and finding that it is necessary to carry out the provisions of the Securities Act of 1933, as amended, and the Public Utility Holding Company Act of 1935, and that it is necessary for the execution of the functions vested in the Commission by the Securities Exchange Act of 1934, hereby amends Rule VIII of the Rules of Practice of the Commission by altering paragraphs (b) and (f) of said Rule to read as follows, and by adding thereto the following paragraph (g):

(*b*) Following any hearing before a trial examiner relating to any matter other than the question of postponement of the effective date of registration of a broker or dealer under Section 15 (b) of the Securities Exchange Act of 1934, as amended, pending final determination whether such registration shall be denied, the trial examiner shall, within 10 days after receipt of the transcript of the testimony, file with the Secretary of the Commission his report containing his findings of fact (except as otherwise provided in paragraphs (f) and (g) hereof).

(*f*) The provisions of this rule and of Rules IX, X and XI shall not be applicable to hearings pursuant to Clause 30 of Schedule A of the Securities Act of 1933, as amended, or hearings pursuant to Section 24 (b) of the Securities Exchange Act of 1934, as amended.

(*g*) The provisions of this rule, Rule IX paragraph (a) of Rule X, and paragraphs (a), (b) and (c) of Rule XI shall not be applicable to a proceeding pursuant to any provision of the Public Utility Holding Company Act of 1935 unless the Commission shall specifically order the filing of a Trial Examiner's report. Unless specific request is made in each case, it will be assumed that neither oral argument nor the privilege of submitting briefs to the Commission is requested.

[Docket No. 127-FD]

IN THE MATTER OF WILBUR COAL MINING COMPANY

TEMPORARY ORDER

The Wilbur Coal Mining Company having filed with the Commission a petition alleging dissatisfaction with the classification of the coals of its Knickerbocker No. 4 Mine as set forth in the Revised Classification Schedule 1—District No. 1, established by the Commission by its Order No. 125; and the Commission having directed that an ex parte hearing be held upon such petition on the 21st day of December, 1937; and it appearing to the Commission at such hearing that the petitioner had proceeded in conformity with Orders No. 38 and No. 43 by filing with District Board No. 1 a petition protesting the initial classification of its coals of Knickerbocker No. 4 Mine, and that the District Board had set the matter down for hearing on the 23rd day of December, 1937; and the Commission having continued the ex parte hearing held December 21, 1937 until ten o'clock A. M., December 27, 1937, at which time District Board No. 1 was directed to render a report as to the outcome of the protest of the petitioner to District Board No. 1 as to the initial classification of the coals of the aforesaid mine; and the Commission having duly designated an examiner to hold the continued hearing; and it appearing to the Commission that petitioner should be granted a temporary order, the Commission hereby orders as follows:

1. That Revised Classification Schedule 1—District No. 1 of the Schedule of Initial Classifications of coals of Code Members produced within District No. 1 be and the same hereby is temporarily revised and amended until further order of the Commission, by striking therefrom, at page No. 10 opposite the name of the Wilbur Coal Mining Company, Knickerbocker #4 Mine, the symbol "D" and inserting in lieu thereof the symbol "E".

2. That the Secretary of the Commission shall forthwith mail copies of this order to the Consumers' Counsel, the Secretaries of the Bituminous Coal Producers' Boards for the Districts within Minimum Price Area One; and to code members within District Number 1; shall cause copies of this order to be made available for inspection by all interested parties at the Secretary's office of the Commission and at all Statistical Bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

[Order No. 156]

AN ORDER DIRECTING CODE MEMBERS AND WHOLESALERS AND FARMERS' COOPERATIVE ORGANIZATIONS SUBJECT TO MARKETING RULES AND REGULATIONS OF THE COMMISSION TO FILE WITH THE STATISTICAL BUREAUS DESIGNATED BY THE COMMISSION COPIES OF CERTAIN INVOICES, CREDIT MEMORANDA AND OTHER STATISTICAL INFORMATION

Pursuant to Section 4, Part II, Subsection (a) of an act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937 and pursuant to Section III, Subsection 4, paragraph 5 and Section IV, Subsection 3, paragraph 5 of the Marketing Rules and Regulations of the Commission, the National Bituminous Coal Commission hereby orders and directs:

1. That beginning with January 1, 1938, all code members or their authorized sales agents shall file with the statistical bureau of the Commission for the district in which any of their mines are located copies of all invoices rendered for coal produced at such mines. Such copies of invoices are to be filed currently as rendered, and unless otherwise permitted, are to be carbon copies of the originals with such added applicable information shown thereon as is hereinafter set forth.

2. That invoices for coal shipped in carload or cargo lots shall show on their face the following information:

a. Invoice number and date of invoice.
b. Name of the code member producer.
c. Address of code member.
d. Name of originating mine.
e. Date of shipment.
f. Name of wholesaler or farmers' cooperative organization, if any.
g. Name of consignee.
h. Final destination of all rail, river or ex-river shipments, and in the case of coal for a wholesaler's account trans-shipped to vessel, the port of trans-shipment.
i. Name of originating carrier.
j. Name of delivering carrier.
k. Actual size shipped.
l. Actual size billed or Permit Number if substitution permitted.
m. Car number and initial or barge number and name.
n. Contract or order number on which shipment applies.
o. Total selling price per ton.
p. Total weight of lading.
q. Total amount. (Dollars and cents.)
r. Freight differential added or deducted.
s. Rate and amount of wholesale discount.
t. Transportation charges prepaid by shipper.
u. Terms of payment.
v. Description of preparation of coal if treated or mechanically cleaned.
w. Specific use for which ordered if coal for such use is specially priced on the price schedule.
x. The statistical bureau copy must show, by number, which one of the following consumer uses under which the shipment should be classified:

(1) Locomotive Fuel.
(2) Lake Vessel Fuel.
(3) Steamship Bunker Coal.
(4) Public Utilities for Electric Power Generation.
(5) General Steam Uses.
(6) Cement and Lime Burning.
(7) Retort and Water Gas.
(8) Other Gas-Making Plants.
(9) By-Product Coke Plants and Metallurgical Uses.
(10) Domestic Coal and Retail Coal Yards.
(11) Industrial General (Not otherwise classified).
(12) Export Except to Canada and Car Ferry Shipments to Cuba.
(13) Lake Cargo—Consumer Class Not Known.
(14) Tidewater Coastwise Shipments—Consumer Class Not Known.

3. In addition to invoices, all code members and their authorized sales agents, beginning January 1, 1938, shall file with the proper statistical bureau of the Commission the following sales memoranda:

a. Credit or debit memoranda showing all adjustments, either credit or debit, made with buyers of coal; such memoranda to show, by invoice number or otherwise, the particular transaction to which the credit or debit applies.
b. Memoranda of all changes in specifications, so made out that reference to the order or contract to which such changes apply will cause no difficulty in identification.
c. A statement in the following form which will accompany copy of the last invoice rendered for coal shipped during any month.

(Address)

----------, 193--

National Bituminous Coal Commission
Statistical Bureau No. ----

Attached hereto is a copy of the last invoice rendered for coal shipped from ---------- mine during the month of ----------, 193--.

(Code Member)

4. In lieu of filing individual invoices, a code member may file a monthly report of all sales of coal in less than carload or cargo lots, to be made on standard form N. B. C. C. No. 225–S prescribed and provided by the Commission and filed within five days after the close of the calendar month.[1] A supply of these forms will be furnished upon application to the appropriate Statistical Bureau.

5. Each code member shipping by rail shall deliver to the statistical bureau for the district in which any of his mines are located an order authorizing the railroads serving such mines to furnish the statistical bureau with copies of all waybills for coal shipped from such mines.

6. All wholesalers and farmers' cooperative organizations subject to the Marketing Rules and Regulations of the Commission and to whom a code member or his authorized agent may allow a wholesalers' discount shall file currently, beginning January 1, 1938, with the statistical bureau of the Commission for the district in which coal purchased for resale originates the following information:

a. Copies of all invoices rendered showing thereon the date of acceptance and number of vendee's contract or order, the name of the code member from whom the coal was purchased, the total tonnage, the total selling price per ton, the place at which the price applies and, when possible, the name of the mine.

7. All records filed by code members, wholesalers and farmers' cooperative organizations in conformity with this order shall be held by the Commission and its statistical bureaus as the confidential records of the person filing such information as provided in the provisions of the Act.

8. Failure of any code member to comply with the requirements of this order shall be deemed a violation of the Bituminous Coal Code and the Act, and shall subject the delinquent producer to the penalties therein provided; failure of any wholesaler or farmers' cooperative organization to comply with the requirements of this order shall subject such delinquent distributor to loss of registration.

9. The provisions of this order are not intended to modify or revoke the provisions of Order No. 14 concerning the filing of contracts and spot orders as required therein, but such order remains in full force and effect.

10. The Secretary of the Commission shall forthwith mail a copy of this order to the Secretary of each district board, to each code member in the several districts, and to all wholesalers and farmers' cooperative organizations affected by this order.

11. Code members, wholesalers and farmers' cooperative organizations may mail copies of the required documents, postage prepaid, in envelopes marked "Confidential", to the appropriate statistical bureau of the National Bituminous Coal Commission.

For the information of code members, wholesalers and farmers' cooperative organizations, there is attached hereto a list showing the addresses of the respective statistical bureaus.

By order of the Commission.

Dated this 18th day of December, 1937.

### Agricultural Adjustment Administration.

[Docket No. A–63 O–63]

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF CITRUS FRUIT GROWN IN FLORIDA

Whereas under Public Act No. 10, 73rd Congress, as amended and as reenacted by the Agricultural Marketing Agreement Act of 1937, notice of hearing is required in connection with a proposed marketing agreement or a proposed order, and the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration, United States Department of Agriculture, provide for such notice; and

Whereas the Secretary of Agriculture has reason to believe that the execution of a marketing agreement and the issuance of an order will tend to effectuate the declared policy of said act with respect to the handling in interstate and foreign commerce, and such handling as directly burdens, obstructs, or affects interstate or foreign commerce, of citrus fruit grown in the State of Florida;

Now, therefore, pursuant to the said act and said general regulations notice is hereby given of a hearing to be held on a proposed marketing agreement and a proposed order regulating such handling of citrus fruit grown in the State of Florida in the City Auditorium, Lakeland, Florida, on January 17, 1938 at 10:00 a. m., e. s. t.

This public hearing is for the purpose of receiving evidence as to the general economic conditions which may necessitate regulation in order to effectuate the declared policy of the act and as to the specific provisions which a marketing agreement and order should contain.

The proposed marketing agreement and the proposed order each embodies, in similar terms, a plan for the regulation of such handling in interstate and foreign commerce, and such handling as directly burdens, obstructs, or affects interstate or foreign commerce, of citrus fruit grown in the State of Florida. Among other things, the proposed marketing agreement and order provide for: (a) the establishment of a Control Committee, (b) weekly regulation of quantities to be shipped, (c) grade regulation of shipments, (d) expenses of administration, and other matters relating to the handling of citrus fruit grown in the State of Florida.

Copies of the proposed marketing agreement and proposed order may be inspected in or procured from the Hearing Clerk, Office of the Solicitor, Room 0318, South Building, United States Department of Agriculture, Washington, D. C.

### National Bituminous Coal Commission.

[Order No. 166]

AN ORDER REVISING AND SUPPLEMENTING THE DESCRIPTION OF MARKET AREAS AND IN THIS RESPECT FURTHER MODIFYING ORDERS NUMBERS 89 TO 101 INCLUSIVE

The National Bituminous Coal Commission having by its Orders Nos. 89 to 101 as modified, determined and established the minimum prices of coals of code members produced in Districts Nos. 1 to 13 inclusive as set forth in "Price Schedule No. 1" for each of said Districts which respective Schedules, together with an appendate entitled "Description of the Market Areas", were incorporated in said Orders Nos. 89 to 101 inclusive by reference, and the Commission having determined that the provisions of subsections (a) and (b) of Part II of Section 4 of the Act and the purposes thereof will be carried out more effectively by revising and amending the said "Description of Market Areas", as hereinafter provided.

Now, therefore, pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders:

1. That the "Description of Market Areas" annexed to and made a part of each of said Orders Nos. 89 to 101, inclusive, shall be, and the same is, hereby supplemented as set forth in "Supplement No. 1 to Description of Market Areas", filed in the office of the Secretary of the Commission and made a part hereof by reference as though fully set forth herein, and that said Orders Nos. 89 to 101, inclusive, be and the same hereby are in this respect modified and amended.

2. That said Orders Nos. 89 to 101, inclusive, as modified by orders previous hereto and as modified herein, shall remain in full force and effect.

3. That the Secretary of the Commission shall forthwith mail copies of this Order and "Supplement No. 1 to Description of Market Areas" to the Consumers' Counsel; the Secretaries of the Bituminous Coal Producers Boards for Districts Nos. 1 to 13, inclusive; to code members within Districts Nos. 1 to 13, inclusive; shall cause copies of this order and said "Supplement No. 1, to Description of Market Areas" be made available for inspection by all interested parties at the Secretary's office of the Commission and at all statistical bureaus of the Commission; and shall cause to be published a copy of this order in the FEDERAL REGISTER.

[General Sugar Quota Regulations Series 5, No. 2]

SUGAR CONSUMPTION REQUIREMENTS FOR THE CALENDAR YEAR 1938 FOR THE TERRITORY OF HAWAII AND FOR PUERTO RICO

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1937, approved September 1, 1937 (hereinafter referred to as the "act"), I, H. A. Wallace, Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, prescribe, publish, and give public notice of these regulations, which shall have the force and effect of law and shall remain in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

I

(1) It is hereby determined, pursuant to section 203 of the said act, that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1938 is 29,285 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1938 is 73,851 short tons of sugar, raw value.

(2) There are hereby established, pursuant to section 203 of the said act, quotas for local consumption in the Territory of Hawaii and in Puerto Rico equal to the amounts hereinbefore determined.

II

For the calendar year 1938, all persons are hereby forbidden, pursuant to section 209 of the said act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area has been filled.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the District of Columbia, City of Washington, this 28th day of December 1937.

SUPPLEMENTAL TO NOTICE OF QUARANTINE NO. 52

Under authority conferred by the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended by the Act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), it is ordered that regulation 3 of the revised rules and regulations supplemental to Notice of Quarantine No. 52, on account of the pink bollworm of cotton, which were promulgated on October 13, 1936, as amended effective December 1, 1936, further amended effective April 6, 1937, and further amended effective October 28, 1937, be and the same is hereby still further amended to read as follows:

*Regulation 3. Regulated Areas: Heavily and Lightly Infested Areas*

REGULATED AREAS

In accordance with the provisos to Notice of Quarantine No. 52 (revised), the Secretary of Agriculture designates as regulated areas, for the purpose of these regulations, the following counties in Arizona, New Mexico, and Texas, including all cities, districts, towns, townships, and other political subdivisions within their limits:

*Arizona area.*—Counties of Cochise, Graham, Greenlee, and Santa Cruz, all of *Pima County* except that part lying west of the western boundary line of Range 8 east, and all of *Pinal County* except that part lying north of the northern boundary line of township 5 south, and west of State highways 87 and 187.

*New Mexico area.*—Counties of Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, Roosevelt, Sierra, Socorro, and Valencia.

*Texas area.*—Counties of Andrews, Brewster, Cameron, Cochran, Crane, Culberson, Dawson, Ector, El Paso, Gaines, Glasscock, Hidalgo, Hockley, Howard, Hudspeth, Jeff Davis, Loving, Martin, Midland, Pecos, Presidio, Reeves, Starr, Terrell, Terry, Upton, Ward, Willacy, Winkler, and Yoakum; that part of *Bailey County* lying south of the following-described boundary line: beginning on the east line of said county where the county line intersects the northern boundary line of league 207; thence west following the northern boundary line of leagues 207, 203, 191, 188, 175, and 171 to the northeast corner of league 171; thence south on the western line of league 171 to the northeast corner of the W. H. L. survey; thence west along the northern boundary of the W. H. L. survey and the northern boundary of sections 68, 67, 66, 65, 64, 63, 62, 61, and 60 of Block A of the M. B. & B. survey to the western boundary of said county; that part of *Lamb County* lying south of the following-described boundary line: beginning on the east line of said county where the county line intersects the northern boundary line of section 9 of the R. M. Thomson survey; thence west following the northern boundary line of sections 9 and 10 of the R. M. Thomson survey and the northern boundary line of sections 6, 5, 4, 3, 2, and 1 of the T. A. Thompson survey and the northern boundary line of leagues 637, 636, and 635 to the southeast corner of league 239; thence north on the eastern boundary line of league 239 to the northeast corner of said league; thence west on the northern boundary line of leagues 239, 238, 233, 222, 218, and 207 to the western boundary line of said county.

HEAVILY INFESTED AREAS

Of the regulated areas, the following counties and parts of counties are hereby designated as heavily infested within the meaning of these regulations:

Counties of Brewster, Culberson, Jeff Davis, Presidio, and Terrell, in the State of Texas, and all of *Hudspeth County* in the same State except that part of the northwest corner of said county lying north and west of a ridge of desert land extending from the banks of the Rio Grande northeasterly through the desert immediately west of the town of McNary, such ridge being an extension of the northwest boundary line of section 11, block 65½.

LIGHTLY INFESTED AREAS

The following areas are designated as lightly infested:

The counties of Cochise, Graham, Greenlee, and Santa Cruz, and the regulated parts of Pima and Pinal Counties in Arizona;[1] the counties of Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, Roosevelt, Sierra, Socorro, and Valencia in New Mexico; the entire counties of Andrews, Cameron, Cochran, Crane, Dawson, Ector, El Paso, Gaines, Glasscock, Hidalgo, Hockley, Howard, Loving, Martin, Midland, Pecos, Reeves, Starr, Terry, Upton, Ward, Willacy, Winkler, and Yoakum, the regulated parts of Bailey and Lamb Counties in Texas, and that part of the northwest corner of Hudspeth County, Texas, lying north and west of a ridge of desert land extending from the banks of the Rio Grande northeasterly through the desert immediately west of the town of McNary, such ridge being an extension of the northwest boundary line of section 11, block 65½.

This amendment shall be effective on and after January 3, 1938, and shall on that date supersede amendment No. 3 which became effective October 28, 1937.

Done at the city of Washington this 29th day of December 1937.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-3812; Filed, December 29, 1937; 12:39 p. m.]

[1] Part of the lightly infested area in Arizona is regulated on account of the Thurberia weevil under quarantine No. 61, and shipments therefrom must comply with the requirements of that quarantine.

## DEPARTMENT OF LABOR.

### Office of the Secretary.

DECISION OF THE SECRETARY IN THE MATTER OF DETERMINATION OF THE PREVAILING MINIMUM WAGE IN THE DIMENSION GRANITE INDUSTRY

This case is before me pursuant to Section 1 (b) of the Act of June 30, 1936 (Public Act No. 846, 74th Congress), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes". At my direction the Public Contracts Board, created in accordance with Section 4 of the said Act by Administrative Order, dated October 6, 1936, has been engaged in the consideration of the wages paid in the dimension granite industry, and on November 4, 1937, it held a public hearing on the prevailing minimum wages in this industry.

Invitations to attend this hearing were sent to trade associations and labor unions and to the manufacturers listed in directories of the industry and were extended, through the national press, to all other employers and employees interested. Testimony was presented by representatives of of the Granite Cutters International Association of America, as well as by individual employers and members of the public. A special study by the Bureau of Labor Statistics of the Department of Labor was also presented. On the basis of all this evidence, the Board has submitted findings of fact and recommendations on the prevailing minimum wage in this industry.

I have examined these findings and recommendations and the record of the hearing and I am of the opinion that such findings and recommendations are correct and adopt them as my own.

*Therefore, I Hereby Determine*

That the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of Public Act No. 846, 74th Congress, approved June 30, 1936, for the manufacture and supply of dimension granite, including monumental stone, building stone, paving blocks, curbing, riprap, and rubble, but not crushed stone, shall be as follows:

(1) In Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut and New York: 57.5 cents per hour or $23 per week, based on a 40 hour week, arrived at either on a time or piece work basis.

(2) In Pennsylvania, Maryland, Wisconsin, Minnesota, South Dakota and all other states not included in paragraph (1) above or paragraph (3) below: 42.5 cents per hour or $17.00 per week based on a 40 hour week arrived at either on a time or piece work basis.

(3) In North Carolina, Virginia, South Carolina, Georgia, Florida, Alabama, Tennessee, Kentucky, Mississippi, Louisiana, Arkansas and Texas: 32.5 cents per hour or $13.00 per week based on a 40 hour week arrived at either on a time or piece work basis.

This determination shall be effective and the minimum wages hereby established shall apply to all such contracts awarded on or after January 15, 1938.

Dated this 22nd day of December, 1937.

[SEAL] FRANCES PERKINS.

## BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

[Regulation F]

TRUST POWERS OF NATIONAL BANKS

On December 21, 1937, the Board of Governors of the Federal Reserve System adopted the following resolution:

*Resolved*, That effective December 31, 1937, the Board approve and adopt the following amendments to Regulation F:

*Amend Regulation F by amending subsection* (c) *of section 10 and adding a new section 17.*

SECTION 10. INVESTMENT OF TRUST FUNDS

* * * * * * *

(c) *Collective investment of trust*[1] *funds.*—Funds received or held by a national bank as fiduciary shall not be invested collectively[2] except as permitted in section 17 of this regulation.

* * * * * * *

SECTION 17. COMMON TRUST FUNDS

(*a*) *In general.*—Funds received or held by a national bank as fiduciary may be invested collectively in any Common Trust Fund established and maintained in accordance with the provisions of this section whenever the laws of the State in which the national bank is located authorize or permit such investments by State banks, trust companies, or other corporations which compete with national banks.

As used in this regulation the term "Common Trust Fund" means a fund maintained by a national bank exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank in its capacity as trustee, executor, administrator, or guardian.[3]

The purpose of this section is to permit the use of Common Trust Funds, as defined in section 169 of the Revenue Act of 1936,[4] for the investment of funds held for true fiduciary purposes; and the operation of such Common Trust Funds as investment trusts for other than strictly fiduciary purposes is hereby prohibited. No bank administering a Common Trust Fund shall issue any document evidencing a direct or indirect interest in such Common Trust Fund in any form which purports to be negotiable or assignable. The trust investment committee of a bank operating a Common Trust Fund shall not permit any funds of any trust to be invested in a Common Trust Fund if it has reason to believe that such trust was not created or is not being used for bona fide fiduciary purposes.

Common Trust Funds administered under this section shall be subject to the following requirements:

(1) Assets in a Common Trust Fund shall be considered as assets held by the bank as fiduciary;

(2) A bank administering a Common Trust Fund shall not invest any of its own funds in such Common Trust Fund and if a bank, because of a creditor relationship or any other reason, acquires any interest in a participation in a Common Trust Fund under its administration the participation shall be withdrawn on the first date on which such withdrawal can be effected in accordance with the provisions of this section;

(3) A bank administering a Common Trust Fund shall not have any interest[5] in the assets held in such Common Trust Fund, other than in its capacity as fiduciary, except to the extent permitted for a temporary period as provided in the immediately preceding paragraph.

(*b*) *Common trust funds for investment of small amounts.*—Subject to all other provisions of this regulation except subsection (c) of this section, cash balances received or held by a bank in its capacity as trustee, executor, administrator, or guardian, which the bank considers to be individually too small to be invested separately to advantage may be invested, with the approval of the trust investment committee, in participations in a Common Trust Fund, provided the total investment of the funds of any one trust in one or more such Common Trust Funds shall not exceed $1,200.

(*c*) *Common trust funds for general investment.*—Subject to all other provisions of this regulation except subsection (*b*) of this section, funds received or held by a bank in its capacity as trustee, executor, administrator, or guardian may be invested in participations in a Common Trust Fund. All participations in such a Common Trust Fund shall be on the basis of a proportionate interest in all of the assets of the Common Trust Fund.

(1) *Common Trust Fund to be operated under written plan.*—Each Common Trust Fund administered by a bank shall be established and maintained in accordance with a written plan (referred to herein as the Plan) approved by a resolution of the bank's board of directors and approved in writing by competent legal counsel. The Plan shall provide that the Common Trust Fund shall be administered in conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System pertaining to the collective investment of trust funds by national banks, and shall contain full and detailed provisions not inconsistent with the provisions of such rules and regulations as to the manner in which the Common Trust Fund is to be operated, including provisions relating to the investment powers of the bank with respect to the Common Trust Fund, the allocation of income, profits and losses, the terms and conditions governing the admission or withdrawal of participations in the Common Trust Fund, the auditing and settlement of accounts of the bank with respect to the Common Trust Fund, the basis and method of valuing assets in the Common Trust Fund, the basis upon which the Common Trust Fund may be terminated, and such other matters as may be necessary to define clearly the rights of participants in the Common Trust Fund. A copy of the Plan shall be available at the principal office of the bank for inspection, during all banking hours, to any person having an interest in a trust any funds of which are invested in a participation in the Common Trust Fund; and upon reasonable request a copy of the Plan shall be furnished to such person.

(2) *Trust investment committee to approve participation.*—No funds of a trust shall be invested in a participation in a Common Trust Fund without the approval of the trust investment committee. Before permitting any funds of any trust to be invested in a participation in a Common Trust Fund, the trust investment committee shall review the investments comprising the Common Trust Fund; and, if it finds that any such investment is one in which funds of such trust might not lawfully be invested at that time, funds of such trust shall not be invested in a participation in such Common Trust Fund.

At the time of making the first investment of funds of a trust in a participation in any Common Trust Fund, the bank shall send a notice of such investment to each person to whom an accounting ordinarily would be rendered.

(3) *Common Trust Fund to be audited annually.*—A bank administering a Common Trust Fund shall, at least once during each period of twelve months, cause an audit to be made of the Common Trust Fund by auditors responsible only to the board of directors of the bank. The report of such audit shall include a list of the investments comprising the Common Trust Fund at the time of the audit which shall show the valuation placed on each item on such list by the trust investment committee of the bank as of the date of the audit, a statement of purchases, sales and any other investment changes and of income and disbursements since the last audit, and appropriate comments as to any investments in default as to payment of principal or interest. The reasonable expenses of any such audit made by independent public accountants may be charged to the Common Trust Fund.

The bank shall, without charge, send a copy of the latest report of such audit annually to each person to whom an accounting of the trusts participating in the Common Trust Fund ordinarily would be rendered or shall send advice to each such person annually that the report is available and that a copy will be furnished without charge upon request.

(4) *Value of assets to be determined periodically.*—Not less frequently than once during each period of three months the trust investment committee of a bank administering a Common Trust Fund shall determine the value of the assets in the Common Trust Fund. No participation shall be admitted to or withdrawn from the Common Trust Fund except on the basis of such valuation and on the date of the determination of such valuation or, if permitted by the Plan, within two business days subsequent to the date of such determination. No participation shall be admitted or withdrawn unless, in accordance with provisions of the Plan, prior to the date of the determination of such valuation, notice of intention to participate or to make such withdrawal shall have been given in writing to the bank administering the Common Trust Fund, or a written notation of the contemplated participation or withdrawal shall have been made in the records of the bank.

(5) *Miscellaneous limitations.*—No funds of any trust shall be invested in a participation in a Common Trust Fund if such investment would result in such trust having an interest in the Common Trust Fund in excess of 10 per cent of the value of the assets of the Common Trust Fund, as determined by the trust investment committee, or the sum of $25,000, whichever is less at the time of investment. If the bank administers more than one Common Trust Fund, no investment shall be made which would cause the aggregate investment of funds of any one trust in all such Common Trust Funds to exceed such limitations. In applying the limitations contained in this paragraph, if two or more trusts are created by the same settlor or settlors and as much as one-half of the income or principal or both of each trust is payable or applicable to the use of the same person or persons, such trusts shall be considered as one.

No investment for a Common Trust Fund shall be made in stocks, or bonds or other obligations of any one person, firm, or corporation which would cause the total amount of investment in stocks, or bonds or other obligations issued or guaranteed by such person, firm, or corporation to exceed 10 per cent of the value of the Common Trust Fund, as determined by the trust investment committee, provided that this limitation shall not apply to investments in obligations of the United States or for the payment of the principal and interest of which the faith and credit of the United States shall be pledged.

No investment for a Common Trust Fund shall be made in any one class of shares of stock of any one corporation which would cause the total number of such shares held by the Common Trust Fund to exceed 5 per cent of the number of such shares outstanding. If the bank administers more than one Common Trust Fund no investment shall be made which would cause the aggregate investment for all such Common Trust Funds in shares of stock of any one corporation to exceed such limitation.

Any bank administering a Common Trust Fund shall have the responsibility of maintaining in cash and readily marketable securities[1] such part of the assets of the Common Trust Fund as shall be deemed by the bank to be necessary to provide adequately for the needs of participat-

[1] Unless the context otherwise indicates, the term "trust", as used in this section or in any other part of this regulation, refers to any fiduciary relationship which a national bank is authorized to enter into under the provisions of section 11 (k) of the Federal Reserve Act.

[2] This does not prevent the bank from investing the funds of several trusts in a single real estate loan of the kind which could be made by the bank under the provisions of section 24 of the Federal Reserve Act, as amended, if the bank owns no participation in the loan and has no interest therein except in its capacity as fiduciary.

[3] As used in this regulation the term "guardian" means guardian or committee of the estate of an infant, incompetent, or absentee, by whatever name known in the State in which a particular national bank is located.

[4] For applicable provisions of the Revenue Act of 1936, see Appendix.

[5] A bank shall not be deemed to have an interest in assets in which collective investments are made merely because of the fact that the bank owns in its own right other stocks, or bonds or other obligations of a person, firm, or corporation, the stocks, or bonds or other obligations of which are among the assets of a Common Trust Fund.

[1] A readily marketable security within the meaning of this section means a security which is the subject of frequent dealings in ready markets with such frequent quotations of price as to make (a) the price easily and definitely ascertainable and (b) the security itself easy to realize upon by sale at any time.

ing trusts and to prevent inequities between such trusts. In any event, prior to any admissions to or withdrawals from a Common Trust Fund, the trust investment committee shall determine what percentage of the value of the assets of a Common Trust Fund is composed of cash and readily marketable securities; and if such committee determines that, after effecting the admissions and withdrawals which are to be made pursuant to notice given as required in subdivision (4) of this subsection, less than 40 per cent of the value of the remaining assets of the Common Trust Fund would be composed of cash and readily marketable securities, no admissions to or withdrawals from the Common Trust Fund shall be permitted as of the valuation date upon which such determination is made, except that ratable distribution upon all participations is not prohibited.

(6) *Distribution upon withdrawal of participation.*—When participations are withdrawn from a Common Trust Fund, distributions may be made in cash or ratably in kind, or partly in cash and partly ratably in kind, provided that all distributions as of any one valuation date shall be made on the same basis. Before any distribution in cash is made, the trust investment committee shall determine whether any investment remaining in the Common Trust Fund would be unlawful for one or more participating trusts if funds of such trusts were being invested at that time; and no distribution shall be made in cash until any such unlawful investment shall have been eliminated from the Common Trust Fund either through sale, distribution in kind, or segregation as provided in the subdivision immediately following hereafter.

(7) *Segregation of investments.*—If for any reason an investment is withdrawn in kind from a Common Trust Fund for the benefit of all trusts participating in the Common Trust Fund at the time of such withdrawal and such investments not distributed ratably in kind it shall be segregated and administered or realized upon for the benefit ratably of all trusts participating in the Common Trust Fund at the time of withdrawal.

(8) *Management of common trust fund and fees.*—A national bank administering a Common Trust Fund shall have the exclusive management thereof and shall not charge a fee for the management of the Common Trust Fund, or receive, either from the Common Trust Fund or from any trusts the funds of which are invested in participations therein, any additional fees, commissions, or compensations of any kind by reason of such participation. The bank shall not pay a fee, commission, or compensation out of the Common Trust Fund for management. Nothing in this paragraph shall be construed as prohibiting a bank from reimbursing itself out of a Common Trust Fund for such reasonable expenses incurred by it in the administration thereof as would have been chargeable to the respective participating trusts if incurred in the separate administration of such participating trusts.

(9) *Effect of mistakes.*—No mistake made in good faith and in the exercise of due care in connection with the administration of a Common Trust Fund shall be deemed to be a violation of this regulation if promptly after the discovery of the mistake the bank takes whatever action may be practicable in the circumstances to remedy the mistake.

NOTE.—The reference in section 12 of Regulation F to "subsection (c) of section 10" shall be changed appropriately, footnotes to the proposed amendments to the regulation and subsequent footnotes in the regulation shall be numbered appropriately, and the present section 17 shall be renumbered 18.

Amend the second sentence of subsection (b) of section 6 of Regulation F to read as follows:

"The acceptance of all trusts shall be approved by the board of directors or a committee appointed by such board, and the closing out or relinquishment of all trusts shall be approved or ratified by the board of directors or a committee appointed by such board; and such committee or committees shall be composed of capable and experienced officers or directors of the bank."

Amend the first sentence of subsection (c) of section 6 of Regulation F by a footnote thereto reading as follows:

"It is contemplated that there shall be a committee the members of which shall have a continuity of responsibility for the discharge of the duties of the committee. However, alternates appointed by the board of directors may serve in place of regular members of the committee who are unable to serve on account of vacations, illness, or other good and sufficient reasons if the minutes of the committee show the reason for the service of such alternate in place of the regular member."

APPENDIX

The following shall be included in the Appendix to Regulation F under the following description:

There are printed below certain provisions of the Revenue Act of 1936 which are pertinent to some of the subject matter of this regulation.

SEC. 169. *Common trust funds.*—(a) *Definitions.*—The term "common trust fund" means a fund maintained by a bank (as defined in section 104)—

(1) exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank in its capacity as a trustee, executor, administrator, or guardian; and

(2) in conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System pertaining to the collective investment of trust funds by national banks.

(b) *Taxation of common trust funds.*—A common trust fund shall not be subject to taxation under this title, Title IA, or section 105 or 106 of the Revenue Act of 1935, and for the purposes of such titles and sections shall not be considered a corporation.

(c) *Income of participants in fund.*—Each participant in the common trust fund shall include in computing its net income its proportionate share, whether or not distributed and whether or not distributable, of the net income of the common trust fund. The net income of the common trust fund shall be computed in the same manner and on the same basis as in the case of an individual. The proportionate share of each participant in the amount of interest specified in section 25 (a) received by the common trust fund shall for the purposes of this Supplement be considered as having been received by such participant as such interest.

(d) *Admission and withdrawal.*—No gain or loss shall be realized by the common trust fund by the admission or withdrawal of a participant. The withdrawal of any participating interest by a participant shall be treated as a sale or exchange of such interest by the participant.

(e) *Returns by bank.*—Every bank (as defined in section 104) maintaining a common trust fund shall make a return under oath for each taxable year, stating specifically, with respect to such fund, the items of gross income and the deductions allowed by this title, and shall include in the return the names and addresses of the participants who would be entitled to share in the net income if distributed and the amount of the proportionate share of each participant. The return shall be sworn to as in the case of a return filed by the bank under section 52.

(f) *Different taxable years of common trust fund and participant.*—If the taxable year of the common trust fund is different from that of a participant, the proportionate share of the net income of the common trust fund to be included in computing the net income of the participant for its taxable year shall be based upon the net income of the common trust fund for any taxable year of the common trust fund (whether beginning on, before, or after January 1, 1936) ending within the taxable year of the participant.

SEC. 104. *Banks and trust companies.*—(a) *Definition.*—As used in this section the term "bank" means a bank or trust company incorporated and doing business under the laws of the United States (including laws relating to the District of Columbia), of any State, or of any Territory, a substantial part of the business of which consists of receiving deposits and making loans and discounts, or of exercising fiduciary powers similar to those permitted to national banks under section 11 (k) of the Federal Reserve Act, as amended, and which is subject by law to supervision and examination by State or Federal authority having supervision over banking institutions.

Adopted by the Board of Governors of the Federal Reserve System on December 21, 1937.

An Application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by Peoples Service Company, a subsidiary of United Public Utilities Company, a registered holding company, for an order by the Commission exempting the issuance and sale of two unsecured 6% promissory notes payable on or before January 1, 1945, one in the face amount of $66,900.12, to be issued to United Public Utilities Corporation in the payment of presently outstanding demand notes of like face amount, and the other, in the face amount of $11,569.98, to be issued and sold for not less than face amount, plus interest, from the provisions of section 6 (a) as the issue and sale of both notes has been approved by Indiana Public Service Commission;

*It is ordered,* That a hearing on such matter be held on January 14, 1938, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsyl-

vania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Charles S. Moore or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to continue or postpone said hearing from time to time or to a date thereafter to be fixed by such presiding officer.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 8, 1938.

By the Commission.

IN THE MATTER OF CHOLLAR EXTENSION MINING COMPANY COMMON STOCK, 10 CENTS PAR VALUE

ORDER TO SHOW CAUSE AND FOR HEARING, DESIGNATING OFFICER AND TIME AND PLACE FOR TAKING TESTIMONY

Whereas, Chollar Extension Mining Company, a corporation, is the issuer of Common Stock, 10 Cents Par Value; and

Whereas, said Chollar Extension Mining Company registered such securities on the San Francisco Mining Exchange, a national securities exchange, by filing on or about November 23, 1935, and on or about April 1, 1937, applications with the said Exchange and with the Commission pursuant to Section 12 (b) of the Securities Exchange Act of 1934, as amended, and pursuant to Rule JB1, as amended, promulgated by the Commission thereunder; and

Whereas Section 13 (a) and (b) of said Securities Exchange Act of 1934, as amended, requires that every issuer of a security registered on a national securities exchange shall file such annual reports as the Commission may by rule and regulation prescribe; and

Whereas said Chollar Extension Mining Company has failed to comply with Section 13 (a) and (b) of said Securities Exchange Act of 1934, as amended, and with Rules KA1 and KA2 promulgated by the Commission thereunder, in that as issuer of said Common Stock, 10 Cents Par Value, it has failed to file the information and documents required by Rule KA1, adopted by the Commission pursuant to said Section 13 (a), and has failed to file its annual report for the year ended December 31, 1936 on Form 10-K, as required by Rule KA2, adopted by the Commission pursuant to said Section 13 (b);

*It is ordered*, That pursuant to Section 19 (a) (2) of said Securities Exchange Act of 1934, as amended, a hearing be held to determine whether said Chollar Extension Mining Company has so failed to comply with said provisions of said Section 13 (a) and (b) and said Rules and Regulations promulgated by the Commission thereunder, or with either provision of said Section, or of any Rule or Regulation promulgated by the Commission under said Section, and if so, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months or to withdraw the registration of said Common Stock, 10 Cents Par Value, on said San Francisco Mining Exchange; and

*It is further ordered*, That said Chollar Extension Mining Company appear before an officer of the Commission and show cause why the registration of said Common Stock, 10 Cents Par Value, on said San Francisco Mining Exchange should not be suspended for a period not exceeding twelve months or withdrawn, as provided in Section 19 (a) (2) of the Securities Exchange Act of 1934, as amended; and

*It is further ordered*, That for the purpose of such proceeding, Howard A. Judy, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take testimony and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

*It is further ordered*, That a public hearing for the taking of testimony begin on the 18th day of January, 1938, at 10:00 A. M., at the regional office of the Securities and Exchange Commission, 625 Market Street, San Francisco, California and continue thereafter at such times and places as said officer may determine.

## PRESIDENT OF THE UNITED STATES.

MERCHANDISE IN BONDED WAREHOUSE

By the President of the United States of America

A PROCLAMATION

WHEREAS section 318 of the Tariff Act of 1930 (46 Stat. 696; U. S. C. title 19, sec. 1318) provides:

"Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act * * *";

AND WHEREAS section 557 of the said act (46 Stat. 744; U. S. C. title 19, sec. 1557) provides:

"Any merchandise subject to duty, with the exception of perishable articles and explosive substances other than firecrackers, may be entered for warehousing and be deposited in a bonded warehouse at the expense and risk of the owner, importer, or consignee. Such merchandise may be withdrawn, at any time within three years (or ten months in the case of grain) from the date of importation, for consumption upon payment of the duties and charges accruing thereon at the rate of duty imposed by law upon such merchandise at the date of withdrawal * * * *Provided*, That the total period of time for which such merchandise may remain in bonded warehouse shall not exceed three years (or ten months in the case of grain) from the date of importation * * *";

NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority vested in me by the foregoing provision of section 318 of the Tariff Act of 1930, do by this proclamation declare an emergency to exist.

And I do hereby authorize the Secretary of the Treasury, until further notice:

(1) In the case of merchandise (except grain) imported during the calendar year 1934 and entered for warehousing under section 557 of the Tariff Act of 1930, to extend the warehousing period for not more than one year from and after the expiration of the three-year period prescribed in sections 557 and 559 of the Tariff Act of 1930, as extended for one year under the authority of Proclamation No. 2214,[1] dated December 29, 1936.

(2) In the case of merchandise (except grain) imported during the calendar year 1935 and entered for warehousing under section 557 of the Tariff Act of 1930, to extend the warehousing period for not more than one year from and after the expiration of the three-year period prescribed in sections 557 and 559 of the Tariff Act of 1930.

*Provided, however*, That in each and every case the Secretary of the Treasury shall require that the principal on the warehouse-entry bond, in order to obtain the benefits under the extension granted, shall either furnish to the collector of customs for the district in which the merchandise is warehoused the agreement of the sureties on such bond to remain bound under the terms and provisions of the bond to the same extent as if no extension were granted, or furnish an additional bond with acceptable sureties to cover the period of extension: *And provided further*, That the extensions of one year herein authorized shall not apply to any merchandise imported during the year 1934 as to which the period of extension authorized by Proclamation No. 2214, dated December 29, 1936, has expired, or to any merchandise imported during the calendar year 1935 as to which the three-year period prescribed in sections 557 and 559 of the Tariff Act of 1930 has expired.

## EXTENDING THE PERIOD FOR EXPORTATION OF MERCHANDISE FOR DRAWBACK PURPOSES

By the President of the United States of America

A PROCLAMATION

WHEREAS section 318 of the Tariff Act of 1930 (46 Stat. 696; U. S. C. title 19, sec. 1318) provides:

"Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act * * *";

AND WHEREAS section 313 (h) of the said act (46 Stat. 694; U. S. C. title 19, sec. 1313 (h)) provides:

"No drawback shall be allowed under the provisions of this section or of section 6 of the Act entitled 'An Act temporarily to provide revenue for the Philippine Islands, and for other purposes,' approved March 8, 1902 (relating to drawback on shipments to the Philippine Islands), unless the completed article is exported, or shipped to the Philippine Islands, within three years after importation of the imported merchandise.

NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority vested in me by the foregoing provision of section 318 of the Tariff Act of 1930, do by this proclamation declare an emergency to exist.

And I do hereby authorize the Secretary of the Treasury:

(1) In the case of articles manufactured or produced in the United States with the use of imported or substituted merchandise for drawback purposes where the imported merchandise involved was imported during the calendar year 1934, to extend the period for exportation, or shipment to the Philippine Islands, of the completed article for not more than one year from and after the expiration of the three-year period prescribed in the said section 313 (h), as extended for one year under the authority of Proclamation No. 2215,[1] dated December 29, 1936.

(2) In the case of articles manufactured or produced in the United States with the use of imported or substituted merchandise for drawback purposes where the imported merchandise involved was imported during the calendar year 1935, to extend the period for exportation, or shipment to the Philippine Islands, of the completed article for not more than one year from and after the expiration of the three-year period prescribed in the said section 313 (h).

*Provided, however*, That the extensions of one year herein authorized shall not apply in any case involving merchandise imported in 1934 where the one-year period of extension authorized in the said proclamation of December 29, 1936, has expired, or in any case involving merchandise imported in 1935 where the one-year period prescribed in the said section 313 (h) has expired.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 29 day of December in the year of our Lord nineteen hundred and thirty-seven, and of the Independence of the United States of America the one hundred and sixty-second.

## EXTENDING THE PERIOD FOR FURNISHING PROOF OF USE IN MANUFACTURE OF BONDED WOOL AND CAMEL HAIR

By the President of the United States of America

A PROCLAMATION

WHEREAS section 318 of the Tariff Act of 1930 (46 Stat. 695; U. S. C. title 19, sec. 1318) provides:

"Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act * * *";

AND WHEREAS paragraph 1101 of the said act (46 Stat. 646; U. S. C. title 19, sec. 1001, par. 1101) provides that wools of certain kinds and hair of the camel

"* * * may be imported under bond in an amount to be fixed by the Secretary of the Treasury and under such regulations as he shall prescribe; and if within three years from the date of importation or withdrawal from bonded warehouse satisfactory proof is furnished that the wools or hair have been used in the manufacture of yarns which have been used in the manufacture of press cloth, camel's hair belting, rugs, carpets, or any other floor covering, or in the manufacture of knit or felt boots or heavy fulled lumbermen's socks, the duties shall be remitted or refunded * * *";

NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority vested in me by the foregoing provision of section 318 of the Tariff Act of 1930, do by this proclamation declare an emergency to exist.

And I do hereby authorize the Secretary of the Treasury, until further notice:

(1) In the case of wools or hair of the camel imported or withdrawn from bonded warehouse during the calendar year 1934, under bond, under the provisions of paragraph 1101 of the Tariff Act of 1930, to extend the period during which proof of use in manufacture may be furnished for not more than one year from and after the expiration of the three-year period prescribed in the said paragraph as extended for one year under the authority of Proclamation No. 2217,[1] dated December 30, 1936.

(2) In the case of wools or hair of the camel imported or withdrawn ffom bonded warehouse during the calendar year 1935, under bond, under the provisions of paragraph 1101 of the Tariff Act of 1930, to extend the period during which proof of use in manufacture may be furnished for not more than one year from and after the expiration of the three-year period prescribed in the said paragaph.

*Provided, however*, That in each and every case the Secretary of the Treasury shall require that the principal on the bond, in order to obtain the benefits under the extension granted, shall either furnish to the collector of customs for the district in which the bond was given the agreement of the sureties on such bond to remain bound under the terms and provisions of the bond to the same extent as if no extension were granted, or furnish an additional bond with acceptable sureties to cover the period of extension:

[1] 2 F. R. 2.

[1] 2 F. R. 22.

*And provided further*, That the extensions of one year herein authorized shall not apply to any wools or hair of the camel imported or withdrawn from bonded warehouse under bond during the calendar year 1934 on which the one-year period of extension authorized in the aforesaid proclamation of December 30, 1936, has expired, or to any wools or hair of the camel imported or withdrawn from bonded warehouse under bond during the calendar year 1935 on which the three-year period prescribed in paragraph 1101 of the Tariff Act of 1930 has expired.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

### National Bituminous Coal Commission.

[Order No. 162]

ORDER PROVIDING FOR HEARING TO DETERMINE NATURE AND EXTENT OF INTRASTATE COMMERCE IN BITUMINOUS COAL IN STATE OF COLORADO AND EFFECT OF SUCH COMMERCE UPON INTERSTATE COMMERCE IN SUCH COAL, TO BE HELD AT DENVER, COLORADO, ON JANUARY 13, 1938, BEFORE AN EXAMINER, AND NOTICE THEREOF

Pursuant to act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for othe purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission, upon being advised that substantially all transactions in bituminous coal in intrastate commerce within the State of Colorado directly affect interstate commerce in such coal and will cause undue and unreasonable advantage preference or prejudice as between such commerce in Colorado, on the one hand, and interstate commerce in such coal on the other hand as such interstate commerce is provided to be regulated by the Bituminous Coal Act of 1937, and that a hearing to determine the effect of intrastate transactions in bituminous coal upon interstate transactions in bituminous coal in the State of Colorado would be desirable, and upon investigation hereby orders:

1. That on January 13, 1938, commencing at the hour of ten (10) o'clock A. M., at the Hearing Room of the Commission in the Shirley-Savoy Hotel, Denver, Colorado, a public hearing will be held to determine the nature and extent of intrastate commerce in bituminous coal in the State of Colorado, and the effect of such commerce upon interstate commerce in such coal and to determine what, if any, undue or unreasonable advantage, preference or prejudice, will exist between localities in Colorado in such commerce on the one hand and interstate commerce as regulated by the Bituminous Coal Act of 1937 on the other hand and what, if any, undue, unreasonable or unjust discriminations against interstate commerce in coal have occurred or will occur under the administration of Section 4 of said Act to the end that the Commission may, after hearing, take such action as is necessary to give effect to the Bituminous Coal Code and to the provisions of Section 4–A of said Act.

2. That said hearing will be conducted by an Examiner designated by the Commission.

3. That interested parties may appear and present evidence at such hearing.

4. That any producer believing that particular transactions in intrastate commerce in bituminous coal are not subject to the provisions of the first paragraph of Section 4–A will, subsequent to the final order of the Commission in the proceeding herein noticed, be afforded full opportunity to file an application for exemption as provided in said section, upon which application a hearing will thereafter be held by the Commission upon proper notice given.

5. That failure of any producer to appear and present evidence at the hearing herein noticed to be held in Denver, Colorado, on January 13, 1938, will not prejudice the case of any producer to be heard upon such application.

6. That the Secretary of the Commission shall forthwith mail a copy of this notice to the Consumers' Counsel, to each known producer of bituminous coal in the State of Colorado, and to the secretaries of all of the district boards, and shall cause to be published at the expense of the Commission copy of this order and notice for three (3) days in newspapers of general circulation in the counties of Colorado in which bituminous coal is produced.

By order of the Commission.

Dated this 21st day of December, 1937.

## INTERSTATE COMMERCE COMMISSION.

At a General Session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 27th day of December, A. D. 1937.

[No. 24049]

ORDER IN THE MATTER OF A. JOHNSTON, GRAND CHIEF ENGINEER OF THE BROTHERHOOD OF LOCOMOTIVE ENGINEERS, ET AL., *v.* THE ATCHISON, TOPEKA & SANTA FE RAILWAY COMPANY ET AL.

This case being at issue upon complaint and answers on file, and having been duly heard and submitted by the parties and full investigation of the matters and things involved having been had, and the Commission having on the date hereof, made and filed a report containing its findings of fact and conclusions thereon, which said report is hereby referred to and made a part hereof: [1]

*It is ordered*, That the rules and instructions for the inspection and testing of steam locomotives and tenders and their appurtenances, approved and established in accordance with the act of February 17, 1911, as amended, be, and they are hereby, amended by the addition of a rule to be numbered 118 (c) which shall provide as follows:

118 (c) *Mechanical Stokers.*—All coal-burning steam locomotives which weigh on driving wheels 160,000 pounds or more to be used in fast or heavy passenger service, built on or after July 1, 1938, shall be equipped with a suitable type of mechanical stoker, and all coal-burning steam locomotives which weight on driving wheels 175,000 pounds or more to be used in fast or heavy freight service, built on or after July 1, 1938, shall be equipped with a suitable type of mechanical stoker and such stokers shall be properly maintained.

Each railroad which operates coal-burning locomotives of the above weights shall file with the Chief Inspector of the Bureau of Locomotive Inspection as of July 1, 1938, a list of all hand-fired coal-burning locomotives of the above weights built prior to July 1, 1938, which will in the future be used in fast or heavy service on its line, and mechanical stokers will be applied each twelve-month period to not less than 20 percent of the total number so listed, and all locomotives included in said list shall be so equipped before July 1, 1943, and such stokers shall be properly maintained.

*And it is further ordered*, That for the present this order shall not apply to deckless locomotives equipped with two cabs, which are generally known as the "Mother Hubbard type," built prior to July 1, 1938.
